Chairperson Lee and Committee Members,

I strongly urge a Do NOT Pass on BH 1489. How would this bill possibly be enforced in a humane way? When there is an accusation that a violation has occurred, how could it possibly be proven apart from invasive questions and tests that a former or current athlete would be forced(?) to undergo in violation of their privacy and rights? This is unnecessary legislation that involves significant government overreach.

I urge a Do NOT Pass on HB 1489.

Sincerely,
Sylvia Bull
