

HOUSE BILL NO. 1458

Introduced by

Representatives Skarphol, Drovdal, Froseth, Kreun, Nathe, Thoreson

1 A BILL ~~for an Act to create and enact chapter 17-09 and section 57-51-15.1 of the North Dakota~~
2 ~~Century Code, relating to establishment of an energy infrastructure development office and~~
3 ~~grant program and an energy infrastructure development fund for deposit of certain oil and gas~~
4 ~~gross production tax revenues; to amend and reenact sections 21-06-10 and 57-51-15 of the~~
5 ~~North Dakota Century Code, relating to allocation of revenues from federal flood control mineral~~
6 ~~leases and oil and gas gross production tax allocation; to provide an appropriation; to provide a~~
7 ~~continuing appropriation; and to provide an effective date.~~ for an Act to create and enact chapter
8 17-09, a new subsection to section 57-51-15, and section 57-51-15.1 of the North Dakota
9 Century Code, relating to establishment of an infrastructure development office and grant
10 program, an energy infrastructure development fund, and to provide for deposit and allocation
11 of certain oil and gas gross production tax revenues; to amend and reenact sections 21-06-10,
12 57-51-15, and 57-62-03 of the North Dakota Century Code, relating to allocation of revenues
13 from federal flood control mineral leases and oil and gas gross production tax allocation; to
14 repeal sections 57-62-03.1 and 57-62-04 of the North Dakota Century Code, relating to the
15 energy development impact office; to provide for a transfer; to provide appropriations; to provide
16 a continuing appropriation; to provide an effective date; and to provide an expiration date.

17 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

18 ~~— **SECTION 1.** Chapter 17-09 of the North Dakota Century Code is created and enacted as~~
19 ~~follows:~~

20 ~~— **17-09-01. Energy infrastructure development office – Appointment of director – Staff.**~~

21 ~~— The energy infrastructure development office is established within the office of the~~
22 ~~legislative council, the director of which must be appointed by and serve at the pleasure of the~~
23 ~~legislative management. The director must be knowledgeable in matters of state and local~~

1 ~~government and infrastructure development. The salary of the director must be set by the~~
2 ~~legislative management within the limits of legislative appropriations.~~

3 ~~— The director may employ such other persons as may be necessary and fix their~~
4 ~~compensation within the appropriation made for that purpose. The director may employ a~~
5 ~~highway engineer, certified public accountant, and certified planner among staff members. The~~
6 ~~director and staff shall monitor and cooperate with political subdivisions awarded grants to~~
7 ~~assure proper use and reporting of grant funds.~~

8 ~~— **17-09-02. Powers and duties of energy infrastructure development office director.**~~

9 ~~— The energy infrastructure development office director shall:~~

10 ~~— 1. Develop a plan for infrastructure development assistance through financial grants or~~
11 ~~other means of providing assistance for counties, cities, and townships in energy~~
12 ~~infrastructure development areas.~~

13 ~~— 2. Establish procedures and prescribe forms for political subdivisions to use in making~~
14 ~~application for and using grant funds as provided in this chapter.~~

15 ~~— 3. Make and administer grants to counties, cities, and townships as provided in this~~
16 ~~chapter and chapter 57-51 and within the limits of available funds. In determining the~~
17 ~~amount of grants for which political subdivisions are eligible, the amount of funds~~
18 ~~available and revenue to which such political subdivisions will be entitled from property~~
19 ~~taxes and local, state, and federal sources must be considered.~~

20 ~~— **17-09-03. Guidelines on energy infrastructure development grants.**~~

21 ~~— Grants distributed by the energy infrastructure development office must be used by~~
22 ~~grantees to meet energy infrastructure development needs. All grant applications and~~
23 ~~presentations to the energy infrastructure development office must be made by an appointed or~~
24 ~~elected government official.~~

25 ~~— **17-09-04. Energy infrastructure development grant fund – Continuing appropriation.**~~

26 ~~— The moneys accumulated in the energy infrastructure development grant fund are provided~~
27 ~~as a continuing appropriation and must be allocated for distribution through grants as provided~~
28 ~~by this chapter and chapter 57-51 through the energy infrastructure development office to cities,~~
29 ~~counties, and townships to meet energy infrastructure development needs.~~

30 ~~— **SECTION 2. AMENDMENT.** Section 21-06-10 of the North Dakota Century Code is~~
31 ~~amended and reenacted as follows:~~

1 ~~— 21-06-10. Moneys received through leasing of lands acquired by United States for~~
2 ~~flood control distributed to counties for schools and roads.~~

3 ~~—The state treasurer shall pay the moneys allocated to the state under 33 U.S.C. 701(c)(3) to~~
4 ~~the counties entitled to receive them in proportion to the area of the land in the county acquired~~
5 ~~by the United States for which compensation is being provided under 33 U.S.C. 701(c)(3) as~~
6 ~~that area bears to the total of these federal lands in the state. A county receiving an allocation~~
7 ~~under this section shall disburse the moneys received as follows:~~

8 ~~— 1.—One half must be paid to the school districts in the county which have lost land subject~~
9 ~~to taxation because of the acquisition of lands by the United States for which~~
10 ~~compensation is being provided under 33 U.S.C. 701(c)(3) in proportion to the area of~~
11 ~~these federal lands in each district as that area bears to the total of such lands in all of~~
12 ~~the school districts in the county. If, however, all of the land in a district has been~~
13 ~~acquired by the United States, that district's proportionate share of the funds allocated~~
14 ~~under this subsection must be paid into the county tuition fund and expended~~
15 ~~according to the law governing that fund.~~

16 ~~— 2.—One quarter must be paid to the county for road purposes to be expended as the~~
17 ~~county commissioners shall determine.~~

18 ~~— 3.—The final quarter must be allocated among the organized townships, if any, which have~~
19 ~~lost land subject to taxation because of land acquisitions by the United States for~~
20 ~~which compensation is being provided under 33 U.S.C. 701(c)(3) and the county for~~
21 ~~road purposes in proportion to the area of these lands in each township as that area~~
22 ~~bears to the total area of these federal lands in the county. The county must be~~
23 ~~allocated a similar proportionate share based on the area of these lands in the county~~
24 ~~not within an organized township.~~

