If the board determines a member no longer meets the eligibility definition, the board may discontinue the disability retirement benefit. The board may pay the cost of any medical testing or rehabilitation services the board deems necessary and these payments are appropriated from the retirement fund for those purposes. A surviving spouse who received a benefit under this subsection as of July 31, 1995, is entitled to the higher of that person's existing benefit or the equivalent of the accrued benefit available under the one hundred percent joint and survivor provision as if the deceased member were of normal retirement age, with the increase payable beginning August 1, 1995.

A benefit payment owed to the member, surviving spouse, or alternate beneficiary which was not paid before the death of the member, surviving spouse, or alternate beneficiary must be paid to the named beneficiary of the recipient or, if there is no named beneficiary, to the recipient's estate.
9. a. The board shall adopt rules providing for the receipt of retirement benefits in the following optional forms:

The board may accept trustee-to-trustee transfers as permitted by Internal Revenue Code section 403(b)(13) and section 457(e)(17) from an Internal Revenue Code section 403(b) annuity or Internal Revenue Code section 457 deferred compensation plan for the purchase of permissive service credit, as defined in Internal Revenue Code section 415(n)(3)(A) or as repayment of a cashout from a governmental plan under Internal Revenue Code section 415(k)(3).
12. The board may establish individual retirement accounts and individual retirement annuities as permitted under section 408(q) of the Internal Revenue Code to allow employees to make voluntary employee contributions. (2) Service benefits must include, in addition, an amount equal to the percent specified in subdivision a of final average salary multiplied by the number of years of nonjudicial employee service and employment.

- c. Normal retirement benefits for a peace officer employed by the bureau of criminal investigation reaching the normal retirement date equals an annual amount, payable monthly, comprised of a service benefit and a prior service benefit determined as follows:

- (2) For years in excess of twenty years of credited service multiplied by one and seventy-five hundredths percent of final average salary.
- d. ~~Normal retirement benefits for a peace officer employed by the state, other than by the bureau of criminal investigation, reaching the normal retirement date equals an annual amount, payable monthly, comprised of a service benefit and a prior service benefit determined as follows:~~

- ~~f.e.~~ Early retirement benefits are calculated as for single life benefits accrued to the date of termination of employment, but must be actuarially reduced to account for benefit payments beginning before the normal retirement date, as determined under subsection 3. 6. If before retiring a member dies after completing three years of eligible employment, except for supreme and district court judges, who must have completed five years of eligible employment, the board shall pay the member's account balance to the member's designated beneficiary as provided in this subsection. If the member has named more than one primary beneficiary, the board shall pay the member's account balance to the named primary beneficiaries in the percentages designated by the member or, if the member has not designated a percentage for the beneficiaries, in equal percentages. If one or more of the primary beneficiaries has predeceased the member, the board shall pay the predeceased beneficiary's share to the remaining primary beneficiaries. If any beneficiary survives the member, yet dies before distribution of the beneficiary's share, the beneficiary must be treated as if the beneficiary predeceased the member. If there are no remaining primary beneficiaries, the board shall pay the member's account balance to the contingent beneficiaries in the same manner. If there are no remaining designated beneficiaries, the board shall pay the member's account balance to the member's estate. If the member has not designated an alternate beneficiary or the surviving spouse is the beneficiary, the surviving spouse of the member may select a form of payment as follows:

A surviving spouse who received a benefit under this subsection as of July 31, 1995, is entitled to the higher of that person's existing

benefit or the equivalent of the accrued benefit available under the one hundred percent joint and survivor provision as if the deceased member were of normal retirement age, with the increase payable beginning August 1, 1995.

