Written Testimony for the
Senate Government and Veteran Affairs Committee
January 28, 2021
Erica Johnsrud, McKenzie County Auditor/Treasurer

RE: SUPPORT for SB2231

Good morning, Chairman Vedaa, and members of the Senate Government and Veteran Affairs Committee.   My name is Erica Johnsrud and I am the Auditor/Treasurer for McKenzie County. I stand in support of SB2231.

This bill simply allows each county the <u>choice</u> when it comes to publishing the detailed election results in the official newspaper. By the time election results are printed in the official newspaper they are "old news." In McKenzie County the November 3, 2020, General Election Abstract of Votes was published in the November 25 edition of the newspaper – 3 weeks after the election occurred. In fact the major election result articles were published in the same newspaper first on November 11.

Most unofficial election results are already known the evening of or the morning after the Election thanks to the ND Secretary of State's Election Results website, local county websites, and other news outlets. While this isn't always the case for close races or national races, it is true for most local and statewide races.

Those that are interested in the detailed election results are able to find this information in other more useful, easily searchable, and mobile-friendly formats. I encourage each of you to "drill down" into the results section of the ND Secretary of State's website, which is a fantastic resource of information and one that I am thankful to have access to as a citizen of North Dakota. Not only displayed in numerical format, but also graphically and color-coded, this site allows the public greater ease at finding information of interest in a variety of formats including by jurisdiction, race, and election type. Particularly interested citizens can even export the information for their own analysis or track contests of interest. Included in my testimony here are examples of pages from the State's Election Results website to assist in illustrating the information that is available, as well as a copy of the newspaper edition of the McKenzie County

2020 General Election. This same listing, as is published in the newspaper, is available on McKenzie County's website as well as a link to the State's more detailed website.

The time of people leisurely perusing their printed newspaper and stumbling upon the printed results has been replaced with technology that provides information at fingertips of the user. I'd ask you to think about the last time you were out in the community and there was at least one individual randomly reading a newspaper. In my own experience, when I am waiting in line at the grocery store or the doctor's office anyone else present is head-down engaged and distracted by a cellular device. For myself, I follow contests in many other jurisdictions and enjoy reviewing the detailed information which I seek online.

I agree that we still have challenges to overcome in our most rural areas when it comes to internet access – there are parts of McKenzie County that do not have cellular service but also know that every day this access is improving. McKenzie County has taken steps to financially support this expansion of service to our citizens, which also proved valuable when schools shifted online in 2020.

The fact is that where people go searching for information has and continues to change. We ask this Committee to allow counties the choice to determine locally where election result information is best accessed by our citizens – whether that be in printed form weeks following an election or in near real-time on digital- and internet-based platforms.

Thank you for your time today and I urge a DO PASS recommendation on SB2231.
