f.a. For an individual who is not a resident of this state for the entire year, or for a nonresident estate or trust, the tax is equal to the tax otherwise computed under this subsection multiplied by a fraction in which:

- (1) The numerator is the federal adjusted gross income allocable and apportionable to this state; and
- (2) The denominator is the federal adjusted gross income from all sources reduced by the net income from the amounts specified in subdivisions a and b of subsection 2.

In the case of married individuals filing a joint return, if one spouse is a resident of this state for the entire year and the other spouse is a nonresident for part or all of the tax year, the tax on the joint return must be computed under this subdivision.

~~g. The tax commissioner shall prescribe new rate schedules that apply in lieu of the schedules set forth in subdivisions a through e. The new schedules must be determined by increasing the minimum and maximum dollar amounts for each income bracket for which a tax is imposed by the cost-of-living adjustment for the taxable year as determined by the secretary of the United States treasury for purposes of section 1(f) of the United States Internal Revenue Code of 1954, as amended. For this purpose, the rate applicable to each income bracket may not be changed, and the manner of applying the cost-of-living adjustment must be the same as that used for adjusting the income brackets for federal income tax purposes.~~

~~h.b.~~ The tax commissioner shall prescribe an optional simplified method of computing tax under this section that may be used by an individual taxpayer who is not entitled to claim an adjustment under subsection 2 or credit against income tax liability under subsection 7.

The adjustment provided by this subdivision is allowed only to the extent the net long-term capital gain is allocated to this state.
 - (2) Qualified dividends as defined under Internal Revenue Code section 1(h)(11), added by section 302(a) of the Jobs and Growth Tax Relief Reconciliation Act of 2003 [Pub. If, for any taxable year, qualified dividends are taxed at the regular federal income tax rates applicable to ordinary income, the reduction allowed under this subdivision is equal to thirty percent of all dividends included in federal taxable income. The adjustment provided by this subdivision is allowed only to the extent the qualified dividend income is allocated to this state.
- e. Increased by the amount of a lump sum distribution for which income averaging was elected under section 402 of the Internal Revenue Code of 1986 [26 U.S.C. 402], as amended. A taxpayer may claim the reduction in this subdivision only once for each instance of organ donation during the taxable year in which the human organ donation and the human organ transplantation occurs but if qualified expenses are incurred in more than one taxable year, the reduction for those expenses must be claimed in the year in which the expenses are incurred. The reduction applies only if the employer is entitled to the credit under section 57-38-01.25.
