

Save the Wild Horses

It is not the job of government to increase the profits of ranchers by taking the grazing lands of wild horses and other wildlife and giving the land to ranchers thus reducing the costs and increasing the profits of certain ranchers. Not all ranchers in the state get this handout, only certain ones. The land and ecology is denigrated by this action. Support the wild horses and other wildlife that are part of the natural ecology. You are supposed to be care takers, not destroyers.