25 ~~This section applies to all funds heretofore received or to be received by the counties entitled~~
26 ~~theretoshall deposit all amounts received in a special federal flood control mineral leasing fund~~
27 ~~in the county treasury. Amounts in the federal flood control mineral leasing fund may be used by~~
28 ~~the county and provided through grants to school districts in the county for one-time~~
29 ~~expenditures or to townships, or for the benefit of unorganized townships for township road and~~
30 ~~bridge purposes.~~

1 — **SECTION 3. AMENDMENT.** Section 57-51-15 of the North Dakota Century Code is
2 amended and reenacted as follows:

3 — **57-51-15. Apportionment and use of proceeds of tax.**

4 — The gross production tax provided for in this chapter must be apportioned as follows:

5 — 1. First the tax revenue collected under this chapter equal to one percent of the gross
6 value at the well of the oil and one fifth of the tax on gas must be deposited with the
7 state treasurer who shall:

8 — a. Credit thirty-three and one-third percent of the revenues to the oil and gas impact
9 grant fund, but not in an amount exceeding credit eight million dollars per
10 biennium;

11 — b. Allocate five hundred thousand dollars per fiscal year to each city in an
12 oil-producing county which has a population of seven thousand five hundred or
13 more and more than two percent of its private covered employment engaged in
14 the mining industry, according to data compiled by job service North Dakota. The
15 allocation under this subdivision must be doubled if the city has more than seven
16 and one-half percent of its private covered employment engaged in the mining
17 industry, according to data compiled by job service North Dakota; and

18 — c. Credit to the energy infrastructure development grant fund and credit the
19 remaining revenues to the state general fund.

20 — 2. After deduction of the amount provided in subsection 1, annual revenue collected
21 under this chapter from oil and gas produced in each county must be allocated as
22 follows:

23 — a. The first two million dollars must be allocated to the county.

24 — b. The next one million dollars must be allocated seventy-five percent to the county
25 and twenty-five percent to the state general fund.

26 — c. The next one million dollars must be allocated fifty percent to the county and fifty
27 percent to the state general fund.

28 — d. The next fourteen million dollars must be allocated twenty-five percent to the
29 county and seventy-five percent to the state general fund.

- 1 ~~———— e. — All annual revenue remaining after the allocation in subdivision d must be~~
2 ~~allocated ten percent to the county, fifteen percent to the energy infrastructure~~
3 ~~development fund, and ninetyseven five percent to the state general fund.~~
- 4 ~~———— 3. — The amount to which each county is entitled under subsection 2 must be allocated~~
5 ~~within the county so the first five million three hundred fifty thousand dollars is~~
6 ~~allocated under subsection 4 for each fiscal year and anyfor the first three million nine~~
7 ~~hundred thousand dollars for a county with a population of fewer than three thousand,~~
8 ~~four million one hundred thousand dollars for a county with a population of three~~
9 ~~thousand to six thousand, and four million six hundred thousand dollars for a county~~
10 ~~with a population of more than six thousand. Any amount received by a county~~
11 ~~exceeding five million three hundred fifty thousand dollars is creditedthe amount to be~~
12 ~~allocated under subsection 4 must be allocated by the county treasurer to the county~~
13 ~~infrastructure fund and allocated under subsection 5.~~
- 14 ~~———— 4. — a. — Forty five percent of all revenues allocated to any county for allocation under this~~
15 ~~subsection must be credited by the county treasurer to the county general fund.~~
16 ~~However, the allocation to a county under this subdivision must be credited to the~~
17 ~~state general fund if during that fiscal year the county does not levy a total of at~~
18 ~~least ten mills for combined levies for county road and bridge, farm to market and~~
19 ~~federal aidfederal aid road, and county road purposes.~~
- 20 ~~———— b. — Thirty five percent of all revenues allocated to any county for allocation under this~~
21 ~~subsection must be apportioned by the county treasurer no less than quarterly to~~
22 ~~school districts within the county on the average daily attendance distribution~~
23 ~~basis, as certified to the county treasurer by the county superintendent of~~
24 ~~schools. However, no school district may receive in any single academic year an~~
25 ~~amount under this subsection greater than the county average per student cost~~
26 ~~multiplied by seventy percent, then multiplied by the number of students in~~
27 ~~average daily attendance or the number of children of school age in the school~~
28 ~~census for the county, whichever is greater. Provided, however, that in any county~~
29 ~~in which the average daily attendance or the school census, whichever is greater,~~
30 ~~is fewer than four hundred, the county is entitled to one hundred twenty percent~~
31 ~~of the county average per student cost multiplied by the number of students in~~

1 average daily attendance or the number of children of school age in the school
2 census for the county, whichever is greater. Once this level has been reached
3 through distributions under this subsection, all excess funds to which the school
4 district would be entitled as part of its thirty five percent share must be deposited
5 instead in the county general fund. The county superintendent of schools of each
6 oil-producing county shall certify to the county treasurer by July first of each year
7 the amount to which each school district is limited pursuant to this subsection. As
8 used in this subsection, "average daily attendance" means the average daily
9 attendance for the school year immediately preceding the certification by the
10 county superintendent of schools required by this subsection.

11 — The countywide allocation to school districts under this subdivision is subject
12 to the following:

13 — (1) The first three hundred fifty thousand dollars is apportioned entirely among
14 school districts in the county.

15 — (2) The next three hundred fifty thousand dollars is apportioned seventy five
16 percent among school districts in the county and twenty five percent to the
17 county infrastructure fund.

18 — (3) The next two hundred sixty two thousand five hundred dollars is
19 apportioned two thirds among school districts in the county and one third to
20 the county infrastructure fund.

21 — (4) The next one hundred seventy five thousand dollars is apportioned fifty
22 percent among school districts in the county and fifty percent to the county
23 infrastructure fund.

24 — (5) Any remaining amount is apportioned to the county infrastructure fund
25 except from that remaining amount the following amounts are apportioned
26 among school districts in the county:

27 — (a) Four hundred ninety thousand dollars, for counties having a
28 population of three thousand or fewer.

29 — (b) Five hundred sixty thousand dollars, for counties having a population
30 of more than three thousand and fewer than six thousand.

