AGRICULTURE COMMISSIONER AND PESTICIDE CONTROL BOARD

Mr. Dutch Bialke, General Counsel, Department of Agriculture, presented testimony ([Appendix A](#)) regarding the January 2022 rules of the Agriculture Commissioner and the Pesticide Control Board.

Mr. Bialke reported the state administrative rules regulating industrial hemp are being repealed because the federal rules preempt the state administrative rules. He indicated the federal rules will allow industrial hemp farmers to expand operations.

Mr. Bialke reported the administrative rules regarding the out-of-state quarantining of moss balls infested with zebra mussels do not have the effect of regulating outside the state of North Dakota, but restrict the movement of infested moss balls into or through North Dakota.

Mr. Bialke reported the administrative rules regarding the grain warehouse inspection program are modeled on South Dakota and the livestock bonding rules.

DEPARTMENT OF ENVIRONMENTAL QUALITY

Mr. David Glatt, Director, Department of Environmental Quality, presented testimony ([Appendix B](#)) regarding the January 2022 rules of the department relating to North Dakota Administrative Code (NDAC) Article 33.1-14, North Dakota Boiler Rules.

SUPERINTENDENT OF PUBLIC INSTRUCTION

Mr. Jim Upgren, Assistant Director, Office of School Approval and Opportunity, Department of Public Instruction, presented testimony ([Appendix G](#)) regarding the January 2022 rules of the Superintendent of Public Instruction.

Mr. Upgren reported the administrative rules regarding virtual learning are intended to address the situation in which a school is not available for student use, not to address when an individual student is unable to attend school due to illness.

Mr. Josef Kolosky, Director, Office of School Approval and Opportunity, Department of Public Instruction, noted if an absent child attends school remotely due to an illness, that child is counted as absent, due in part to liability issues.

Committee discussion indicated it may be possible to address legislatively the issue of school liability for absent children attending school remotely. Committee members raised the concern of the virtual learning application process being based on the department's receipt of approved school board minutes, when the action taken by the school board is effective at the time of the school board action, not at the time the minutes are approved.
