

1 SB 2351 Data on Clearing a classroom

2 Testimony in Support

3 Chairman Heinert and members of the House Education committee, we come to you  
4 today in support of SB 2351.

5 SB 2351 was amended by the Senate Education committee to provide schools flexibility  
6 in reporting the information NDDPI and NDHHS needs for data collection. Data will be  
7 submitted by schools using the reporting tool they are currently using i.e. PowerSchool,  
8 SWIS (School Wide Information System).

9 The required report will be submitted by schools quarterly for the next biennium to  
10 NDDPI so they can analyze the data to make a report next session.

11 We respectfully ask for a “DO PASS” to gather data so we can come together and figure  
12 out ways that helps students to develop an assistive product for students.
