House Finance and Taxation Committee

#### Re: Written Testimony in Support of H.B. 1425.

Dear Members of the House Finance and Taxation Committee:

My name is Luke Heck, and I am a resident of Fargo, ND. I submit this written testimony in support of H.B. 1425. In short, while I anticipate providing detailed in-person testimony in support of this bill, I wanted to supplement my oral testimony with some background information prior to the hearing.

H.B. 1425 is a necessary first step in ensuring a portion of our legacy fund dollars directly benefit our state, and our state's economy, for the long term. Currently, the legacy fund has nearly eight billion dollars of principal accrued. Of that nearly eight billion dollars, approximately 1.2% of that principal is invested within North Dakota through the use of fixed income assets. The remaining 98.8% of the fund's principal is invested out-of-state and out-of-country. Specifically, our legacy fund is invested in roughly 89 different countries instead of within the state. In other words, our legacy fund principal is apparently invested everywhere but North Dakota. These foreign investments include substantial investments into Chinese companies with significant ties to the Chinese Communist Party, Russian governmental bonds, and multiple other questionable-at-best foreign entities. There is little doubt that our legacy fund principal would be much more prudently invested if it was allocated to Park River as opposed to Putin.

Furthermore, the people of North Dakota have resoundingly voiced their support for utilizing the legacy fund for in-state investing. I have attached to this testimony an informational release from an October 2020 survey conducted by the Jamestown/Stutsman County Economic Development Corporation (JSDC). JDSC's survey found that, by a 10-to-1 margin, North Dakotans want a specific and greater portion of the legacy fund to be invested within North Dakota. Moreover, 72% of those surveyed support the legacy fund portfolio taking on additional risk in order to accomplish that. Simply put, HB 1425 is a significant first step in accomplishing and accommodating the will of the people of the State of North Dakota.

I have also attached for the committee's consideration four additional documents. First, I have included two articles, one written by myself, and another by Rob Port, both outlining the problematic foreign investments that our state's legacy fund principal are currently invested in. Second, I have attached the legacy fund's foreign holdings as of June 30, 2020, as well as the fund's tobacco holdings from the same time period.

218 NP Avenue | PO Box 1389 | Fargo, ND 58107-1389 Phone: 701.237.6983 | Fax: 701.237.0847 | Toll Free: 800.677.5024 H.B. 1425 is a proposal that affords North Dakota an opportunity to create a self-sustainable model for long term economic growth. It provides opportunity for our communities to better flourish by allowing them business and other economic growth opportunities that are currently unavailable to them, through the legacy fund. If we can invest legacy fund principal in similarly designed systems such as the African Development Bank which we currently are invested in, then why can't we commit a specific portion of legacy fund principal to assist in Killdeer as well in Kenya?

North Dakotans want a significant portion of the legacy fund to be invested within the state. They believe in themselves, and in their neighbors, to make sure that money benefits their communities and our state economically. H.B. 1425 is a substantial step in giving these North Dakotans not only what they want done with the legacy fund, but it gives them hope and excitement and the prospect of building strong, long term growth within the state. The question now turns to you. *Do you believe in North Dakotans*? If so, I respectfully urge you to vote "Do Pass" for H.B. 1425.

Very truly yours,

Luke T. Heck

## **ND Voters Support Major Changes to Legacy Fund**

## Ground-Breaking Research Conducted For Economic Development in North Dakota

The people of North Dakota overwhelmingly support investing the Legacy Fund within the state, according to a new statewide survey of likely voters conducted by WPA Intelligence.

By a margin of 10-1 (79%-8%), voters want "a specific and greater portion" of the fund to be invested within North Dakota.

Overall, the survey calls for a major shift from the current policies governing the fund. Almost two in three voters want the legacy fund to be "more concerned about economic development projects and less concerned about getting a return on investment in things like stocks and bonds."

