

Subsection 1 of section 39-20-01 of the North Dakota Century Code is amended and reenacted as follows:

1. Any individual who operates a motor vehicle on a highway or on public or private areas to which the public has a right of access for vehicular use in this state is deemed to have given consent, and shall consent, subject to the provisions of this chapter, to a chemical test, or tests, of the blood, breath, ~~saliva~~oral fluid, or urine for the purpose of determining the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, ~~saliva~~oral fluid, or urine. As used in this chapter, the word "drug" means any drug or substance or combination of drugs or substances which renders an individual incapable of safely driving, and the words "chemical test" or "chemical analysis" mean any test to determine the alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood, breath, or urine, approved by the director of the state crime laboratory or the director's designee under this chapter.

Section 39-20-14 of the North Dakota Century Code is amended and reenacted as follows:

39-20-14. Screening tests.

1. Any individual who operates a motor vehicle upon the public highways of this state is deemed to have given consent to submit to an onsite screening test or tests of the individual's breath or oral fluid for the purpose of estimating the alcohol concentration or presence of drugs or substances in the individual's breath or oral fluid upon the request of a law enforcement officer who has reason to believe that the individual committed a moving traffic violation or a violation under section 39-08-01 or an equivalent offense, or was involved in a traffic accident as a driver, and in conjunction with the violation or the accident the officer has, through the officer's observations, formulated an opinion that the individual's body contains alcohol or other drugs or substances that render the individual

incapable of safely operating a motor vehicle.

2. An individual may not be required to submit to a screening test or tests of breath or oral fluid while at a hospital as a patient if the medical practitioner in immediate charge of the individual's case is not first notified of the proposal to make the requirement, or objects to the test or tests on the ground that such would be prejudicial to the proper care or treatment of the patient.
3. The screening test or tests must be performed by an enforcement officer certified as a chemical test operator by the director of the state crime laboratory or the director's designee and according to methods and with devices approved by the director of the state crime laboratory or the director's designee. The results of such screening test must be used only for determining whether or not a further test shall be given under the provisions of section 39-20-01. The officer shall inform the individual that North Dakota law requires the individual to take the screening test to determine whether the individual is under the influence of alcohol or other drugs or substances and that refusal of the individual to submit to a screening test may result in a revocation for at least one hundred eighty days and up to three years of that individual's driving privileges. If such individual refuses to submit to such screening test or tests, none may be given, but such refusal is admissible in a court proceeding if the individual was arrested in violation of section 39-08-01 and did not take any additional chemical tests requested by the law enforcement officer. Such refusal is sufficient cause to revoke such individual's license or permit to drive in the same manner as provided in section 39-20-04, and a hearing as provided in section 39-20-05 and a judicial review as provided in section 39-20-06 must be available.
4. The director must not revoke an individual's driving privileges for refusing to submit to a screening test requested under this section if the individual provides a sufficient breath,

blood, oral fluid, or urine sample for a chemical test requested under section 39-20-01 for the same incident.

5. No provisions of this section may supersede any provisions of chapter 39-20, nor may any provision of chapter 39-20 be construed to supersede this section except as provided herein.
6. For the purposes of this section, "chemical test operator" means an individual certified by the director of the state crime laboratory or the director's designee as qualified to perform analysis for alcohol or other drugs or substances in an individual's blood, breath, oral fluid, or urine.

Subsection 12 of section 65-05-08 of the North Dakota Century Code is amended and reenacted as follows:

12. The organization may not pay wage loss benefits if the wage loss is related to the use ~~of~~ presence of medical marijuana of usable marijuana or adult-use cannabis products, or the presence of tetrahydrocannabinol.
