Nursing Loan forgiveness

1/25/2023

Hello, workforce development members and chairman Wobbema.

I am Student Praise Lucky from the Rasmussen University. As an immigrant pursuing her aspirations and objectives. Regarding the pressure on school finance and tuition, this is among the best suggestions and news I have heard thus far. This bill will be among the best things that could happen to us students, as someone who has lived in the state for more than 7 years. If this measure is passed into law, it will give me the confidence to stay in my state after I graduate. This will prevent me from become a travel nurse, which I was considering doing because of the significant amount of student debt I currently owe. My finest idea was to enroll in travel nursing to help pay off my 38–40-thousand-dollar student loan balance. I hope you take the time and thoughts on this bill.

Sincerely

*Praise Angel Lucky*
