2 to a western area water supply authority; to provide ~~grant repayment by the~~  
3 ~~authority~~ appropriations; to provide for loans and loan repayment; and to declare an emergency.

4 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

5 **SECTION 1.** Chapter 61-40 of the North Dakota Century Code is created and enacted as  
6 follows:

7 **61-40-01. Legislative declarations - Authority of western area water supply authority.**

8 The legislative assembly declares that many areas and localities in western North Dakota  
9 do not enjoy adequate quantities of high-quality drinking water; that other areas and localities in  
10 western North Dakota do not have sufficient quantities of water to ensure a dependable,  
11 long-term domestic or industrial water supply; that greater economic security and the protection  
12 of health and property benefits the land, natural resources, and water resources of this state;  
13 and that the promotion of the prosperity and general welfare of all of the people of this state  
14 depend on the effective development and utilization of the land and water resources of this  
15 state and necessitates and requires the exercise of the sovereign powers of this state and  
16 concern a public purpose. To accomplish this public purpose, it is declared necessary that a  
17 water authority to treat, store, and distribute water to western North Dakota be established to  
18 provide for the supply and distribution of water to the people of western North Dakota for  
19 purposes, including domestic, rural water, municipal, livestock, industrial, oil and gas  
20 development, and other uses, and provide for the future economic welfare and prosperity of the  
21 people of this state, and particularly the people of western North Dakota, by the creation and  
22 development of a western area water supply project for beneficial and public uses. The western  
23 area water supply authority may acquire, construct, improve, develop, and own water supply  
24 infrastructure and may enter water supply contracts with member cities, water districts, and

1 private users, such as oil and gas producers, for the sale of water for use within or outside the  
2 authority boundaries or the state. ~~The western area water supply authority shall consider in the~~  
3 ~~process of locating industrial water depots the location of private water sellers so as to minimize~~  
4 ~~the impact on private water sellers.~~

5 **61-40-02. Western area water supply authority.**

6 The western area water supply authority consists of participating political subdivisions  
7 located within McKenzie, Williams, Burke, Divide, and Mountrail Counties which enter a water  
8 supply contract with the authority. Other cities and water systems, within or outside the authority  
9 counties' boundaries, including cities or water systems in Montana, may contract with the  
10 authority for a bulk water supply. The authority is a political subdivision of the state, a  
11 governmental agency, body politic and corporate, with the authority to exercise the powers  
12 specified in this chapter, or which may be reasonably implied. Participating member entities  
13 may be required to pay dues, ~~or water sale income, or bond revenue~~ to the authority, as  
14 determined by the bylaws and future resolutions of the authority. Participating member entities  
15 may not withdraw from the authority or fail or refuse to pay any water sale income ~~or bond~~  
16 ~~revenue~~ to the authority; if ~~any bonds or refunding bonds issued under this chapter remain~~  
17 ~~outstanding or a grant of up to thirty million dollars~~ ~~the twenty-five million dollar zero interest loan~~  
18 from the state water commission has not been repaid.

19 **61-40-03. Western area water supply authority - Board of directors.**

20 1. The initial board of directors of the western area water supply authority consists of two  
21 representatives from each of the following entities: Williams rural water district,  
22 McKenzie County water resource district, the city of Williston, ~~BDW water system~~  
23 ~~association,~~ and R&T water supply association. ~~Each~~ ~~The governing body of each~~  
24 member entity shall select two representatives to the authority board ~~who are water~~  
25 ~~users of the member entity.~~ If a vacancy arises for a member entity, ~~that~~ ~~the governing~~  
26 ~~body of the member entity shall select a new representative to act on its behalf on the~~  
27 ~~authority board. In addition, the state engineer or designee is a voting member on the~~  
28 ~~authority's board of directors. Directors have a term of one year and may be~~  
29 ~~reappointed.~~

30 ~~2.2.~~ Additional political subdivisions or water systems may be given membership on the  
31 board upon two-thirds majority vote of the existing board. To be eligible for

1           membership on the board, the member entity must first contract with the authority for  
2           financial participation in the project.

3           3. A member entity may designate an alternate representative to attend meetings and to  
4           act on the member's behalf. The board may designate associate members who are  
5           nonvoting members of the board. Notwithstanding this section, **except for the state**  
6           **engineer or designee**, initial board members must be removed if they have not entered  
7           a contract with the authority, before August 1, 2013, for financial participation in the  
8           project.

