## LEGISLATIVE REQUEST

2023-2025 BIENNIUM (PRIORITY #1)

Williston State College respectfully requests legislative consideration in two areas critical to the success of the college moving forward:

#### **Challenge**:

- Overall inflationary cost increases have stretched budgets beyond projections.
- 1.) Pay Increase, Inflationary Increase, and Health Premium Increase fully funded in General Fund:

Any pay increases, inflationary increases, and/or healthcare premium increases optimally should be fully funded in the general fund as WSC doesn't have the monies in reserve to cover any part of these increases that aren't absorbed in general fund appropriations. (Escalating operating costs...)

## LEGISLATIVE REQUEST

2023-2025 BIENNIUM (PRIORITY #2)

Williston State College respectfully requests legislative consideration in two areas critical to the success of the college moving forward:

- 2.) Healthcare Training Facility (Capitol Project Request)
  - Oil and gas exploration and extraction will continue for the foreseeable future
  - Population growth will need to continue to support oil and gas industry
  - Healthcare infrastructure expansion will be need to support population growth
  - Healthcare training expansion will be needed to support healthcare industry expansion
- In closing...the healthcare training facility requested above will be essential to supporting the
  overall growth and expansion of not just northwest ND, but the entire State.
