To whom it may concern,

Trans Rights Are Human Rights.

I am writing in opposition to SB2199.

It's fascinating to me how much gender identity bothers you. Rather than letting people be who they feel they are, you seem very intent on forcing them to be who you want them to be. Why? What is the impact on your life that is so great, you are willing to strip away a person's identity? This bill being introduced is nothing short of a bullying tactic. Something posing no harm or ill will towards you is seen as some sort of joke that you can't just let be. North Dakota "nice" is dead and gone if this bill passes. Please vote no and just move on. Let people be.