9           **61-40-04. Board of directors - Officers - Meetings.**

10          1. The board of directors shall adopt such rules and bylaws for the conduct of the  
11          business affairs of the authority as it determines necessary, including the time and  
12          place of regular meetings of the board, financial participation structure for membership  
13          in the authority, and membership appointment and changes. Bylaws need to be  
14          approved by member entity boards.

15          2. The board shall elect from its members a chairman and a vice chairman. The board  
16          shall elect a secretary and a treasurer, which offices may be held by the same  
17          individual, and either or both offices may be held by an individual who is not a member  
18          of the board. Special meetings of the board may be called by the secretary on order of  
19          the chairman or upon written request of a majority of the qualified members of the  
20          board. Notice of a special meeting must be mailed to each member of the board at  
21          least six days before the meeting, provided that a special meeting may be held at any

26          expenses in the amount provided for by sections 44-08-04 and 54-06-09.

27          4. The initial board bylaws must direct board voting protocol. A weighted voting structure  
28          for board members is acceptable if the voting is based upon the volume of water  
29          purchased, the financial contributions of the stakeholder entities, or any other formula  
30          agreed by a majority of the board.

1       5. Before the bylaws become effective, the bylaws must be reviewed and approved by  
2       the attorney general.

4       In addition to authority declared under section 61-40-01, the board of directors of the

12      installation, or other facility for the storage, transportation, or utilization of water and all  
13      other appurtenant facilities used in connection with the authority. However, if the

17      which the right of way is located, may take immediate possession of the right of way,  
18      as authorized by section 16 of article I of the Constitution of North Dakota. Within thirty  
19      days after notice has been given in writing to the landowner by the clerk of the district  
20      court that a deposit has been made for the taking of a right of way as authorized in this  
21      subsection, the owner of the property taken may appeal to the district court by serving  
22      a notice of appeal upon the acquiring agency, and the matter must be tried at the next

24      prescribed for trials under chapter 32-15.

~~61-40-17. Debt service reserve – Legislative appropriation requirement.~~

~~1. In order to assure the maintenance of any required debt service reserve, including a letter of credit or similar instrument, for bonds issued under this chapter, the legislative assembly shall appropriate to the state water commission for deposit in the reserve fund or funds for the bonds, such sums if any, as are certified by the authority to the state water commission as necessary to restore the reserve fund or funds to an amount equal to the required debt service reserve. The state water commission shall include in its submission to the governor for inclusion by the governor in the biennial executive budget of the state any amount as is certified to the commission by the authority. If the governor does not include in the executive budget the amount certified, the state water commission shall request independently an appropriation from the legislative assembly for the certified amount. This section is applicable to any required debt service reserve for bonds issued under this chapter in an aggregate amount not to exceed one hundred fifty million dollars plus costs of issuance, capitalized interest,~~

~~credit enhancement, and any reserve funds required by agreements with or for the benefit of holders of the bonds for the purposes for which the authority is created under this chapter. However, the amount of any refinancing may not be counted toward the one hundred fifty million dollar limitation to the extent the amount does not exceed the outstanding amount of the obligations being refinanced plus costs of issuance.~~

~~2. To the extent any reserve fund is replenished under this section, the authority shall reimburse the state from any revenues, funds, or any other property of the authority as dictated by the budget section.~~

~~3. Any bond financing planned by the authority utilizing this section must undergo due diligence examination by the public finance authority and the Bank of North Dakota, and must receive approval of the budget section.~~

**~~60-40-18.61-40-09. Default.~~**

If the authority is in default in the payment of the principal of or interest on any of the obligations of the authority under this chapter, ~~if the legislative assembly has appropriated moneys to restore the reserve fund for the obligation in default under this chapter,~~ and if the budget section determines that the authority is unable to reimburse the state in the time period required by the budget section, the budget section may give written notice to the governing board of the authority that the state has taken possession and ownership of the water system of the authority and the liabilities of the authority. In addition, the state assumes the powers of the authority. If the authority is in default in the payment of the principal of or interest on the obligation to the Bank of North Dakota for a loan for which the Bank of North Dakota is the source of funds for the loan, the state water commission shall request funding from the legislative assembly to repay the principal and interest due. Upon written notice, the members of the governing board of the authority are immediately removed, and the state water commission is the governing board from the date of notice. If the state water commission determines that governance, possession, and ownership of the water system is not necessary for the authority to be able to reimburse the state in the necessary time period, the state water commission may develop a plan to return governance, possession, and ownership to the authority, subject to approval of the plan by the budget section.
