- 2 A. **Bill and fiscal impact summary:** *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

Engrossed HB 1176 with Senate Amendments creates a new oil and gas gross production tax distribution formula.

- B. **Fiscal impact sections:** *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

Section 3 of engrossed HB 1176 with Senate Amendments changes the distribution funding formula for local governments to 30% local / 70% state for all revenue in excess of \$5 million generated from each county each year. The definition of hub city is expanded in section 3, based on information provided annually by Job Service ND, and including provisions for hub cities that are not in oil producing counties. The changes in Sections 3 are expected to allow for total local revenue estimated to be \$631 million in the 2015-17 biennium, relative to the March 2015 forecast, an increase of \$133 million over the current law distribution. This \$133 million in additional revenue is shared by counties, cities, and school districts, although it is shown as "counties" in 1B above. Revenues in the strategic investment and improvements fund are expected to decrease by the same \$133 million.

Section 3 also directs \$140 million to the oil and gas impact grant fund. \$139.3 million of this amount is appropriated in Section 5 of the bill.

Section 4 of engrossed HB 1176 with Senate Amendments appropriates \$112 million to the Department of Transportation.
