

Members of the House Human Services Committee,

“My name is Amber Vibeto and I reside in District 3. I am asking that you please render a DO PASS on House Bill 1406.”

North Dakota Health and Human Services actively markets and promotes COVID-19 vaccinations and yet is not liable, nor do they provide any services, for injuries that may be directly caused by their recommendations. Thousands of citizens received the COVID-19 vaccine at the recommendation of public health officials, and many have been seriously injured as a direct result and left with nowhere to turn for help. NDHHS should be accountable for the guidelines that they promote. I urge you to support the passing of House Bill 1406.

Thank you for your consideration of this important matter and for your service to the state of North Dakota.
