

Proposed Amendment to 1163

“Supplies” include sterile disposal preparation spoons, cotton, sterile filters, alcohol wipes, sterile water, saline, tourniquets, disposal containers, wound care, testing strips, naloxone, and other items recognized as supporting safe drug use”

Or in the alternative:

Omit stericups and danispoons and replace with the generic term “sterile disposal preparation spoons”

“Supplies” mean needles, syringes, cotton filters for syringes, and sterile disposal preparation spoons.
