

2321

**SECTION 1 – LEGISLATIVE MANAGEMENT STUDY – OPEN ADOPTION POLICIES REVIEW.** During the 2023-24 interim, the legislative management shall consider studying the state’s policies and relevant case law regarding open adoptions to determine the feasibility and desirability for legislation clarifying communication and the rights of biological parents.

1. The study must include:
  - a. Existing state policies regarding open adoptions;
  - b. The current practices of collection and storage of personal, contact, and medical information of biological parents;
  - c. Benefits and consequences of adopting legislation which would extend legal enforceability to open adoption agreements;
  - d. Best practices for keeping birth children and their adoptive parents aware of health complications in biological family members over time;
  - e. Any information relevant to open adoption or open adoption agreements which the legislative management deems important to understand the totality of the issue;
  - f. The potential financial costs to adoptive families, adoption agencies, and the court system;
  - g. Any barriers to extending legal enforceability to open adoption agreements in the state of North Dakota.
2. The legislative management may seek the assistance of the North Dakota department of health and human services and adoption agencies that partner with the state of North Dakota.
3. The legislative management shall report its findings and recommendations, together with any legislation necessary to implement the recommendations, to the sixty-ninth legislative assembly.