7. If a member not coming under the provisions of subsection 6 terminates employment because of death, permanent and total disability, or any voluntary or involuntary reason prior to retirement, the member or the member's designated beneficiary is entitled to the member's account balance at termination. The board automatically shall refund a member's account balance if the member has completed less than three years of eligible employment, has an account balance of less than one thousand dollars, and was not a supreme or district court judge. If the member was a supreme or district court judge, the board automatically shall refund a member's account balance if the member completed less than five years of eligible employment. A member may waive the refund if the member submits a written statement to the board, within thirty days after termination, requesting that the member's account balance remain in the fund.
8. - ~~(a) Before January 1, 2020, service benefit equals two percent of final average salary multiplied by the number of years of service employment.~~
 - ~~(b) After December 31, 2019, service benefit equals one and seventy five hundredths percent of final average salary multiplied by the number of years of service employment.~~
 - ~~(2) Prior service benefit equals two percent of final average salary multiplied by the number of years of prior service employment.~~
- e. Postponed retirement benefits are calculated as for single life benefits for those members who retired on or after July 1, 1977.
- f.e. Early retirement benefits are calculated as for single life benefits accrued to the date of termination of employment, but must be actuarially reduced to account for benefit payments beginning before the normal retirement date, as determined under subsection 3. Except for a national guard security officer or firefighter, a dispatcher, emergency medical services personnel, firefighter, peace officer, or correctional officer employed by a political subdivision, a dispatcher or peace officer employed by the state, or a supreme court or district court judge, early retirement benefits for members first enrolled after December 31, 2015, are calculated for single life benefits accrued to the date of termination of employment, but must be reduced by fixed rate of eight percent per year to account for benefit payments beginning before the normal retirement date. A retiree, other than a supreme or district court judge, is eligible for early retirement benefits only after having completed three years of eligible employment. A supreme or district court judge retiree is eligible for early retirement benefits only after having completed five years of eligible employment.
- g.f. Except for supreme and district court judges, disability retirement benefits are twenty-five percent of the member's final average salary. Disability retirement benefits for supreme and district court judges are seventy percent of final average salary reduced by the member's primary social security benefits and by any workforce safety and insurance benefits paid. The minimum monthly disability retirement benefit under this section is one hundred dollars.
- 5. Upon termination of employment after completing three years of eligible employment, except for supreme and district court judges, who must complete five years of eligible employment, but before normal retirement date, a member who does not elect to receive early retirement benefits is eligible to receive deferred vested retirement benefits payable commencing on the member's normal retirement date in one of the optional forms provided in subsection 9. Members who have delayed or inadvertently failed to apply for retirement benefits to commence on their normal retirement date may choose to receive either a lump sum payment equal to the amount of missed payments, or an actuarial increase to the form of benefit the member has selected, which increase must reflect the missed payments.
- 6. If before retiring a member dies after completing three years of eligible employment, except for supreme and district court judges, who must have completed five years of eligible employment, the board shall pay the member's account balance to the member's designated beneficiary as provided in this

subsection. If the member has designated an alternate beneficiary with the surviving spouse's written consent, the board shall pay the member's account balance to the named beneficiary. If the member has named more than one primary beneficiary, the board shall pay the member's account balance to the named primary beneficiaries in the percentages designated by the member or, if the member has not designated a percentage for the beneficiaries, in equal percentages. If one or more of the primary beneficiaries has predeceased the member, the board shall pay the predeceased beneficiary's share to the remaining primary beneficiaries. If any beneficiary survives the member, yet dies before distribution of the beneficiary's share, the beneficiary must be treated as if the beneficiary predeceased the member. If there are no remaining primary beneficiaries, the board shall pay the member's account balance to the contingent beneficiaries in the same manner. If there are no remaining designated beneficiaries, the board shall pay the member's account balance to the member's estate. If the member has not designated an alternate beneficiary or the surviving spouse is the beneficiary, the surviving spouse of the member may select a form of payment as follows:

- a. If the member was a supreme or district court judge, the surviving spouse may select one of the following optional forms of payment:
 - (1) A lump sum payment of the member's retirement account as of the date of death.
 - (2) Payments as calculated for the deceased member as if the member was of normal retirement age at the date of death, payable until the spouse dies.
- b. The surviving spouse of all other members may select one of the following options:
 - (1) A lump sum payment of the member's retirement account as of the date of death.
 - (2) Payment of a monthly retirement benefit equal to fifty percent of the deceased member's accrued single life retirement benefits until the spouse dies.
 - (3) If the member dies on or after the member's normal retirement date, the payment of a monthly retirement benefit equal to an amount that would have been paid to the surviving spouse if the member had retired on the day of the member's death and had selected a one hundred percent joint and survivor annuity, payable until the spouse dies. A surviving spouse who received a benefit under this subsection as of July 31, 1995, is entitled to the higher of that person's existing benefit or the equivalent of the accrued benefit available under the one hundred percent joint and survivor provision as if the deceased member were of normal retirement age, with the increase payable beginning August 1, 1995.
7. If a member not coming under the provisions of subsection 6 terminates employment because of death, permanent and total disability, or any voluntary or involuntary reason prior to retirement, the member or the member's designated beneficiary is entitled to the member's account balance at termination. The board automatically shall refund a member's account balance

if the member has completed less than three years of eligible employment, has an account balance of less than one thousand dollars, and was not a supreme or district court judge. If the member was a supreme or district court judge, the board automatically shall refund a member's account balance if the member completed less than five years of eligible employment. A member may waive the refund if the member submits a written statement to the board, within thirty days after termination, requesting that the member's account balance remain in the fund.

