How many registered vehicles for a fleet? 39-04-12 Section 2

The department may provide to an owner of a fleet of **one hundred or more vehicles** number plates that are valid for as many as six consecutive years and that are exempt from the requirements of evidence of annual validation. The registrant shall file with the department a corporate surety bond in an amount the department determines to be reasonable and adequate, and conditioned that the owner will pay the annual fee at the beginning of each annual registration period for which the number plates are valid.

What is Apportioned registration?

- a. 39-04-14.2. Staggered registration for apportioned vehicles. The director may establish a procedure for the implementation of a staggered registration system for vehicles registered pursuant to the international registration plan (IRP). Procedures established under this section may provide for a one-time collection of up to eighteen months of registration fees.
- b. The apportioned registration systems allows for flexibility of commerce between the member jurisdictions. Such efficient use of the highway system is beneficial to the economic and social growth of the member jurisdictions. Freedom of vehicle movement is achieved through official recognition of apportioned vehicles by all member jurisdictions.
- c. IRP fees are calculated on an apportioned basis, depending on the percentage of actual distance the fleet traveled in each jurisdiction, vehicle value and type, vehicle age, registered weight, and vehicle identification information. Each base jurisdiction transmits the fees it collects from its IRP registrants to the IRP Clearinghouse which distributes it to other IRP member jurisdictions. Base jurisdictions issue a cab card and plate(s) for each IRP registered vehicle.
