6			be proportional to the number of weighted student units in the grades that are
7			offered through another school district relative to the total number of weighted
8			student units the school district offered in the year before the school district
9			became an elementary district. The reduced baseline funding applies to the
10			calculation of state aid for the first school year in which the school district
11			becomes an elementary district and for each year thereafter. For districts that

2			sup	erintendent shall reduce the district's baseline funding per weighted student
3			unit	by forty percent of the amount by which the district's baseline funding per-

6			incr	eased by an additional fifteen percent. However, the district's baseline funding

18				six hundred forty-six dollars; or
19			(3)	The district's baseline funding as established in subsection 1 less the
20				amount in paragraph 1, with the difference reduced by forty percent and
21				then the difference added to the amount determined in paragraph 1.
22		b.	For	the 2024-25 school year and each school year thereafter, the superintendent
23			sha	Il calculate state aid as the greater of:
