28 considered in determining the budget or the amount to be levied for each fiscal year for normal  
29 tax purposes but must be shown in the budget as an "emergency fund" and may not be  
30 deducted from the budget as otherwise provided by law. Each county may create an emergency  
31 fund, and all taxes levied for emergency purposes by any county, when collected, must be

1 deposited in the emergency fund, and must be used only for emergency purposes caused by  
2 the destruction or impairment of any county property necessary for the conduct of the affairs of  
3 the county or emergencies caused by nature. The emergency fund may not be used for the

9 balance remaining in the emergency fund at the end of any fiscal year must be kept in the fund.  
10 When the amount of money in the emergency fund, plus the amount of money due the fund  
11 from outstanding taxes, equals the amount produced by a levy of five mills on the taxable  
12 valuation of property in a county with a population of thirty thousand or more, ten mills on the  
13 taxable valuation of property in a county with a population of less than thirty thousand but more  
14 than five thousand, or fifteen mills on the taxable valuation of property in a county with a  
15 population of five thousand or fewer, the levy authorized by this section must be discontinued,  
16 and no further levy may be made until required to replenish the emergency fund.

24 this tax must be approved by a majority of the qualified electors of the county voting on the  
25 question at a regular or special countywide election. The county may budget, in addition to its  
26 annual operating budget for subsidizing emergency medical service, no more than ten percent  
27 of its annual operating budget as a depreciation expense to be set aside in a dedicated  
28 emergency medical services sinking fund deposited with the treasurer for the replacement of

30 in addition to the annual operating budget for subsidization, but the total of the annual operating  
31 budget and the annual ten percent emergency medical services sinking fund may not exceed

1 the approved mill levy. If the county contains a rural ambulance service district or rural fire  
2 protection district that levies for and provides emergency medical service, the property within  
3 that district is exempt from the county tax levy under this section upon notice from the governing  
4 body of the district to the board of county commissioners of the existence of the district. After  
5 December 31, 2025, if a political subdivision having ownership of the licensed ambulance  
6 service or a political subdivision responsible for the emergency medical service program for the  
7 service area exists, special taxes levied under this section and distributed pursuant to section  
8 23-27-04.7 must be distributed to the political subdivision.
