21 **54-27-19. Highway tax distribution fund - State treasurer to make allocation to state,
22 counties, and cities.**

23 A highway tax distribution fund is created as a special fund in the state treasury ~~into which~~
24 ~~must be deposited.~~ Except as provided in section 3 of this Act, all the moneys available by law

1 from collections of motor vehicle registration and related fees, fuels taxes, special fuels taxes,
2 use taxes, and special fuels excise taxes must be deposited in the fund. The state treasurer
3 shall transfer the first five million five hundred thousand dollars per biennium from the highway
4 tax distribution fund to the state highway fund for the purpose of providing administrative
5 assistance to other transferees. After the transfer of the first five million five hundred thousand
6 dollars, any moneys in the highway tax distribution fund must be allocated and transferred
7 monthly by the state treasurer, as follows:

- 8 1. Sixty-one and three-tenths percent must be transferred monthly to the state
9 department of transportation and placed in a state highway fund.
- 10 2. Two and seven-tenths percent must be transferred monthly to the township highway
11 fund.
- 12 3. One and five-tenths percent must be transferred monthly to the public transportation
13 fund.
- 14 4. Thirty-four and five-tenths percent must be allocated to the counties of this state in
15 proportion to the number of vehicle registrations credited to each county. Each county
16 must be credited with the certificates of title of vehicles registered by residents of the
17 county. The state treasurer shall compute and distribute the counties' share monthly
18 after deducting the incorporated cities' share. All the moneys received by the counties
19 from the highway tax distribution fund must be set aside in a separate fund called the
20 "highway tax distribution fund" and must be appropriated and applied solely for
21 highway purposes in accordance with section 11 of article X of the Constitution of
22 North Dakota. The state treasurer shall compute and distribute monthly the sums
23 allocated to the incorporated cities within each county according to the formulas in this
24 subsection using the incorporated cities' populations as determined by the last official
25 regular or special federal census or the census taken in accordance with the
26 provisions of chapter 40-02 in case of a city incorporated subsequent to the census.
 - 27 a. For counties having no cities with a population of ten thousand or more, twenty-
28 seven percent of the total county allocation must be distributed to all of the
29 incorporated cities within the county on a countywide per capita basis. The
30 remaining county allocation amount must be transferred into the county highway
31 tax distribution fund.

- 1 b. For each county having a city with a population of ten thousand or more, the
2 amount transferred each month into the county highway tax distribution fund
3 must be the difference between the amount allocated to that county pursuant to
4 this subsection and the total amount allocated and distributed to the incorporated
5 cities in that county as computed according to the following formula:
- 6 (1) A statewide per capita average as determined by calculating twenty-seven
7 percent of the amount allocated to all of the counties under this subsection
8 divided by the total population of all of the incorporated cities in the state.
- 9 (2) The share distributed to each city in the county having a population of less
10 than one thousand must be determined by multiplying the population of that
11 city by the product of 1.50 times the statewide per capita average computed
12 under paragraph 1.
- 13 (3) The share distributed to each city in the county having a population of one
14 thousand to four thousand nine hundred ninety-nine, inclusive, must be
15 determined by multiplying the population of that city by the product of 1.25
16 times the statewide per capita average computed under paragraph 1.
- 17 (4) The share distributed to each city in the county having a population of five
18 thousand or more must be determined by multiplying the population of that
19 city by the statewide per capita average for all such cities, which per capita
20 average must be computed as follows: the total of the shares computed
21 under paragraphs 2 and 3 for all cities in the state having a population of
22 less than five thousand must be subtracted from the total incorporated cities'
23 share in the state as computed under paragraph 1 and the balance
24 remaining must then be divided by the total population of all cities of five
25 thousand or more in the state.
- 26 5. The moneys allocated to the incorporated cities must be distributed to them monthly
27 by the state treasurer and must be deposited by the cities in a separate fund and may
28 only be used in accordance with section 11 of article X of the Constitution of North
29 Dakota and an incorporated city may use the fund for the construction, reconstruction,
30 repair, and maintenance of public highways within or outside the city pursuant to an

1 agreement entered into between the city and any other political subdivision as
2 authorized by section 54-40-08.
