- 2 A. **Bill and fiscal impact summary:** *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

The bill instructs the Department of Human Services (Department) to implement the new Developmental Disabilities (DD) rate setting methodology on August 1, 2017 or once the Department certifies that the Centers for Medicare and Medicaid has approved the new rate setting method.

- B. **Fiscal impact sections:** *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

The DD rate setting methodology, which SB 2187 would require to be implemented, was developed by the Steering Committee. The Department planned to implement the methodology 1-1-2017, but halted plans when some providers expressed concerns about changes in their revenue under the new methodology. SB 2187 would require the Department to implement the system, using the same methodology as the Department planned to implement on 1-1-2017. While there will be varied impacts on individual providers, SB 2187 does not require the Department to change the methodology that has been developed; therefore, as introduced, SB 2187 should have no fiscal impact on HB 1072.

HB 1012 does not contain any of the cost or caseload changes used by the Department in constructing the 2017-2019 budget; therefore, funding to accommodate the cost and caseload changes would need to be added to HB 1012 in order for the Department to sustain DD services in 2017-2019.
