

House Member,

Under NO circumstances should the governor be able to spend 1.8 million dollars of the Cares Act money on a mask up campaign unless given approval by the legislature.

Under NO circumstance should the governor be able to give over 100 million dollars of the Cares Act money to the oil industry!

The government always says that small business is the backbone of ND but where does the money go to in a pandemic = the wealthy!

Thank you,

--