1 ~~_____ (c) Seven hundred thirty-five thousand dollars, for counties having a~~
2 ~~population of six thousand or more.~~

3 ~~_____ c. Twenty percent of all revenues allocated to any county for allocation under this~~
4 ~~subsection must be apportioned no less than quarterly by the state treasurer to~~
5 ~~the incorporated cities of the county. Apportionment among cities under this~~
6 ~~subsection must be based upon the population of each incorporated city~~
7 ~~according to the last official decennial federal census. A city may not receive an~~
8 ~~allocation for a fiscal year under this subsection and subsection 5 which totals~~
9 ~~more than seven hundred fiftyone thousand dollars per capita. Once this level~~
10 ~~has been reached through distributions under this subsection, all excess funds to~~
11 ~~which any city would be entitled except for this limitation must be deposited~~
12 ~~instead in that county's general fund. In determining the population of any city in~~
13 ~~which total employment increases by more than two hundred percent seasonally~~
14 ~~due to tourism, the population of that city for purposes of this subdivision must be~~
15 ~~increased by eight hundred percent. If a city receives a direct allocation under~~
16 ~~subsection 16, the allocation to that city receives no allocation under this~~
17 ~~subsection is limited to sixty percent of the amount otherwise determined for that~~
18 ~~city under this subsection and the amount exceeding this limitation must be~~
19 ~~reallocated among the other cities in the county.~~

20 ~~_____ 5. a. Forty-five percent of all revenues to be allocated to a county infrastructure fund~~
21 ~~under subsections 3 and 4 under this subsection must be credited by the county~~
22 ~~treasurer to the county general fund. However, the allocation to a county general~~
23 ~~fund under this subdivision must be credited to the state general fund if during~~
24 ~~that fiscal year the county does not levy a total of at least ten mills for combined~~
25 ~~levies for county road and bridge, farm-to-market and federal aid federal aid road,~~
26 ~~and county road purposes.~~

27 ~~_____ b. Thirty-five percent of all revenues to be allocated to under this subsection must be~~
28 ~~deposited in the county infrastructure fund under subsections 3 and 4 must be~~
29 ~~allocated for allocation by the board of county commissioners to or for the benefit~~
30 ~~of townships in the county on the basis of applications by townships for funding to~~
31 ~~offset oil and gas development impact to township roads or other infrastructure~~

1 needs or applications by school districts for repair or replacement of school
2 district vehicles necessitated by damage or deterioration attributable to travel on
3 oil and gas development impacted roads. An organized township is not eligible
4 for an allocation of funds under this subdivision unless during that fiscal year that
5 township levies at least ten mills for township purposes. For unorganized
6 townships within the county, the board of county commissioners may expend an
7 appropriate portion of revenues under this subdivision to offset oil and gas
8 development impact to township roads or other infrastructure needs in those
9 townships. The amount deposited during each calendar year in the county
10 infrastructure fund which is designated for allocation under this subdivision and
11 which is unexpended and unobligated at the end of the calendar year must be
12 transferred by the county treasurer to the county road and bridge fund for use on
13 county road and bridge projects.

14 ~~c.~~ Twenty percent of all revenues to be allocated to any county infrastructure fund
15 under subsections 3 and 4 under this subsection must be allocated by the county
16 treasurer no less than quarterly to the incorporated cities of the county.
17 Apportionment among cities under this subsection must be based upon the
18 population of each incorporated city according to the last official decennial federal
19 census. A city may not receive an allocation for a fiscal year under this
20 subsection and subsection 4 which totals more than seven hundred fiftyone
21 thousand dollars per capita. Once this per capita limitation has been reached, all
22 excess funds to which a city would otherwise be entitled must be deposited
23 instead in that county's general fund. If a city receives a direct allocation under
24 subsection 16, the allocation to that city receives no allocation under this
25 subsection is limited to sixty percent of the amount otherwise determined for that
26 city under this subsection and the amount exceeding this limitation must be
27 reallocated among the other cities in the county.

28 ~~6.~~ From the revenue that would otherwise be deposited in the state general fund under
29 subsections 1 and 2, the state treasurer shall provide, in a single annual payment to
30 each city, in an oil producing county or county containing an oil refining facility, which
31 has a population of seven thousand five hundred or more, ten million dollars per fiscal

1 ~~year if the city's private covered employment engaged in the mining industry exceeds~~
2 ~~twelve percent, four million dollars per fiscal year if the city's private covered~~
3 ~~employment engaged in the mining industry exceeds two percent but does not exceed~~
4 ~~twelve percent, and two million dollars per fiscal year if the city's private covered~~
5 ~~employment engaged in the mining industry is measurable but totals two percent or~~
6 ~~less. For purposes of this subsection, job service North Dakota shall determine the~~
7 ~~percentage of private covered employment for cities eligible for allocation of funds~~
8 ~~under this subsection.~~

9 ~~7. Within sixty days after the end of each fiscal year, the board of county commissioners~~
10 ~~of each county that has received an allocation under this section shall file a report for~~
11 ~~the fiscal year with the tax commissioner, in a format prescribed by the tax~~
12 ~~commissioner, showing:~~

13 ~~a. The amount received by the county under this section and section 57-51-15.1 in~~
14 ~~its own behalf, the amount received by the county in federal flood control mineral~~
15 ~~lease revenue allocations, and the amount received by the county in lease,~~
16 ~~bonus, or royalty payments from any source and the amount of those funds~~
17 ~~expended for each purpose to which those funds were devoted, and the share of~~
18 ~~county property tax revenue expended for each of those purposes, and the~~
19 ~~amount of those funds unexpended at the end of the fiscal year; and~~

20 ~~b. The amount available in the county infrastructure fund for allocation to or for the~~
21 ~~benefit of townships or school districts, the amount allocated to each organized~~
22 ~~township or school district and the amount expended from each such allocation~~
23 ~~by that township or school district, the amount expended by the board of county~~
24 ~~commissioners on behalf of each unorganized township for which an expenditure~~
25 ~~was made, and the amount available for allocation to or for the benefit of~~
26 ~~townships or school districts which remained unexpended at the end of the fiscal~~
27 ~~year.~~

28 ~~Within sixty days after the time when reports under this subsection were due, the~~
29 ~~tax commissioner shall provide a report to the legislative council energy infrastructure~~
30 ~~development office compiling the information from reports received under this~~
31 ~~subsection.~~

1 — In developing the format for reports under this subsection, the tax commissioner
2 shall consult the energy infrastructure development impact office and at least two
3 county auditors from oil-producing counties.