Moreover, by a 72%-12% margin, voters support the legacy fund "taking on additional risk" if it means "investing in North Dakota companies, opportunities and North Dakota economic development."

"This ground-breaking research is clear. The people of North Dakota want the legacy fund invested in economic development projects in our own state. They want to see the fund used to grow and diversify our economy. They are less interested in traditional investments such as stocks and bonds. And they disagree strongly with the questionable investments being made outside our country," said Connie Ova, chief executive officer of the Jamestown Stutsman County Development Corporation, a member of the Economic Development Association of North Dakota (EDND). "The State Investment Board should heed these results and adjust their policies accordingly."

"We brought in a highly respected national public opinion research firm with significant experience in North Dakota, WPA Intelligence, to help us design and conduct this important research," Ova said. We will be sharing these findings with all the members of EDND and with anyone willing to listen to what our citizens want the Legacy Fund to do in the future."

The survey includes many other key findings including:

- By a nearly 8-1 margin (76% to 11%), voters say North Dakota investment advisors are more qualified than advisors outside the state to make decisions on behalf of the Legacy Fund. (Currently, the fund uses a San Francisco based consultant and over 20 Wall Street money managers who decide how to invest the fund. Voters overwhelming want that policy to change).
- By a 4-1 margin, voters want the Legacy Fund to "take on additional risk" with its investments if it means keeping the money in North Dakota for economic development opportunities.
- By a 78% to 10% margin, the voters support the recent proposal to invest a fixed 10% of the Legacy Fund principal in North Dakota. However, 4 in 10 voters are willing to allocate over 60% of the fund to be invested in the state.
- 63% of voters disapprove of even a small portion (20%) of the Legacy Fund being invested internationally. Nearly half of all voters <u>strongly</u> disapprove of these international investments.
- Most voters rank certificates of deposit (CDs) low on the scale of how they would allocate investments of the Legacy Fund.

"The people of North Dakota believe that investing in the state means more than purchasing CDs at the Bank of North Dakota. Actually, the voters clearly rank CDs low on the investment scale. They want the Legacy Fund invested in North Dakota economic development projects over stocks, bonds or CDs. And they certainly don't want the money going out of state," said Chris Wilson, CEO of WPA Intelligence, who conducted the survey following recent reports about Legacy Fund investment proposals.

"It's not a close call. The voters want dramatic changes made to the policies of the State Investment Board when it comes to investing the principal of the Legacy Fund. The people want the fund invested to grow and diversify our own economy, not the economies of other states or countries," Ova said.

According to Chris Wilson, this survey could also lay the groundwork for a statewide ballot initiative in 2022 when the voters could add the words "within the state" to clarify the current constitutional language. That simple change would require the State Investment Board to invest 100% of the Legacy Fund within North Dakota.

About the Legacy Fund: North Dakota voters approved a constitutional amendment in 2010 to establish the Legacy Fund. While there is no stated purpose in the Constitution for how the fund is to be spent or invested, many believe it was going to be used to directly benefit North Dakota's economy and build "lasting legacies in our local communities." The legacy fund is not a pension fund. It has no retiree obligations against it. One thing that is clear in the constitutional language, however, is that the State Investment Board (SIB) "shall invest the principal of the Legacy Fund." How and where to invest the funds are decisions made by the 11 member SIB.

###

# Guest Post: Why Are We Investing in China and Not North Dakota?

Featured This And That 3 hours ago | by Rob Port

This guest post was submitted by attorney and Fargo resident Luke Heck.

As we approach the ten-year anniversary of our state's adoption of the Legacy Fund into our Constitution this November, it is time that we, as a state, consider ensuring that the fund's principal, or at least part of it, is actually being invested within North Dakota. Right now, this unfortunately is not the case. Instead, rather than investing any of the fund's principal within the state, the State Investment Board has invested in multiple out-of-state and out-of-country investments, including multiple companies with less than stellar connections to the Chinese Communist Party, and some who have allegedly been complicit in China's ongoing human rights violations.

