RE: Testimony IN FAVOR of HCR 3006

Dear Committee Members,

As a resident and business owner of this state I am writing this testimony in support of House Concurrent Resolution 3006. In addition to the adoption of this resolution, I believe the messaging regarding our state's position on preserving our rights to lawful possession of firearms needs to be voiced to the nation's capital.

Current gun owners should not be retroactively made criminals by the adoption of new laws enacted by executive orders nor burdened by frivolous taxes designed to prevent those items from being reasonably acquired.

The role of government is to preserve our rights; the constitution of our state and nation is there to express the rights that are given to us by our creator and cannot be altered by our government. That is why I encourage you to vote DO PASS on HCR3006.

Sincerely,

-Kord