4 — **SECTION 4.** Section 57-51-15.1 of the North Dakota Century Code is created and enacted
5 as follows:

6 — **57-51-15.1. Energy infrastructure development fund.**

7 — Revenue deposited in the energy infrastructure development fund is allocated as follows:

8 — 1. Seventy-seven and one-half percent to counties experiencing a need for energy
9 infrastructure development to implement the plan recommendations of the upper great
10 plains transportation institute submitted to the department of commerce in
11 December 2010. However, a county is ineligible for any funds under this subsection if
12 its current year property tax levies for county road and bridge purposes do not equal or
13 exceed its average property tax levies for county road and bridge purposes for the
14 prior four years.

15 — a. Eighty percent of the funds under this subsection must be allocated directly to
16 counties to fully or partially fund county infrastructure development projects on
17 the basis of contracts let by the county for those projects that have received a
18 prior funding commitment from the energy infrastructure development office. A
19 prior funding commitment may be obtained by the county by filing an application,
20 in a format prescribed by the director, for full or partial funding of a project. Upon
21 filing by the county with the energy infrastructure development office of notice of
22 entering an infrastructure improvement contract in conformity with a prior funding
23 commitment, in a format prescribed by the director, the director may authorize
24 disbursement of funds to the county for the amount of the funding commitment.

25 — b. Twenty percent of the funds under this subsection may be awarded by the energy
26 infrastructure development office as grants to counties to supplement funding
27 under subdivision a. Applications by counties for grant funding under this
28 subsection must be made in a format prescribed by the director. Grants under
29 this subdivision must obtain prior approval from the budget section of the
30 legislative management.

- 1 ~~2. Seven and one-half percent may be awarded by the energy infrastructure~~
2 ~~development office as grants to cities with a population of fewer than seven thousand~~
3 ~~five hundred to meet energy infrastructure development needs. Grants for city street~~
4 ~~overlay projects must be given priority among awards under this subsection.~~
- 5 ~~3. Seven and one-half percent to or for the benefit of townships.~~
- 6 ~~a. Two thirds of the funds under this subsection must be allocated directly to~~
7 ~~townships, or to the county for the benefit of unorganized townships, in annual~~
8 ~~payments of five thousand dollars for each township with at least one producing~~
9 ~~oil or gas well plus an additional three thousand two hundred fifty dollars for each~~
10 ~~additional ten producing wells, up to a maximum of ten thousand dollars per~~
11 ~~township. The unexpended amount under this subdivision at the end of the fiscal~~
12 ~~year must be allocated by the state treasurer among oil-producing counties in~~
13 ~~proportion to their shares of total oil production in the state and deposited by a~~
14 ~~recipient county in its county infrastructure fund for use as provided in section~~
15 ~~57-51-15.~~
- 16 ~~b. One third of the funds under this subsection may be awarded as grants by the~~
17 ~~energy infrastructure development office to townships, or to the county for the~~
18 ~~benefit of unorganized townships, requiring infrastructure development~~
19 ~~attributable to oil and gas development activity, including townships that have no~~
20 ~~production of oil or gas. Applications for township grants under this subdivision~~
21 ~~must be reviewed by the board of county commissioners, which shall prioritize~~
22 ~~and make its funding recommendation for each grant application.~~
- 23 ~~4. Seven and one-half percent for statewide rural emergency medical services funding.~~
24 ~~The state department of health shall establish and update biannually a strategic plan~~
25 ~~for integrated emergency medical services in this state. The funds available in this~~
26 ~~subsection are provided as a continuing appropriation to the state department of~~
27 ~~health to provide state financial assistance for licensed emergency medical services~~
28 ~~operations in accordance with the department's strategic plan for providing emergency~~
29 ~~medical services in this state. Up to two million two hundred fifty thousand dollars of~~
30 ~~the funds appropriated under this subsection are available for allocation without~~
31 ~~restriction but any funds exceeding that amount must obtain approval of the budget~~

~~section of the legislative management. This subsection is effective through June 30, 2015.~~

~~5. Grant awards under this section may be made over one or more years and may extend beyond the end of a biennium. Grant awards and unexpended grant funds are not subject to section 54-44.1-11.~~

~~6. During the fiscal year ending June 30, 2012, all allocations under this section must be made from funds specifically appropriated by the legislative assembly and any amounts deposited in the energy infrastructure development fund under subsection 2 of section 57-51-15 during that fiscal year must be accumulated and may not be expended until after June 30, 2012.~~

~~**SECTION 5. APPROPRIATION.** There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$102,000,000, or so much of the sum as may be necessary, to the energy infrastructure development office for the purpose of allocation for energy infrastructure enhancement as provided in section 57-51-15.1, for the first fiscal year of the biennium beginning July 1, 2011, and ending June 30, 2013.~~

~~**SECTION 6. APPROPRIATION.** There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$100,000, or so much of the sum as may be necessary, to job service North Dakota for the purpose of upgrading collection and use of employment data to correctly identify transportation employees who should be included for statistical purposes in private covered employment engaged in the mining industry, for the biennium beginning July 1, 2011, and ending June 30, 2013.~~

~~**SECTION 7. EFFECTIVE DATE.** This Act is effective for taxable events occurring after June 30, 2011.~~

SECTION 1. Chapter 17-09 of the North Dakota Century Code is created and enacted as follows:

17-09-01. Infrastructure development office - Appointment of director - Staff - Assistance of department of transportation.

The infrastructure development office is established within the office of the commissioner of the board of university and school lands, the director of which must be appointed by and serve at the pleasure of the governor. The director must be knowledgeable in matters of state and local government and infrastructure development.

1 The director may employ staff and fix staff compensation within the appropriation made for
2 that purpose. The director may employ a certified public accountant and certified planner among
3 staff members. The director and staff shall monitor and cooperate with political subdivisions
4 awarded grants to assure proper use and reporting of grant funds.

5 The department of transportation shall provide technical assistance as required by the
6 infrastructure development office to evaluate, prioritize, and monitor infrastructure development
7 projects and coordinate commencement of those projects with the department's projects. The
8 department shall monitor county, city, and township infrastructure development contracting to
9 determine if an adequate amount of qualified contractors are available to maintain competitive
10 bidding and timely completion of county, city, and township infrastructure development projects.
11 If the department finds there is an inadequate amount of qualified contractors, the department
12 shall assist counties, cities, and townships to reach a broader audience of qualified contractors
13 with requests for project bids.