8. The surviving spouse of a member receiving retirement benefits must be the member's primary beneficiary unless there is no surviving spouse or the surviving spouse designates an alternate beneficiary in writing. If a member receiving retirement benefits or the member's surviving spouse receiving retirement benefits dies before the total amount of benefits paid to either or both equals the amount of the member's account balance at retirement, the difference must be paid to the named beneficiary of the recipient or, if there is no named beneficiary, to the recipient's estate. A benefit payment owed to the member, surviving spouse, or alternate beneficiary which was not paid before the death of the member, surviving spouse, or alternate beneficiary must be paid to the named beneficiary of the recipient or, if there is no named beneficiary, to the recipient's estate.
9. The board shall adopt rules providing for the receipt of retirement benefits in the following optional forms:
 - a. Single life.
 - b. An actuarially equivalent joint and survivor option, with fifty percent or one hundred percent options.
 - c. Actuarially equivalent life with ten-year or twenty-year certain options.
 - d. An actuarially equivalent partial lump sum distribution option with a twelve-month maximum lump sum distribution.
 - e. An actuarially equivalent graduated benefit option with either a one percent or two percent increase to be applied the first day of January of each year.

Except for supreme and district court judges, unless a member specifically requests that the member receive benefits according to one of these options at the time of applying for retirement, all retirement benefits must be in the form of a single life benefit. For supreme and district court judges, unless a member specifically requests that the member receive benefits according to one of these options at the time of applying for retirement, all retirement benefits must be in the form of a lifetime monthly pension with fifty percent of the benefit continuing for the life of the surviving spouse, if any.

10. The fund may accept rollovers from other eligible plans under rules adopted by the board for the purchase of additional service credit, but only to the extent the transfer is a rollover contribution that meets the requirement of section 408 of the Internal Revenue Code.
11. The board may accept trustee-to-trustee transfers as permitted by Internal Revenue Code section 403(b)(13) and section 457(e)(17) from an Internal

Revenue Code section 403(b) annuity or Internal Revenue Code section 457 deferred compensation plan for the purchase of permissive service credit, as defined in Internal Revenue Code section 415(n)(3)(A) or as repayment of a cashout from a governmental plan under Internal Revenue Code section 415(k)(3).

12. The board may establish individual retirement accounts and individual retirement annuities as permitted under section 408(q) of the Internal Revenue Code to allow employees to make voluntary employee contributions. The board may adopt rules to implement and administer the accounts and annuities under this section.

Any fees incurred in performing the actuarial study must be paid for by the political subdivision in a manner determined by the board.

SECTION 2. AMENDMENT. Section 54-52-06 of the North Dakota Century Code is amended and reenacted as follows:

54-52-06. Employer's contribution to retirement plan - Report to the employee benefits programs committee. (Effective through December 31, 2025)

