54-52-05. Membership and assessments - Employer payment of employee contributions. (Effective through December 31, 2024the day before the effective date of this Act)

1. Every eligible participating political subdivision employee, at the time the political subdivision joins the plan must so state in writing if the employee concurs in the plan and all future eligible employees of the participating political subdivision are participating members in the plan and must be enrolled in the plan within the first month of employment. Except as otherwise provided by law, every other eligible governmental unit employee of a participating governmental unit is a participating member in the plan and must be enrolled in the plan within the first month of employment. An employee who was not enrolled in the retirement system when eligible to participate must be enrolled immediately upon notice of the employee's eligibility, unless the employee waives in writing the employee's right to participate for the previous time of eligibility, to avoid contributing to the fund for past service. An employee who is eligible for normal retirement who accepts a retirement benefit under this chapter and who subsequently becomes employed with a participating employer other than the employer with which the employee was employed at the time the employee retired under this chapter may, before being re-enrolled in the retirement plan within the first month of employment, elect to permanently waive future participation in the retirement plan and the retiree health program and maintain that employee's retirement status. An employee making this election is not required to make any future employee contributions to the public employees retirement system nor is the employee's employer required to make any further contributions on behalf of that employee.

2. Each member must be assessed and required to pay monthly four percent of the monthly salary or wage paid to the member, and such assessment must be deducted and retained out of such salary in equal monthly installments commencing with the first month of employment. Member contributions increase by one percent of the monthly salary or wage paid to the member beginning with the monthly reporting period of January 2012, and with an additional increase of one percent, beginning with the monthly reporting period of January 2013, and with an additional increase of one percent, beginning with the monthly reporting period of January 2014.
3. Each employer, at its option, may pay all or a portion of the employee contributions required by subsection 2 and sections 54-52-06.1, 54-52-06.2, 54-52-06.3, and 54-52-06.4 or the employee contributions required to purchase service credit on a pretax basis pursuant to subsection 5 of section 54-52-17.4. Employees may not receive the contributed amounts directly once the employer has elected to pay the employee contributions. The amount paid must be paid by the employer in lieu of contributions by the employee. If the state determines not to pay the contributions, the amount that would have been paid must continue to be deducted from the employee's compensation. If contributions are paid by the employer, they must be treated as employer contributions in determining tax treatment under this code and the federal Internal Revenue Code. If contributions are paid by the employer, they may not be included as gross income of the employee in determining tax treatment under this code and the Internal Revenue Code until they are distributed or made available. The employer shall pay these employee contributions from the same source of funds used in paying compensation to the employee. The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee or by an offset against future salary increases or by a contribution of a reduction in gross salary and offset against future salary increases. If employee contributions are paid by the employer, they must be treated for the purposes of this chapter in the same manner and to the same extent as employee contributions made prior to the date on which employee contributions were assumed by the employer. An employer exercising its option under this subsection shall report its choice to the board in writing.
4. For compensation earned after August 1, 2009, all employee contributions required under section 54-52-06.1 and the job service North Dakota retirement plan, and not otherwise paid under subsection 3, must be paid by the employer in lieu of contributions by the member. All contributions paid by the employer under this subsection must be treated as employer contributions in determining tax treatment under this code and the Internal Revenue Code. Contributions paid by the employer under this subsection may not be included as gross income of the member in determining tax treatment under this code and the Internal Revenue Code until the contributions are distributed or made available. Contributions paid by the employer in accordance with this subsection must be treated for the purposes of this chapter in the same manner and to the same extent as member contributions made before the date the contributions were assumed by the employer. The employer shall pay these member contributions from the same source of funds used in paying compensation to the employee. The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee. The employer shall continue making payments under this section unless otherwise specifically provided for under the agency's biennial appropriation or by amendment to law.
