

Hello, my name is Jamie Zins.

I am a small business owner in the town of McKenzie ND. A little over a year ago, I invested in a solar panel project for my business, to capture the suns free energy and help subsidize my usage of electricity from the grid. This investment is expected to yield a 100% return in 8-10 years. My investment will lighten the load on the electrical grid by utilizing our suns free energy. If this can benefit me

from a business perspective,  
I feel solar energy can be  
an asset for the residents of  
ND in more ways than one. To  
help in these efforts and be a  
voice for the solar energy industry,  
I feel it would be a great  
benefit for our state to have  
a person representing the solar  
industry on the Em Power  
commission. I am in support  
of the senate bill in question  
Thank you.
