

To whom it may concern,

The Teddy Roosevelt horses are North Dakota's only wild horse herd and should be protected as such. The herd must be kept at a minimum of 150 horses to ensure a genetically viable herd. SCR 4014 will help support ecotourism and business development in North Dakota by protecting the horses.

I encourage you to vote YES on SCR 4014 to support humane, scientifically recommended methods of managing these wild horses on the public lands they call home.

Thank you,

Shannon Elliott