14 **17-09-02. Powers and duties of infrastructure development office director.**

15 The infrastructure development office director shall:

- 16 1. Develop a plan for infrastructure development assistance through financial grants or
17 other means of providing assistance for counties, cities, and townships in energy
18 infrastructure development areas.
- 19 2. Establish procedures and prescribe forms for political subdivisions to use in making
20 application for and using grant funds as provided in this chapter.
- 21 3. Make and administer grants to counties, cities, and townships as provided in this
22 chapter and chapter 57-51 and within the limits of available funds. In determining the
23 amount of grants for which political subdivisions are eligible, the amount of funds
24 available and revenue to which such political subdivisions will be entitled from property
25 taxes and local, state, federal, and other sources must be considered.

26 **17-09-03. Guidelines on energy infrastructure development grants.**

27 Grants distributed by the infrastructure development office under section 57-51-15.1 must
28 be used by grantees to meet energy infrastructure development needs. Grants distributed by
29 the infrastructure development office from the energy infrastructure development grant fund
30 must be used by grantees to meet initial impacts affecting basic governmental services, and
31 directly necessitated by oil and gas development. As used in this section, "basic governmental

1 services" do not include activities relating to marriage or guidance counseling or services or
2 programs to alleviate other sociological impacts. All grant applications and presentations to the
3 infrastructure development office must be made by an appointed or elected government official.

4 **17-09-04. Energy infrastructure development fund and energy infrastructure**
5 **development grant fund - Continuing appropriation.**

6 There is created in the state treasury an energy infrastructure development fund and an
7 energy infrastructure development grant fund. The moneys accumulated in the energy
8 infrastructure development fund and energy infrastructure development grant fund are provided
9 as a continuing appropriation and must be allocated for distribution through grants as provided
10 by this chapter and chapter 57-51 through the energy infrastructure development office to cities,
11 counties, and townships.

12 **SECTION 2. AMENDMENT.** Section 21-06-10 of the North Dakota Century Code is
13 amended and reenacted as follows:

14 **21-06-10. Moneys received through leasing of lands acquired by United States for**
15 **flood control distributed to counties for schools and roads.**

16 The state treasurer shall pay the moneys allocated to the state under 33 U.S.C. 701(c)(3) to
17 the counties entitled to receive them in proportion to the area of the land in the county acquired
18 by the United States for which compensation is being provided under 33 U.S.C. 701(c)(3) as
19 that area bears to the total of these federal lands in the state. A county receiving an allocation
20 under this section shall ~~disburse the moneys received as follows:~~

- 21 ~~1. One half must be paid to the school districts in the county which have lost land subject~~
22 ~~to taxation because of the acquisition of lands by the United States for which~~
23 ~~compensation is being provided under 33 U.S.C. 701(c)(3) in proportion to the area of~~
24 ~~these federal lands in each district as that area bears to the total of such lands in all of~~
25 ~~the school districts in the county. If, however, all of the land in a district has been~~
26 ~~acquired by the United States, that district's proportionate share of the funds allocated~~
27 ~~under this subsection must be paid into the county tuition fund and expended~~
28 ~~according to the law governing that fund.~~
- 29 ~~2. One quarter must be paid to the county for road purposes to be expended as the~~
30 ~~county commissioners shall determine.~~

~~3. The final quarter must be allocated among the organized townships, if any, which have lost land subject to taxation because of land acquisitions by the United States for which compensation is being provided under 33 U.S.C. 701(c)(3) and the county for road purposes in proportion to the area of these lands in each township as that area bears to the total area of these federal lands in the county. The county must be allocated a similar proportionate share based on the area of these lands in the county not within an organized township.~~

~~This section applies to all funds heretofore received or to be received by the counties entitled thereto deposit all amounts received in a special federal flood control mineral leasing fund in the county treasury. From the federal flood control mineral leasing fund, the county treasurer shall make a payment to each school district in the county that has lost land subject to taxation because of the acquisition of lands by the United States for which compensation is being provided under 33 U.S.C. 701(c)(3). The payment to a school district is determined by multiplying the lost land acres in the school district times the current average taxable valuation of agricultural property in the county, multiplying the resulting amount by the current school district general fund mill rate before reduction under chapter 57-64, and multiplying that result times ten. However, the total of annual payments to school districts may not exceed fifty percent of the balance of the fund. After the annual payment to school districts, remaining amounts in the federal flood control mineral leasing fund may be used for infrastructure development by the county, provided through grants to school districts in the county for one-time expenditures, or provided through grants to townships, or for the benefit of unorganized townships, for township road and bridge purposes.~~

SECTION 3. AMENDMENT. Section 57-51-15 of the North Dakota Century Code is amended and reenacted as follows:

57-51-15. Apportionment and use of proceeds of tax.

The gross production tax provided for in this chapter must be apportioned as follows:

1. First the tax revenue collected under this chapter equal to one percent of the gross value at the well of the oil and one-fifth of the tax on gas must be deposited with the state treasurer who shall:

- 1 ~~a. Credit thirty three and one-third percent of the revenues to the oil and gas impact~~
2 ~~grant fund, but not in an amount exceeding credit eight million dollars per~~
3 ~~biennium;~~
- 4 ~~b. Allocate five hundred thousand dollars per fiscal year to each city in an~~
5 ~~oil-producing county which has a population of seven thousand five hundred or~~
6 ~~more and more than two percent of its private covered employment engaged in~~
7 ~~the mining industry, according to data compiled by job service North Dakota. The~~
8 ~~allocation under this subdivision must be doubled if the city has more than seven~~
9 ~~and one-half percent of its private covered employment engaged in the mining~~
10 ~~industry, according to data compiled by job service North Dakota; and~~
- 11 ~~c. Credit to the energy infrastructure development grant fund and credit the~~
12 remaining revenues to the state general fund.
- 13 2. After deduction of the amount provided in subsection 1, annual revenue collected
14 under this chapter from oil and gas produced in each county must be allocated as
15 follows:
- 16 a. The first two million dollars must be allocated to the county.
- 17 b. The next one million dollars must be allocated seventy-five percent to the county
18 and twenty-five percent to the state general fund.
- 19 c. The next one million dollars must be allocated fifty percent to the county and fifty
20 percent to the state general fund.
- 21 d. The next fourteen million dollars must be allocated twenty-five percent to the
22 county and seventy-five percent to the state general fund.
- 23 e. All annual revenue remaining after the allocation in subdivision d must be
24 allocated ten percent to the county, fifteen percent to the energy infrastructure
25 development fund, and ~~ninety~~seventy-five percent to the state general fund.
- 26 3. The amount to which each county is entitled under subsection 2 must be allocated
27 within the county ~~so the first five million three hundred fifty thousand dollars is~~
28 ~~allocated~~ under subsection 4 for each fiscal year ~~and any~~ for the first three million nine
29 hundred thousand dollars for a county with a population of fewer than three thousand,
30 four million one hundred thousand dollars for a county with a population of three
31 thousand to six thousand, and four million six hundred thousand dollars for a county

1 with a population of more than six thousand. Any amount received by a county
2 exceeding ~~five million three hundred fifty thousand dollars is credited~~the amount to be
3 allocated under subsection 4 must be allocated by the county treasurer ~~to the county-~~
4 ~~infrastructure fund and allocated~~ under subsection 5.

