

I am a 20 year old male that dies for hunting big game. I'm on the game and fish side to band baiting. I have been hunting big game since I was old enough to get my first bow tag. Since then in my bow hunting career I have never used bait to shoot one of many deer I've shot. I personally feel it is not right to bait. Hunters do not need to have bait in order to harvest a big game animal. It's more of a challenge to hunt without bait. It also allows more big game to live and grow up to be a big buck or bull. With that last year we had diseases in animals and a lot of them were dieing and the numbers of big game were dropping and if baiting would be band a lot more of the big game animals would have survived. I think what the game and fish is trying to do is a great idea and I 100% agree with them to band baiting to increase the numbers of are big game animals.

Thanks.