1. Each governmental unit shall contribute an amount equal to four and twelve-hundredths percent of the monthly salary or wage of a participating member. Governmental unit contributions increase by one percent of the monthly salary or wage of a participating member beginning with the monthly reporting period of January 2012; with an additional increase of one percent, beginning with the reporting period of January 2013; with an additional increase of one percent, beginning with the monthly reporting period of January 2014; and with an additional increase of one percent, beginning with the monthly reporting period of January 2024. For a participating member who first enrolls after December 31, 2019, the governmental unit shall contribute an additional amount equal to one and fourteen-hundredths percent of the monthly salary or wage of the participating member.
2. For those members who elect to exercise their rights under section 54-52-17.14, the employing governmental unit, or in the case of a member not presently under covered employment the most recent employing governmental unit, shall pay the associated employer contribution. If the employee's contribution is paid by the governmental unit under subsection 3 of section 54-52-05, the employer unit shall contribute, in addition, an amount equal to the required employee's contribution. Each governmental unit shall pay the contribution monthly, or in the case of an election made pursuant to section 54-52-17.14 a lump sum, into the retirement fund from the governmental unit's funds appropriated for payroll and salary or any other funds available for these purposes. Any governmental unit failing to pay the contributions monthly, or in the case of an election made pursuant to section 54-52-17.14 a lump sum, or failing to otherwise comply with the board's established wage reporting or payroll reporting process requirements, is subject to a civil penalty of fifty dollars and, as interest, one percent of the amount due for each month of delay or fraction of a month after the payment became due. In lieu of assessing a civil penalty or one percent per month, or both, interest at the actuarial rate of return may be assessed for each month the contributions are delinquent. If contributions are paid within ninety days of the date the contributions became due, penalty and interest to be paid on delinquent contributions may be waived.
3. An employer is required to submit contributions for any past eligible employee who was employed after July 1, 1977, for which contributions were not made if the employee would have been eligible to become vested had the employee participated and if the employee elects to join the public employees retirement system. Employer contributions may not be assessed for eligible service that an employee has waived pursuant to subsection 1 of section 54-52-05.

4. Annually, the board shall report to the employee benefits programs committee the contributions necessary, as determined by the actuarial study, to maintain the fund's actuarial soundness.

Employer's contribution to retirement plan - Report to the employee benefits programs committee. (Effective after December 31, 2025)

1. a. As determined by actuarial valuations, each state governmental unit that receives budgetary approval from the legislative assembly shall contribute to the defined benefit plan an amount on a level percent of compensation basis for all main system defined benefit retirement plan employees and all defined contribution retirement plan employees sufficient under the actuarial valuation to meet both the normal cost plus the actuarially determined amount required to amortize the unfunded accrued liability of the main plan over a closed period of thirty and one-half years, beginning January 1, 2026, and continuing through June 30, 2056. By November fifteenth of each even-numbered year the board shall publish the contribution rate required under this subsection. The board shall calculate this rate based on the July first actuarial report of that year. In lieu of each state governmental unit that receives budgetary approval from the legislative assembly contributing the additional actuarially determined rate, the legislative assembly may authorize a transfer to the public employees retirement system fund in an amount equal to or greater than the actuarially determined amount as most recently published by the board for the succeeding biennium.
- b. Each participating political subdivision and state governmental unit that does not receive budgetary approval from the legislative assembly shall contribute an amount equal to eight and twelve-hundredths percent of the monthly salary or wage of a participating member.
- c. For a participating member who first enrolls after December 31, 2019, a participating political subdivision shall contribute an additional amount equal to one and fourteen-hundredths percent of the monthly salary or wage of the participating member.
2. For those members who elect to exercise their rights under section 54-52-17.14, the employing governmental unit, or in the case of a member not presently under covered employment the most recent employing governmental unit, shall pay the associated employer contribution. If the employee's contribution is paid by the governmental unit under subsection 3 of section 54-52-05, the employer unit shall contribute, in addition, an amount equal to the required employee's contribution. Each governmental unit shall pay the contribution monthly, or in the case of an election made pursuant to section 54-52-17.14 a lump sum, into the retirement fund from the governmental unit's funds appropriated for payroll and salary or any other funds available for these purposes. Any governmental unit failing to pay the contributions monthly, or in the case of an election made pursuant to section 54-52-17.14 a lump sum, or failing to otherwise comply with the board's established wage reporting or payroll reporting process requirements, is subject to a civil penalty of fifty dollars and, as interest, one percent of the amount due for each month of delay or fraction of a month after the payment became due. In lieu of assessing a civil penalty or one percent per month, or both, interest at the actuarial rate of return may be assessed for each month the contributions are delinquent. If contributions are paid within ninety days of the date the contributions became due, penalty and interest to be paid on delinquent contributions may be waived.

3. An employer is required to submit contributions for any past eligible employee who was employed after July 1, 1977, for which contributions were not made if the employee would have been eligible to become vested had the employee participated and if the employee elects to join the public employees retirement system. Employer contributions may not be assessed for eligible service that an employee has waived pursuant to subsection 1 of section 54-52-05.
4. Annually, the board shall report to the employee benefits programs committee the contributions necessary, as determined by the actuarial study, to maintain the fund's actuarial soundness.