- 5 4. a. Forty-five percent of all revenues allocated to any county for allocation under this
6 subsection must be credited by the county treasurer to the county general fund.
7 However, the allocation to a county under this subdivision must be credited to the
8 state general fund if during that fiscal year the county does not levy a total of at
9 least ten mills for combined levies for county road and bridge, farm-to-market and
10 ~~federal aid~~federal aid road, and county road purposes.
- 11 b. Thirty-five percent of all revenues allocated to any county for allocation under this
12 subsection must be apportioned by the county treasurer no less than quarterly to
13 school districts within the county on the average daily attendance distribution
14 basis, as certified to the county treasurer by the county superintendent of
15 schools. However, no school district may receive in any single academic year an
16 amount under this subsection greater than the county average per student cost
17 multiplied by seventy percent, then multiplied by the number of students in
18 average daily attendance or the number of children of school age in the school
19 census for the county, whichever is greater. Provided, however, that in any county
20 in which the average daily attendance or the school census, whichever is greater,
21 is fewer than four hundred, the county is entitled to one hundred twenty percent
22 of the county average per student cost multiplied by the number of students in
23 average daily attendance or the number of children of school age in the school
24 census for the county, whichever is greater. Once this level has been reached
25 through distributions under this subsection, all excess funds to which the school
26 district would be entitled as part of its thirty-five percent share must be deposited
27 instead in the county general fund. The county superintendent of schools of each
28 oil-producing county shall certify to the county treasurer by July first of each year
29 the amount to which each school district is limited pursuant to this subsection. As
30 used in this subsection, "average daily attendance" means the average daily

1 attendance for the school year immediately preceding the certification by the
2 county superintendent of schools required by this subsection.

3 ~~The countywide allocation to school districts under this subdivision is subject~~
4 ~~to the following:~~

5 ~~(1) The first three hundred fifty thousand dollars is apportioned entirely among~~
6 ~~school districts in the county.~~

7 ~~(2) The next three hundred fifty thousand dollars is apportioned seventy-five~~
8 ~~percent among school districts in the county and twenty-five percent to the~~
9 ~~county infrastructure fund.~~

10 ~~(3) The next two hundred sixty-two thousand five hundred dollars is~~
11 ~~apportioned two-thirds among school districts in the county and one-third to~~
12 ~~the county infrastructure fund.~~

13 ~~(4) The next one hundred seventy-five thousand dollars is apportioned fifty~~
14 ~~percent among school districts in the county and fifty percent to the county~~
15 ~~infrastructure fund.~~

16 ~~(5) Any remaining amount is apportioned to the county infrastructure fund~~
17 ~~except from that remaining amount the following amounts are apportioned~~
18 ~~among school districts in the county:~~

19 ~~(a) Four hundred ninety thousand dollars, for counties having a~~
20 ~~population of three thousand or fewer.~~

21 ~~(b) Five hundred sixty thousand dollars, for counties having a population~~
22 ~~of more than three thousand and fewer than six thousand.~~

23 ~~(c) Seven hundred thirty-five thousand dollars, for counties having a~~
24 ~~population of six thousand or more.~~

25 c. Twenty percent of all revenues allocated to any county for allocation under this
26 subsection must be apportioned no less than quarterly by the state treasurer to
27 the incorporated cities of the county. Apportionment among cities under this
28 subsection must be based upon the population of each incorporated city
29 according to the last official decennial federal census. A city may not receive an
30 allocation for a fiscal year under this subsection and subsection 5 which totals
31 more than seven hundred fifty dollars per capita. Once this level has been

1 reached through distributions under this subsection, all excess funds to which
2 any city would be entitled except for this limitation must be deposited instead in
3 that county's general fund. In determining the population of any city in which total
4 employment increases by more than two hundred percent seasonally due to
5 tourism, the population of that city for purposes of this subdivision must be
6 increased by eight hundred percent. If a city receives a direct allocation under
7 subsection ~~46~~, ~~the allocation to~~ that city receives no allocation under this
8 subsection ~~is limited to sixty percent of the amount otherwise determined for that~~
9 ~~city under this subsection and the amount exceeding this limitation must be~~
10 ~~reallocated among the other cities in the county.~~

- 11 5. a. Forty-five percent of all revenues to be allocated ~~to a county infrastructure fund~~
12 ~~under subsections 3 and 4~~ under this subsection must be credited by the county
13 treasurer to the county general fund. However, the allocation to a county general
14 fund under this subdivision must be credited to the state general fund if during
15 that fiscal year the county does not levy a total of at least ten mills for combined
16 levies for county road and bridge, farm-to-market and ~~federal aid~~ federal aid road,
17 and county road purposes.
- 18 b. Thirty-five percent of all revenues to be allocated ~~to~~ under this subsection must be
19 deposited in the county infrastructure fund ~~under subsections 3 and 4 must be~~
20 ~~allocated~~ for allocation by the board of county commissioners to or for the benefit
21 of townships in the county on the basis of applications by townships for funding to
22 offset oil and gas development impact to township roads or other infrastructure
23 needs ~~or applications by school districts for repair or replacement of school~~
24 ~~district vehicles necessitated by damage or deterioration attributable to travel on~~
25 ~~oil and gas development impacted roads~~. An organized township is not eligible
26 for an allocation of funds under this subdivision unless during that fiscal year that
27 township levies at least ten mills for township purposes. For unorganized
28 townships within the county, the board of county commissioners may expend an
29 appropriate portion of revenues under this subdivision to offset oil and gas
30 development impact to township roads or other infrastructure needs in those
31 townships. The amount deposited during each calendar year in the county

1 infrastructure fund which is ~~designated for allocation under this subdivision and~~
2 ~~which is~~ unexpended and unobligated at the end of the calendar year must be
3 transferred by the county treasurer to the county road and bridge fund for use on
4 county road and bridge projects.

