Page 1, line 7, after "collections" insert ", and the clean sustainable energy authority duties"

Page 7, after line 23, insert:

"SECTION 14. AMENDMENT. Section 54-63.1-04 of the North Dakota Century Code is amended and reenacted as follows:

54-63.1-04. Clean sustainable energy authority - Duties - Report.

1. The authority shall make recommendations to the commission for program guidelines, including eligibility criteria for entities to receive funding under this chapter.
2. The nonvoting technical advisors shall develop a process to review and evaluate projects to determine the technical merits and feasibility of any application, including potential benefits of the development of low-emission technology, the expansion of the development of the state's natural resources or energy production, and the contribution to the economic diversity in the state.
3. The authority may develop a loan program or a loan guarantee program under the clean sustainable energy fund. The Bank of North Dakota shall administer the loan program or loan guarantee program. The interest rate of a loan under this program may not exceed two percent per year. The maximum term of a loan under this section must be approved by the commission based on a recommendation from the authority. The Bank shall review applications for loans or loan guarantees and shall consider the business plan, financial statements, and other information necessary to evaluate the application. To be eligible for a loan or loan guarantee, an entity shall agree to provide the Bank of North Dakota with information as requested. The Bank of North Dakota may develop policies for loan participation with local financial institutions.
4. The authority shall make recommendations to the commission for grant awards, loan approvals, or other financial assistance to provide funding to support research, development, and technological advancements for the large scale development and commercialization of projects, processes, activities, and technologies that reduce environmental impacts and increase sustainability of energy production and delivery in accordance with this chapter. Any projects, processes, activities, and technologies
