

Members of the House Education Committee,

My name is Chris Eslinger, I live in District 34

I am a Father, a Husband, and a Property Owner.

I have children that have attended Home School, Virtual Classes, Private School, and/or Public School.

I Support Bill #1376

My position is pretty simple.

If we, as conservatives, believe it is the fundamental right and responsibility of a parent, to choose the best education and to keep their children safe.

Then parents should have the option to choose whether a Virtual class or transferring from one Public School to another Public School, in the same town or district, would be not only best educationally but more importantly, for their mental, emotional, physical, and spiritual safety and well being.

I urge you to vote in favor of Bill #1376.

Thank You for your service and taking the time to consider the importance of this issue.
