

Testimony to support SCR 4014

The horses in the Park are descendants of the original Badland horses with historical lineages that trace all the way back to the horses surrendered by Sitting Bull in the late 1800s. The Teddy Roosevelt horses are North Dakota's only wild horse herd, therefore, they must be protected and we have to let them be and live on this land which belong to them. Earth is home for every creature and all need to co-exist. I do not understand why human think that they are in control and can kill and destroy everything. Furthermore, SCR 4014 is consistent with the wishes of 80 percent of Americans who want wild horses protected. Additionally, SCR 4014 will help support humane, scientifically recommended methods of managing these wild horses on the public lands they call home.

Sincerely,

Maria Jablonska
