SECTION 2. Section 50-24.1-40 of the North Dakota Century Code is created and enacted as follows:

50-24.1-40. Medical assistance - Tribal health care coordination agreements - Continuing appropriation - Report to legislative management.

1. As used in this section:

a. "Care coordination agreement" means an agreement between a health care provider and tribal health care organization which will result in one hundred percent federal funding for eligible medical assistance provided to an American Indian.

b. "Tribal health care organization" means Indian health services or a tribal entity providing health care under the federal Indian Self-Determination and Education Assistance Act of 1975 [Pub. L. 93-638; 88 Stat. 2203; 25 U.S.C. 5301 et seq.].

2. The department of human services shall facilitate care coordination agreements. Of any federal funding received in excess of the state's regular share of federal medical assistance funding which results from care coordination agreements, the department shall deposit seventy percent in the tribal health care coordination fund and thirty percent in the general fund.

3. There is created in the state treasury a tribal health care coordination fund.

a. Moneys in the fund are appropriated to the department on a continuing basis for distribution to a tribal government in accordance with an agreement between the department and a tribal government. The agreement between the department and a tribal government must require the tribe to:

- (1) Use the money distributed under this section for health-related purposes. Health-related purposes may include health programs or services, marketing or education related to health-related programs or services, and capital construction directly related to health-related programs or services.
- (2) Submit to the department annual reports detailing the use of the money distributed under this section.

(3) Submit to the department every four years an audit report, conducted by an independent licensed certified public accountant, of the tribal government use of the money distributed under this section. A tribal government may use money distributed under this section to pay for this audit report. At the discretion of a tribal government, an audit may be conducted more often than every four years.

b. The distribution of moneys from the fund to a tribal government must be in proportion to the federal funding received from care coordination agreement requests for services originating from within that tribal nation.

c. At least annually, upon completion of any auditing and verification actions of the department, the department shall distribute moneys from the fund to the tribal government.

d. If a tribal government fails to file with the department a timely annual report or audit report, the department shall withhold distribution of moneys from the fund to the tribal government until the report is filed.

e. If an audit report or the department's review of the annual report finds a tribal government used moneys distributed from the fund for a purpose inconsistent with this section, the department shall withhold future distributions to that tribal government in an amount equal to the money used improperly. The department shall distribute money withheld from a tribal government under this subdivision if a future audit report indicates moneys distributed from the fund are used for purposes consistent with this section.

4. Before August of each even-numbered year, the department shall compile and summarize the annual reports and audit reports from the participating tribal governments and provide the legislative management with a biennial report on the fund and tribal government use of money distributed from the fund.

SECTION 3. CONTINGENT EXPIRATION DATE. Section 2 of this Act is effective until the executive director of the department of human services certifies to the secretary of state and the legislative council the federal government ended the medical assistance expansion program or that the medical assistance expansion program provider reimbursement rates are less than commercial rates.

1 **SECTION 4. EMERGENCY.** This Act is declared to be an emergency measure.
