House Appropriations Committee

House Bill 1431 Committee Hearing Feb. 1, 2021

Testimony of Dennis Reep, North Dakota Water Users Association

Good afternoon, Chairman Delzer and members of the House Appropriations Committee. I am Dennis Reep and I serve as a district director for the North Dakota Water Users Association. The North Dakota Water Users Association supports passage of House Bill 1431.

The Water Users Association was organized in 1959 to protect, develop, and manage North Dakota's water resources. It is currently comprised of over 300 local, statewide and regional organizations in North Dakota who have an active interest in water. We work closely with the North Dakota Water Coalition to build consensus within the water community regarding funding needs and priorities. Collaboration is essential in meeting the water resource management needs of North Dakota.

The State of North Dakota has been a generous partner in advancing critical local and regional water projects. Through House Bill 1431, we have an exciting opportunity to expand that legacy. Using earnings of the Legacy Fund to establish creative finance options for important water infrastructure projects will allow us to invest in important water projects in communities across the state.

We appreciate the state's long-standing commitment to fund water projects and urge your continued support of North Dakota's water infrastructure financing through passage of House Bill 1431.
