

As a North Dakota resident, I am neutral to HB 1260.

I am in strong support of habitat development on private land to improve wildlife health and populations, and I also am in strong support of increasing public access to those privately held lands. I thoroughly enjoy hunting these lands (like PLOTS) and am thankful for all the private land stewards who do the right thing for wildlife on a daily basis.

However, I am not totally in support of the special antlerless elk licenses for landowners. I would be more in support of having these depredation hunt licenses be given to youth hunters or people with disabilities.

Best Regards,

Andrew Lindmeier
