

*Please allow the longhorn steers to continue to reside in the North Unit of the Theodore Roosevelt NP. The horses in TRNP are the only wild horses roaming free in the state of North Dakota and should be considered a treasured resource. The horses in TRNP are an historic herd of Nakota wild horses with unique genetics rarely found. The wild horses in TRNP are the biggest draw for visitors to the park. Local economies in towns around TRNP will suffer with the loss of tourist visits if the wild horses are removed . Please redesignate the wild horses as wildlife; they are not to be designated as livestock. I appreciate your time.*

*Shannon Jacobs*