- 5 c. Twenty percent of all revenues to be allocated ~~to any county infrastructure fund~~
6 ~~under subsections 3 and 4~~ under this subsection must be allocated by the county
7 treasurer no less than quarterly to the incorporated cities of the county.

8 Apportionment among cities under this subsection must be based upon the
9 population of each incorporated city according to the last official decennial federal
10 census. A city may not receive an allocation for a fiscal year under this
11 subsection and subsection 4 which totals more than seven hundred fifty dollars
12 per capita. Once this per capita limitation has been reached, all excess funds to
13 which a city would otherwise be entitled must be deposited instead in that
14 county's general fund. If a city receives a direct allocation under subsection ~~4~~6,
15 ~~the allocation~~ to that city receives no allocation under this subsection ~~is limited to~~
16 ~~sixty percent of the amount otherwise determined for that city under this~~
17 ~~subsection and the amount exceeding this limitation must be reallocated among~~
18 ~~the other cities in the county.~~

- 19 6. From the revenue that would otherwise be deposited in the state general fund under
20 subsections 1 and 2, the state treasurer shall provide a payment in September of each
21 year, or as soon as funds become available, to each city with a population of seven
22 thousand five hundred or more which is located in an oil-producing county. The
23 payment under this subsection must be ten million dollars per fiscal year if the city's
24 private covered employment engaged in the mining industry exceeds twelve percent,
25 five million dollars per fiscal year if the city's private covered employment engaged in
26 the mining industry exceeds two percent but does not exceed twelve percent, and two
27 million five hundred thousand dollars per fiscal year if the city's private covered
28 employment engaged in the mining industry is measurable but totals two percent or
29 less. For purposes of this subsection, job service North Dakota shall determine the
30 annual percentage of oil and gas-related private employment for cities eligible for
31 allocation of funds under this subsection.

- 1 7. Within ~~sixty~~thirty days after the end of each ~~fiscal~~calendar year, the board of county
2 commissioners of each county that has received an allocation under this section shall
3 file a report for the ~~fiscal~~calendar year with the tax commissioner, in a format
4 prescribed by the tax commissioner, ~~showing~~including:
- 5 a. ~~The amount received by the county in its own behalf, the amount of those funds-~~
6 ~~expended for each purpose to which funds were devoted, and the share of~~
7 ~~county property tax revenue expended for each of those purposes, and the~~
8 ~~amount of those funds unexpended at the end of the fiscal year~~The county's
9 statement of revenues and expenditures; and
- 10 b. The amount available in the county infrastructure fund for allocation to or for the
11 benefit of townships ~~or school districts~~, the amount allocated to each organized
12 township ~~or school district~~ and the amount expended from each such allocation
13 by that township ~~or school district~~, the amount expended by the board of county
14 commissioners on behalf of each unorganized township for which an expenditure
15 was made, and the amount available for allocation to or for the benefit of
16 townships ~~or school districts~~ which remained unexpended at the end of the fiscal
17 year.

18 Within ~~sixty~~fifteen days after the time when reports under this subsection were
19 due, the tax commissioner shall provide ~~a report~~the reports to the legislative council
20 ~~compiling the information from reports received under this subsection~~and the
21 infrastructure development office.

22 ~~In developing the format for reports under this subsection, the tax commissioner-~~
23 ~~shall consult the energy development impact office and at least two county auditors-~~
24 ~~from oil-producing counties.~~

25 **SECTION 4.** A new subsection to section 57-51-15 of the North Dakota Century Code is
26 created and enacted as follows:

27 From the revenue that would otherwise be deposited in the state general fund under
28 subsections 1 and 2, the state treasurer shall provide a payment in September of each
29 year, or as soon as funds become available, to each city that has a population of
30 seven thousand five hundred or more which is located in an oil-producing county. The
31 payment must be four hundred thousand dollars for each full or fractional percentage

1 point of the city's oil and gas-related private employment, but the payment to a city
2 may not exceed ten million dollars. For purposes of this subsection, job service North
3 Dakota shall determine the annual percentage of oil and gas-related private
4 employment for cities eligible for allocation of funds under this subsection.

5 **SECTION 5.** Section 57-51-15.1 of the North Dakota Century Code is created and enacted
6 as follows:

7 **57-51-15.1. Energy infrastructure development fund - Continuing appropriation.**

8 Revenue deposited in the energy infrastructure development fund is appropriated to the
9 infrastructure development office to be allocated as follows:

10 1. Eighty percent to counties experiencing a need for energy infrastructure development
11 to implement the plan recommendations of the upper great plains transportation
12 institute submitted to the department of commerce in December 2010. However, the
13 allocation to a county under this subdivision must be credited to the state general fund
14 if during that fiscal year the county does not levy a total of at least ten mills for
15 combined levies for county road and bridge, farm-to-market and federal aid road, and
16 county road purposes.

17 a. Eighty percent of the funds under this subsection must be allocated monthly
18 directly to counties and allocated among counties in proportion to their shares of
19 total oil production in the state. Funds received by counties under this subdivision
20 must be used to fully or partially fund county infrastructure development projects.

21 b. Twenty percent of the funds under this subsection may be awarded by the
22 infrastructure development office as grants to counties to supplement funding
23 under subdivision a or to provide full or partial funding for county infrastructure
24 development projects not fully funded under subdivision a. Applications by
25 counties for grant funding under this subsection must be made in a format
26 prescribed by the director. Grants under this subdivision must obtain prior
27 approval from the budget section of the legislative management.

28 2. Twelve percent may be awarded by the infrastructure development office as grants to
29 cities with a population of fewer than seven thousand five hundred to meet energy
30 infrastructure development needs.

31 3. Eight percent to or for the benefit of townships.