Recent articles in the <u>Fargo Forum</u> and elsewhere have raised concerns of our state investing funds into Chinese companies. In one article, Senator Kevin Cramer is quoted regarding this concern, noting that "many people have no idea that, through their contributions to pension funds or retirement accounts, they could be helping pay for actions they don't support or find concerning." Further review of our state's

investment of Legacy Fund principal evidences that not just pension holders and retirees may be helping pay for actions they don't support or find concerning, but our entire state is.

For instance, our Legacy Fund has invested over 12 million dollars in the Chinese company Tencent, a company that President Trump, as recently as August 6, 2020, issued an <a href="Executive Order">Executive Order</a> prohibiting from doing business in the United States. Tencent owns WeChat, a social media application used by the Chinese government to <a href="Surveil">Surveil</a> its country's Uyghur ethnic minority, and take <a href="action">action</a> against those who were expressing their religious views on social media. Earlier this year, released drone <a href="footage">footage</a> captured the Chinese government transferring multiple detained Uyghurs by train from, as former National Security Adviser John Bolton characterized them in his book, one concentration camp to another.

Our Legacy Fund also has invested nearly 15 million dollars in Alibaba, a Chinese company that the U.S. government has blacklisted as a major source of counterfeit goods sold to U.S. consumers.

The concerns, however, do not end with Tencent. Our Legacy Fund also has invested nearly 15 million dollars in Alibaba, a Chinese company that the U.S. government has <u>blacklisted</u> as a major source of <u>counterfeit</u> goods sold to U.S. consumers. LVMH, short for Louis Vuitton Moet Hennessy, has over 14 million dollars of Legacy Fund principal invested in it as well. The Trump administration has slapped significant tariffs on LVMH for "ripping off" the United States, causing its profits to <u>plunge</u>. However, LVMH did purchase Tiffany & Co., so return on investment or not, the company is at least ensuring that our state is well diversified in foreign luxury product holdings. To add to this, one of the Legacy Fund's 32 Wall Street money managers, Goldmann Sachs, just recently settled on of its worst scandals in history, paying out \$3.9 billion to Malaysia for the bank's role in the apparent theft of billions of dollars from a, wait for it, government investment fund.

Keep in mind, the millions invested in these companies is just pertaining to the Legacy Fund, and additional financial investments into these companies could exist as well when considering our other state investment funds. Additionally, these are just investments that have been identifiable to date. We, at least I, do not know what other international companies with checkered histories that the Legacy Fund has principal invested in. With that, it appears rather prudent that our state investment entities disclose to the public the big picture, and let us see what companies we have entrusted out Legacy Fund with. Transparency is necessary to ensure our money is going is being invested in companies that can be trusted to ethically handle it.

The Legacy Fund that we, as North Dakotans, placed in our Constitution is being invested in questionable-at-best foreign companies, while simultaneously remaining sealed for any of its principal to be used within North Dakota. In other words, we are investing in Main Street, China, while not doing anything for Main Street, Carrington. We need to fix this. In-state investments, be it with our local banks or investments in businesses, expansions, attractions, or ideas, would surely generate the same amount of revenue that these foreign conglomerates are providing percentage wise. So long as we invest within the state wisely, of course.

My hope is that, by raising this issue, the powers that be in Bismarck are able to take steps to address our current investment portfolio, and will ensure our Legacy Fund is not only being invested in international companies, but also within the state. If not, I would urge voters to consider voting on a measure, as soon as 2022, to ensure our money is being invested, at least in part, where it was earned: within the State of North Dakota.

I will end with this. Last legislative session, the North Dakota Legislature <u>created</u> an interim Legislative Management Committee for Legacy Fund Earnings. The language creating this committee expressly cites that the committee may consider public input on the use of legacy fund earnings, as well as review the operation of other funds, such as Norway's sovereign wealth fund. A <u>basic review</u> of Norway's sovereign wealth fund evidences that Norway has excluded a number of companies from their fund for activities deemed to be in breach of its ethical guidelines. One excluded company is Phillip Morris, big tobacco in other words, which is far from shocking. However, Norway further excluded Wal-Mart, yes Wal-Mart, from its investment portfolio due to human and labor rights concerns.

