

To North Dakota Senate Committee on Energy and Natural Resources  
Secretary of Interior and Director of National Park Service

TO PRESERVE THIS CHERISHED WILD HORSE HERD

Testimony in support of SCR 4014:

Wild horses are integral to scenery, native wildlife, and wilderness qualities of the Park.  
This is the landscape that inspired President Theodore Roosevelt and continues to inspire visitors today.

SCR 4014 is consistent with the wishes of **80** percent of Americans who want wild horses protected.

SCR 4014 will help support ecotourism and business development in North Dakota by protecting the wild horses.

Thank you for protecting the wild horses.

Sincerely, Liane L. Yukl