1 a. Two-thirds of the funds under this subsection must be allocated directly to
2 townships, or to the county for the benefit of unorganized townships, in annual
3 payments of five thousand dollars for each township with at least one producing
4 oil or gas well plus an additional three hundred fifty dollars for each additional
5 producing well, up to a maximum of ten thousand dollars per township. The
6 unexpended amount under this subdivision at the end of the fiscal year must be
7 transferred to the state treasurer to be allocated among oil-producing counties in
8 proportion to their shares of total oil production in the state and deposited by a
9 recipient county in its county infrastructure fund for use as provided in section
10 57-51-15.

11 b. One-third of the funds under this subsection may be awarded as grants by the
12 infrastructure development office to townships, or to the county for the benefit of
13 unorganized townships, requiring infrastructure development attributable to oil
14 and gas development activity, including townships that have no production of oil
15 or gas. Applications for township grants under this subdivision must be reviewed
16 by the board of county commissioners, which shall prioritize and make its funding
17 recommendation for each grant application.

18 4. Grant awards under this section may be made over one or more years and may
19 extend beyond the end of a biennium. Grant awards and unexpended grant funds are
20 not subject to section 54-44.1-11.

21 5. Through August 31, 2012, all allocations under this section must be made from funds
22 specifically appropriated for that purpose by the legislative assembly and any amounts
23 deposited in the energy infrastructure development fund under section 57-51-15 after
24 June 30, 2011, must be accumulated and may not be expended until after August 31,
25 2012. The amount that may be expended from the energy infrastructure development
26 fund after August 31, 2012, is subject to determination by the budget section of the
27 legislative management, after receiving the recommendation of the infrastructure
28 development office.

29 **SECTION 6. AMENDMENT.** Section 57-62-03 of the North Dakota Century Code is
30 amended and reenacted as follows:

1 **57-62-03. Loans - Terms and conditions - Repayment.**

2 The board of university and school lands is authorized to make loans to coal
3 development-impacted counties, cities, and school districts before or after the beginning of
4 actual coal mining from moneys deposited in the coal development trust fund established by
5 subsection 2 of section 57-62-02. Loans made prior to actual mining must be preceded by site
6 permitting and by beginning actual construction of the mine or its mine mouth facility. Loans
7 may be made for any purpose for which a grant may be made pursuant to this chapter, but
8 before making any loan the board of university and school lands shall receive the
9 recommendation of the ~~energy~~energyinfrastructure development ~~impact~~-office. The board of university
10 and school lands shall prescribe the terms and conditions of such loans within the provisions of
11 this chapter and shall require a warrant executed by the governing body of the county, city, or
12 school district as evidence of such loan. The warrants must bear interest at a rate not to exceed
13 six percent. The warrants shall be payable only from the allocations of moneys from the coal
14 development fund to the borrowing county, city, or school district and shall not constitute a
15 general obligation of the county, city, or school district nor may such loans be considered as
16 indebtedness of the county, city, or school district. Loans made in advance of actual coal mining
17 must provide that repayment is to begin when the borrowing county, city, or school district
18 receives allocations from the coal development fund. The terms of the loan must provide that
19 not less than ten percent of each allocation made to the borrowing county, city, or school district
20 pursuant to this chapter must be withheld by the state treasurer to repay the principal of the
21 warrants and the interest thereon. The amount withheld by the state treasurer as payment of
22 interest must be deposited in the general fund and the amount withheld by the state treasurer
23 as payment of principal must be remitted to the board of university and school lands and
24 deposited by the board in the trust fund provided for in subsection 2 of section 57-62-02. The
25 warrants executed by the county, city, or school district have all of the qualities and incidents of
26 negotiable paper and are not subject to taxation by the state of North Dakota or by any political
27 subdivision thereof.

28 The board of university and school lands is authorized to sell such warrants to other parties
29 and the proceeds of such sale which constitute principal must be deposited in the coal
30 development trust fund and that which constitutes interest in the general fund. If the future
31 allocations of moneys to the borrowing county, city, or school district should, for any reason,

1 permanently cease, the loan shall be canceled except that if the county, city, or school district is
2 merged with another county, city, or school district which receives an allocation of moneys from
3 the coal development fund, the surviving county, city, or school district is obligated to repay the
4 loan from such allocation. If the loan is canceled due to the permanent cessation of allocations
5 of moneys to the county, city, or school district pursuant to this chapter, the board of university
6 and school lands shall cancel those warrants it holds from such county, city, or school district
7 and shall pay from any moneys in the trust fund provided for in subsection 2 of section 57-62-02
8 the principal and interest, as it becomes due, on those warrants of the county, city, or school
9 district which are held by another party.

10 **SECTION 7. REPEAL.** Sections 57-62-03.1 and 57-62-04 of the North Dakota Century
11 Code are repealed.

12 **SECTION 8. TRANSFER.** As soon as feasible after June 30, 2011, the state treasurer shall
13 close out the oil and gas impact grant fund and transfer any remaining unobligated balance to
14 the energy infrastructure development grant fund.

15 **SECTION 9. APPROPRIATION.** There is appropriated out of any moneys in the general
16 fund in the state treasury, not otherwise appropriated, the sum of \$172,500,000, or so much of
17 the sum as may be necessary, to the infrastructure development office for the purpose of
18 allocation for energy infrastructure enhancement as provided in section 57-51-15.1, with not
19 more than \$102,500,000 of that amount to be expended during the first fiscal year of the
20 biennium beginning July 1, 2011, and ending June 30, 2013. From the amount appropriated in
21 this section, the infrastructure development office may transfer \$350,000, or so much of the sum
22 as may be necessary, to the upper great plains transportation institute for the purpose of
23 updating its December 2010 report on energy infrastructure development and monitoring
24 progress on implementation of the recommendations that report by political subdivisions, for the
25 biennium beginning July 1, 2011, and ending June 30, 2013.

26 **SECTION 10. APPROPRIATION.** There is appropriated out of any moneys in the general
27 fund in the state treasury, not otherwise appropriated, the sum of \$100,000, or so much of the
28 sum as may be necessary, to job service North Dakota for the purpose of upgrading collection
29 and use of employment data to correctly identify transportation and other employees who
30 should be included for statistical purposes in oil and gas-related employment, for the biennium
31 beginning July 1, 2011, and ending June 30, 2013.

1 **SECTION 11. EFFECTIVE DATE - EXPIRATION DATE.** Sections 3 and 5 of this Act are
2 effective for taxable events occurring after June 30, 2011, and through June 30, 2015, and are
3 thereafter ineffective. Section 4 of this Act is effective for taxable events occurring after June 30,
4 2015.
