

2/9/23

Dear Members of the North Dakota Senate Committee on Energy and Natural Resources:

I am writing to you today, again, in support of SCR 4014 and to provide more input on this resolution because I understand the state senate has just scheduled a hearing, and is taking comments, on this resolution. So, here are my additional comments:

- **I strongly oppose the removal of any of the wild horses located in Theodore Roosevelt National Park.**
- **The wild horses in TRNP are the biggest draw for visitors to the park**
Local economies in towns around TRNP will suffer with the loss of tourist visits if the wild horses are removed.
- **The horses in TRNP are an historic herd of Nakota wild horses with unique genetics rarely found.**
- **Native species wild horses have been observed in the area of Theodore Roosevelt National Park for centuries and were only fenced in when the park was formed.**
- **The horses in TRNP are the only wild horses roaming free in the state of North Dakota and should be considered a treasured resource.**
- **A new alternative to the park's Environmental Assessment must be added with scientific and humane management of the wild horses in the park.**
- **The TRNP must re-designate the wild horses as wildlife; they are not to be designated as livestock.**
- **If you had any plans to visit TRNP in North Dakota, you may say you will no longer want to visit if the wild horses are removed.**

Thank you for your thoughtful, compassionate and humane consideration of my comments in support of protecting and keeping these innocent horses in the Teddy Roosevelt Wild Horse Park. This is where they have always been and should remain.

Sincerely,

Naomi M. Weisman

2/8/23

Dear Members of the North Dakota Senate Committee on Energy and Natural Resources:

I am writing to you today in support of SCR 4014 for the following reasons:

1. Wild horses are integral to the scenery, native wildlife, and wilderness qualities of the Park – the landscape that inspired President Theodore Roosevelt and still inspires visitors today.
2. The horses in the Park are descendants of the original Badland horses with historical lineages that trace all the way back to the horses surrendered by Sitting Bull in the late 1800s.
3. The Teddy Roosevelt horses are North Dakota's only wild horse herd and should be protected as such.
4. The Teddy Roosevelt herd must be kept at a minimum of 150 horses in order to ensure a genetically viable herd.
5. SCR 4014 will help support ecotourism and business development in North Dakota by protecting the horses.
6. SCR 4014 is consistent with the wishes of 80 percent of Americans who want wild horses protected.
7. If the horses are removed, I will not spend tourism dollars in the state.
8. Vote YES on SCR 4014 to support humane, scientifically recommended methods of managing these wild horses on the public lands they call home.

Thank you for your thoughtful, compassionate and humane consideration of my comments in support of protecting and keeping these innocent horses in the Teddy Roosevelt Wild Horse Park. This is where they have always been and should remain.

Sincerely,

Naomi M. Weisman
