5           through the exchange;
- 6           b. The premium rates and contract language have been approved by the  
7           commissioner;
- 8           c. The health benefit plan provides at least a bronze level of coverage, as

12           individuals eligible for catastrophic coverage;
- 13           d. The health benefit plan's cost-sharing requirements do not exceed the limits  
14           established under section 1302(c)(1) of the federal act, and if the plan is offered

- 11           a. On the basis that the plan is a fee-for-service plan;  
12           b. Through the imposition of premium price controls by the division; or  
13           c. On the basis that the health benefit plan provides treatments necessary to

15           inappropriate or too costly.
- 16          3. Notwithstanding subsection 2, a health carrier that does not offer a qualified health  
17           plan in the exchange during the initial and subsequent annual open enrollment  
18           periods, is prohibited from offering a qualified health plan in the exchange before the  
19           following annual open enrollment period. The division may permit a health carrier that  
20           did not offer a qualified health plan in the exchange during the initial and subsequent  
21           annual open enrollment periods to begin offering a qualified health plan in the  
22           exchange before the following annual open enrollment period if the division  
23           determines that it is in the interest of qualified individuals and qualified employers in  
24           this state.
- 25          4. Except as otherwise provided in subsections 2 and 3, a health carrier that ceases to  
26           offer any qualified health plans in the exchange after January first of a plan year is  
27           prohibited from offering a new qualified health plan in the exchange for a period of two  
28           years from the date of the health carrier's exit from the exchange. This subsection  
29           does not prohibit an affiliated health carrier from continuing to offer a qualified health  
30           plan in the exchange. The division may permit a health carrier that ceases to offer any  
31           qualified health plans in the exchange after January first of a plan year to begin

1 offering a new qualified health plan in the exchange if the division determines that  
2 making the qualified health plan available through the exchange is in the interest of  
3 qualified individuals and qualified employers in this state.

4 5. The division shall require each health carrier seeking certification of a health benefit  
5 plan as a qualified health plan to:

6 a. Submit verification that any premium increase was approved by the

11 Public Health Service Act, into consideration when determining whether to allow  
12 the carrier to make health benefit plans available through the exchange;

13 b. In plain language, as that term is defined in section 1311(e)(3)(B) of the federal  
14 act, make available to the public and submit to the division, the secretary, and the

27 c. Provide in a timely manner upon the request of the individual, the amount of  
28 cost-sharing, including deductibles, copayments, and coinsurance under the  
29 individual's health benefit plan or coverage that the individual would be  
30 responsible for paying with respect to the furnishing of a specific item or service  
31 by a participating provider. At a minimum, this information must be made

1                   available to the individual through an internet website and through other means  
2                   for individuals without access to the internet.

3       6.   The division may not exempt any health carrier seeking certification of a qualified  
4           health plan, regardless of the type or size of the carrier, from state licensure or  
5           solvency requirements and shall apply the criteria of this section in a manner that  
6           ensures parity between or among health carriers participating in the exchange.

7       **54-66-13. Qualified dental plans.**

8       Except as otherwise provided under this section, to the extent relevant, the provisions of  
9       this chapter which are applicable to qualified health plans also apply to qualified dental plans.  
10      The carrier must be licensed to offer dental coverage, but need not be licensed to offer other  
11      health benefits; the plan must be limited to dental and oral health benefits, without substantially  
12      duplicating the benefits typically offered by health benefit plans without dental coverage and at a  
13      minimum must include the essential pediatric dental benefits prescribed by the secretary  
14      pursuant to section 1302(b)(1)(J) of the federal act, and such other dental benefits as the  
15      exchange or the secretary may specify by regulation; and carriers may jointly offer a  
16      comprehensive plan through the exchange in which the dental benefits are provided by a carrier  
17      through a qualified dental plan and the other benefits are provided by a carrier through a  
18      qualified health plan, provided that the plans are priced separately and are also made available  
19      for purchase separately at the same price.

20      **54-66-14. Funding - Publication of costs - Health benefit exchange fund - Reports to**

24           consistent with federal law. Until January 1, 2015, the division, the information

6           based on insurance, the funding plan is limited to collecting such funds from hospital,  
7           surgical, medical expense, and major medical insurance and the funding plan must be  
8           applied universally to plans inside and outside the exchange.
- 9           4. The board, in consultation with the commissioner, may charge assessments or user

12           website advertisement revenues.
- 13           5. Services performed by the exchange on behalf of other state or federal programs may  
14           not be funded with premium taxes, assessments, or user fees collected from health  
15           carriers under this chapter.
- 16           6. Any funding unspent by the division may be used for future state operation of the  
17           exchange or returned to health carriers as a credit if the division charges fees to  
18           carriers.
- 19           7. There is created in the state treasury the health benefit exchange fund. Any moneys  
20           appropriated to the division; received or generated by assessments or user fees; or

22           deposited in this fund. Interest earned on moneys in the fund must be credited to the  
23           fund.
- 24           8. The division shall publish the administrative and operational costs of the exchange, on  
25           an internet website to educate consumers on such costs. The information published  
26           must include the amount of premiums and federal premium subsidies collected by the  
27           exchange; the amount and source of any other fees collected by the board for  
28           purposes of supporting the exchange's operations; and any money lost to waste,