If the country's model our legislature is recommended to review for guidance bans Wal-Mart from their fund, right or wrong, is it really too much to ask that we invest some of our Legacy Fund principal within our state, and maybe not invest in international companies banned, blacklisted, or both by our federal government? At least not in companies allegedly complicit in the Chinese Communist Party's human rights violations?

After all, it is our money.

## Port: From Chinese censorship to Putin's regime, ND's Legacy Fund makes objectionable investments

Written By: Rob Port | Oct 5th 2020 - 11am.

MINOT, N.D. — Are the members of North Dakota's State Investment Board paying attention to how their money managers are investing North Dakota dollars?

If they are, shame on them, because those dollars are invested in some deeply troubling ways.

If they aren't, well, shame on them again.

Tencent is an internet behemoth based in China. For Americans, it's most well-known product is probably the instant messaging platform WeChat.

In May, CNBC reported that Tencent has been using data collected from its global users to help China's communist government censor internet communications. That same month, U.S. senators called for a ban on the company, calling it an espionage operation. "Anyone concerned about human rights, electoral interference by foreign powers, or privacy violations by tech giants should divest from the company, including retirement funds," Freedom House researcher Sarah Cook wrote last year.

North Dakota's Legacy Fund has invested over \$27 million in the company according to a disclosure of foreign investments made by the State Investment Board in response to an open records request.

CNAC HK Finbridge is the finance arm of ChemChina, a Chinese-owned chemical manufacturer. In August, ChemChina was named to a list of "Communist Chinese military companies" by the U.S. Department of Defense, making it eligible for sanctions.

North Dakota's Legacy Fund has invested more than \$449,000 in the company.

Account

The fund has \$10 million invested in China Merchants Bank, named "China's Most Dangerous Bank" by the Wall Street Journal in 2017, and more than \$307,000 in New Oriental Education & Technology Group, which has helped students cheat on SAT exams and commit college application fraud.

other internal affairs. Yet North Dakota's Legacy Fund helps fund Putin's government, owning about \$2 million worth of bonds issued by the Russian Federation.

The Legacy Fund's principal, which now stands around \$7 billion, is accumulated from a share of the taxes paid by North Dakota's oil industry.

How do you suppose the industry feels about the nearly \$900,000 worth of Legacy Fund dollars invested in Sinopec, a Chinese-owned oil refiner which is helping fund the Iranian rogue state, and its nuclear aspirations, by refining the country's oil?

The fund also has millions and millions of dollars invested in state-owned oil companies that compete directly with America's privately-owned oil industry, including nearly \$6.6 million in Petroleo Mexicano (Mexico), over \$283,000 in Petrobras Global (Brazil), and over \$4.7 million in the Saudi Arabian Oil Company.

I don't have enough space in this column to list all of the problematic investments made by the Legacy Fund. Every time I scroll through the spreadsheets, another name jumps out.

Like Chinese online retail giant Alibaba which, among other complicities, helped develop a recent propaganda app published by the Chinese Communist Party. The company has also facilitated the counterfeiting of goods made by American companies.

The Legacy Fund has nearly \$25 million invested.

How is this OK?

Maybe investments in state-owned oil companies are OK — I mean, even Norway has one — but should North Dakota dollars be invested in ways that help Chinese censorship or Russian belligerence?

These would be questionable investments for a private citizen, investing private dollars, but for a state government investing taxpayer dollars, they are flat-out unacceptable.

Account

one thing revealed in the early debate over it is that almost all of the Legacy Fund's billions are invested outside of North Dakota.

Over \$1.6 billion is invested outside of the country.

We can do better than that.
