

My name is Peggy Brown and I reside in **District 6**. I am asking that you please render a **DO PASS** on House Bill 1406. ND Health and Human Services actively markets and promotes COVID-19 vaccinations and yet is not liable, nor do they provide any services for injuries that may be directly caused by their recommendations. Thousands of citizens received the COVID-19 vaccine at the recommendation of public health officials, and **many have been seriously injured** as a direct result and left with nowhere to turn for help. HDHHS should be accountable for the recommendations that they promote. Thank you for your consideration of this important matter and for your service to the state of ND.
