This condition does not prohibit the use of funds appropriated for project carryover in section 1 of this Act for Fargo area flood control projects, subject to section 7 of this Act.

SECTION 6. CONDITION ON OTHER SECTION 1 LINE ITEMS. The \$593,320,273 appropriated to the state water commission for salaries and wages, operating expenses, capital assets, water supply - grants, rural water supply - grants, Mouse River flood control, flood control projects other than Fargo area flood control including the Fargo Moorhead diversion, and general water - grants in section 1 of this Act for the period beginning with the effective date of this Act, and ending June 30, 2021, may be used only for salaries and wages, operating expenses, capital assets, water supply - grants, rural water supply - grants, Mouse River flood control, flood control projects other than Fargo area flood control including the Fargo Moorhead diversion, and general water - grants, respectively, and the appropriation of those funds is conditioned on the funds not being expended on Fargo area flood control projects including the Fargo Moorhead diversion.

SECTION 8. CONDITION ON APPROPRIATIONS. The \$66,500,000 appropriated to the state water commission for Fargo area flood control including the Fargo Moorhead diversion in section 1 of this Act and the amount the state water commission approved for Fargo area flood control including the Fargo Moorhead diversion by April 1, 2019, which amount is included in project carryover funds appropriated in section 1 of this Act, may not be used for any work under plan B for the Fargo

SECTION 10. FARGO FLOOD CONTROL PROJECT DOWNSTREAM IMPACT MITIGATION. The Fargo Moorhead metropolitan flood risk management project operations may not cause a downstream federal emergency management agency accredited flood protection system in North Dakota to lose its accreditation. The metropolitan flood diversion authority shall take reasonable measures to mitigate downstream impacts to accredited flood protection systems, existing as of April 1, 2019, located in North Dakota bordering the Red River resulting from the operations of the Fargo Moorhead diversion. For purposes of this section, negative downstream impacts to accredited flood protection systems are caused when the water surface profile passing through such systems is raised by more than one-tenth of one foot for the one hundred-year event or when the ability of the accredited flood protection system to protect against a two hundred-year or five hundred-year event is compromised. The metropolitan flood diversion authority shall collaborate with the state engineer and accredited flood protection systems in North Dakota to implement this requirement.

SECTION 11. LEGISLATIVE INTENT - MOUSE RIVER FLOOD CONTROL PROJECT FUNDING. Except for funding provided during bienniums prior to the 2017-19 biennium, it is the intent of the sixty-sixth legislative assembly that the state provide no more than \$193,000,000 of state funding for Mouse River flood control projects within the city limits of Minot. It is the intent of the sixty-sixth legislative assembly that of the \$193,000,000, the state provide \$57,713,284 during the 2017-19 biennium and that the \$135,286,716 yet to be designated by the state for the Mouse River flood control projects, within the city limits of Minot, be provided during the 2019-21, 2021-23, and 2023-25 bienniums.

SECTION 12. LEGISLATIVE INTENT - RED RIVER VALLEY WATER SUPPLY PROJECT - REPORT TO LEGISLATIVE MANAGEMENT - APPLICATION. The Garrison Diversion Conservancy District shall report on a regular basis to the legislative management's water topics overview committee during the 2019-20 interim regarding the progress of the Red River valley water supply project. The provisions of section 13 of this Act do not apply to the funding referenced in this section.

The completed Red River valley water supply plan document, which will be the basis and justification for project construction, must include alternative selection, water supply needs, projected project costs, easement acquisitions, environmental regulation compliance to include issuance of a final national pollutant discharge elimination system permit, and acquisition of all other state and federal permits required for the construction of any project features intended to be constructed with funding provided during the 2017-19 biennium and the 2019-21 biennium;
 - b. A signed bureau of reclamation water service contract agreeing to a minimum of one hundred sixty-five cubic feet per second over a minimum of forty years or equivalent to ensure an adequate water source for the project's needs;
 - c. Prioritized project features for phase one construction; and
 - d. A recommendation of funding options for all phases of the Red River valley water supply project.
2. The state water commission shall review any associated appeals or litigation before releasing any funds for the project.
3. Any funding received to initiate construction of phase one prioritized project features identified in subsection 1 may be spent and construction of phase one may begin only after the budget section receives and approves certification from the state water commission and the state engineer that all items listed in subsection 1 have been accomplished.

The state water commission may select a basinwide plan submitted under this subsection for funding and enter into one cooperative agreement with the water resource districts and joint water resource districts that submitted the plan.

2. The cooperative agreement must include the amount of funding the state water commission will provide, the applicable cost-share requirements, a prohibition on using funds provided under the agreement for planning or any purpose other than implementation of the basinwide plan, and the obligations of the state water commission and each water resource district and joint water resource district in the basin in implementing the basinwide plan. The agreement also must provide for monitoring and oversight of the basinwide plan's implementation.
3. The state water commission shall report to the legislative management on the results of this pilot project no later than August 1, 2020.
