Testimony in Support of SB 2344
House Finance and Taxation Committee

March 7, 2023

Chairman Headland, Vice Chair Hagert, and members of the House Education Committee:

My name is Sherri Miller. I am writing to you in support of support of SB 2344. I have been a registered nurse in North Dakota for 24 years, and I am also the Executive Director for the North Dakota Nurses Association. The NDNA is the only professional organization representing all nurses in North Dakota. Part of our mission is to advance the nursing profession by promoting the professional development of nurses and to advocate on health care issues affecting nurses and the public. Right now, we are actively advocating for the nursing workforce with recruitment and retention tactics.

Senate Bill 2344 includes Public Health and RNs. North Dakota and the nation have been facing a shortage for many years, and it is only getting worse. According to a study published in the National Library of Medicine, there are many factors contributing to the nursing shortage, including:

- High turnover rate - oftentimes due to burnout
- An aging workforce - over half of the RN workforce is currently over 50 years old. There is also a need for more healthcare as the population will need services as well.
- Lack of educators and schooling - nursing school enrollment hasn't kept up with the pace of projected demand. There is also a lack in the necessary number of nursing school faculty members. Without enough teachers, we don't have enough nurses caring for patients.

Thankfully, many students in North Dakota are working hard to obtain their Associate or Bachelor of Science in nursing degrees with the intent to stay and work here. However, after their student loans and scholarships, they typically have a sizable debt. They often look out of state or take travel nursing positions to make a higher wage and more quickly pay off their debts. Senate Bill 2344 could allow nurses like these to get a break on their

large student loans and could provide an incentive to stay and work in ND and not do travel nursing. They can even further their education to work as nursing educators.

We respectfully ask you to pass SB 2344. Thank you.

Sherri Miller, BS, BSN, RN
Executive Director
North Dakota Nurses Association
