

### **Support of House Concurrent Resolution 3009**

I Carson Schell, am in support for moving North Dakota Share the Road week from the third week of June to the Second week of May since on average the amount of Cyclists on the road are higher during the second week of May. Due to the amount of excitement during this time of year we believe the message would be not only better received but also inform riders and drivers earlier which will affect the entire year.

Respectfully,

Carson Schell
