SECTION 4. AMENDMENT. Subdivision b of subsection 2 of section 57-62-02 of the North Dakota Century Code is amended and reenacted as follows:

b. If the tipple of a currently active coal mining operation in a county is within fifteen miles [24.14 kilometers] of another county in which no coal is mined, the revenue from the production not exceeding the production limitation in a calendar year which is apportioned from that coal mining operation according to this subsection must be allocated, subject to the definitions of terms and the requirements in paragraph 4, as provided in this subdivision. For purposes of this subdivision, the production limitation is ~~three million eight hundred thousand tons [3447302.02-metric tons] through calendar year 1995, three million six hundred thousand tons [3265865.07 metric tons] in calendar years 1996 and 1997, and three million four hundred thousand tons [3084428.12 metric tons] in calendar years after~~ three million four hundred thousand tons [3084428.12 metric tons] through calendar year 2017 and three million tons [2721554.22 metric tons] after calendar year 2017. Revenue from production exceeding the production limitation in a calendar year from that coal mining operation must be allocated only within the coal-producing county under subdivision a. Allocations under this subdivision must be made as follows:

- (1) Thirty percent must be paid by the state treasurer to the incorporated cities of the coal-producing county and to any city of a non-coal-producing county when any portion of the city lies within fifteen miles [24.14 kilometers] of the tipple of the currently active coal mining operation in the coal-producing county, based upon the population of each incorporated city according to the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to such census.

1 (2) Forty percent must be divided by the state treasurer between the general
2 fund of the coal-producing county and the general fund of any
3 non-coal-producing county when any portion of the latter county lies within
4 fifteen miles [24.14 kilometers] of the tipple of the currently active coal
5 mining operation in the coal-producing county. The non-coal-producing
6 county portion must be based upon the ratio which the assessed valuation
7 of all quarter sections of land in that county, any portion of which lies within
8 fifteen miles [24.14 kilometers] of the tipple of the currently active coal
9 mining operation, bears to the combined assessed valuations of all land in
10 the coal-producing county and the quarter sections of land in the
11 non-coal-producing county within fifteen miles [24.14 kilometers] of the
12 tipple of the currently active coal mining operation. The county director of
13 tax equalization of the coal-producing county shall certify to the state
14 treasurer the number of quarter sections of land in the non-coal-producing
15 counties which lie at least in part within fifteen miles [24.14 kilometers] of
16 the tipple of the currently active coal mining operation and their assessed
17 valuations.

18 (3) Thirty percent must be apportioned by the state treasurer to school districts
19 within the coal-producing county and to school districts in adjoining
20 non-coal-producing counties when a portion of those school districts' land
21 includes any of the quarter sections of land certified by the director of tax
22 equalization to the state treasurer to be eligible to share county funds as
23 provided for in paragraph 2. The county superintendent of the
24 non-coal-producing counties shall certify to the state treasurer the number
25 of students actually residing on these quarter sections lying outside the
26 coal-producing county and each school district in non-coal-producing
27 counties shall receive a portion of the money under this paragraph based
28 upon the ratio of the number of children residing on quarter sections of that
29 school district within the fifteen-mile [24.14-kilometer] radius of the tipple of
30 a currently active coal mining operation to the total number of schoolchildren
31 from the coal-producing county combined with all the schoolchildren

1 certified to be living on quarter sections within fifteen miles [24.14
2 kilometers] of the tipple of the currently active coal mining operation in the
3 coal-producing county.

4 (4) For the purposes of this subdivision:

5 (a) The terms "currently active coal mining operation in a county",
6 "currently active coal mining operation in the coal-producing county",
7 and "currently active coal mining operation" mean a coal mining
8 operation that produced more than one hundred fifty thousand tons
9 [136077.71 metric tons] of coal in a coal-producing county during the
10 prior quarterly period.

11 (b) The term "coal-producing county" means a county in which more than
12 one hundred fifty thousand tons [136077.71 metric tons] of coal were
13 mined in the prior quarterly period.

14 (c) The term "another county in which no coal is mined" means a county
15 in which not more than seventy-five thousand tons [68038.86 metric
16 tons] of coal were mined in the prior quarterly period.

17 (d) The terms "non-coal-producing county" and "non-coal-producing
18 counties" mean any county in which not more than seventy-five
19 thousand tons [68038.86 metric tons] of coal were mined in the prior
20 quarterly period.

21 (e) In computing each amount to be paid as provided in paragraph 1, 2,
22 or 3 for coal severance tax revenue from coal mined during a monthly
23 period, the state treasurer shall deduct from the allocation the amount
24 of coal severance tax revenue, if any, that the governmental body in
25 the non-coal-producing county received from the coal mined in the
26 non-coal-producing county during the same monthly period.

27 (5) The state treasurer shall allocate funds provided by legislative appropriation
28 to cities, the county general fund, and school districts within a
29 coal-producing county according to the allocation method provided in
30 subdivision a in an amount to offset fifty percent of the loss of that county's
31 share of coal severance tax revenue allocated to a non-coal-producing

1 county under this subdivision in the previous calendar year for the payments
2 through calendar year 2018 and to offset thirty percent of the loss of that
3 county's share of coal severance tax revenue allocated to a non-coal-
4 producing county under this subdivision in the previous calendar year for
5 payments after calendar year 2018. The state treasurer shall make the
6 allocation and distribute the funds, within the limits of legislative
7 appropriations, under this paragraph during the first month of each calendar
8 year. The state treasurer shall include in each biennial budget request the
9 amounts estimated to be necessary for the biennium for purposes of this
10 paragraph, based on the allocations under this subdivision in the most
11 recent calendar years.
