Dear Human Services Committee Members,

I am writing to you today about HB 1328 - Relating to vitamin D screening and testing and to self insurance health plans. I am in FAVOR of this bill. I am urging a DO PASS on this bill. It is a fact that the levels of Vitamin D that is in a person's system is very important to their overall health and immunity which protects against disease. Testing the Vitamin D levels is often expensive and having it covered by insurance would allow many more patients the ability to have their levels checked and therefore allow them to supplement if needed for optimal health.

Again Please DO PASS HB 1328.

Thank you for your time.

Lisa Pulkrabek