However, if the eligible employee terminates employment before receiving the lump sum transfer under this section, the election made is ineffective and the eligible employee remains a member of the public employees retirement system under chapter 54-52 and retains all the rights and privileges under that chapter.
 - c. The board shall calculate the lump sum amount to be transferred based on the actuarial present value of the eligible employee's accumulated benefit obligation under the public employees retirement system based on the assumption the eligible employee will retire under the earlier applicable normal retirement age, plus interest from January 1, 2025, to the date of transfer, at the rate of one-half of one percent less than the actuarial interest assumption at the time of the election.
 - d. This section does not affect an eligible individual's right to health benefits under chapter 54-52.1.

3. The state employer of an eligible employee who elects under this section to participate in the defined contribution retirement plan under this chapter shall pay an additional annual contribution of three thousand three hundred and thirty-three dollars for up to three years. Under this subsection, the employer shall pay the additional contribution each year the eligible employee continues permanent employment with the state, beginning January 2026, and extending no further than January 2028.
4. If the board receives notification from the internal revenue service that this section or any portion of this section will cause the public employees retirement system or the retirement plan established under this chapter to be disqualified for tax purposes under the Internal Revenue Code, that portion that will cause the disqualification does not apply.

3. The board shall provide a diversified menu of ~~mutual funds investment solutions and in-plan~~ lifetime annuity options that may include in-plan and out-of-plan options, either fixed, variable, or a combination of both. - 3- c. All commercial property to be valued at ten percent of assessed value.

4. d. All centrally assessed property to be valued at ten percent of assessed value except as provided in section 57-06-14.1.

3. In determining the assessed value of real and personal property, except agricultural property, the assessor may not adopt a lower or different standard of value because the same is to serve as a basis of taxation, nor may the assessor adopt as a criterion of value the price at which said property would sell at auction, or at forced sale, or in the aggregate with all the property in the town or district, but the assessor shall value each article or description by itself, and at such sum or price as the assessor believes the same to be fairly worth in money. In assessing any tract or lot of real property, there must be determined the value of the land, exclusive of improvements, and the value of all taxable improvements and structures thereon, and the aggregate value of the property, including all taxable structures and other improvements, excluding the value of crops growing upon cultivated lands. In valuing any real property upon which there is a coal or other mine, or stone or other quarry, the same must be valued at such a price as such property, including the mine or quarry, would sell for at a fair voluntary sale for cash. Agricultural lands within the corporate limits of a city which are not platted constitute agricultural property and must be so classified and valued for ad valorem property tax purposes until such lands are put to another use. Agricultural lands, whether within the corporate limits of a city or not, which were platted and assessed as agricultural property prior to March 30, 1981, must be assessed as agricultural property for ad valorem property tax purposes until put to another use. Such valuation must be uniform with the valuation of adjoining unannexed agricultural land.

 - a. The county board of equalization after notice to the local board of equalization may reduce the assessment on any separate piece or parcel of real estate even though such property was assessed in a city or township having a local board of equalization. SECTION 22. A new section to chapter 57-15 of the North Dakota Century Code is created and enacted as follows:

Limitation on levies by taxing districts without voter approval.

1.
 - a. Notwithstanding that a taxing district may have unused or excess levy authority under any other provision of law, this section supersedes and limits that authority. This section may not be interpreted as authority to increase any property tax levy authority otherwise provided by law and must be applied to limit any property tax levy authority to which a taxing district may otherwise be entitled. Property taxes levied in dollars by a taxing district may not exceed the greater of the base year levy increased by the allowable percentage limit or the adjusted year levy increased by the allowable percentage limit.
 - b. Excluding any negative excess percentage increase, a taxing district may carry forward an excess percentage increase to be used in any of the five succeeding taxable years. An excess percentage increase may be used only once to increase the limitation under subdivision a and may not be carried forward beyond five taxable years. The oldest unused excess percentage increase must be applied first.
2. The limitation under subsection 1 does not apply to:
 - a. New or increased property tax levy authority that becomes available to the taxing district in the current taxable year resulting from:
 - (1) A change in state law.

 - g. Taxes levied to pay bonds, evidences of indebtedness, or obligations of any political subdivision, including taxes levied to pay evidences of indebtedness under chapter 57-47 issued by the Bank of North Dakota from the infrastructure revolving loan fund.

 - j. Taxes levied by a school district under subsection 5 of section 57-15-14.2.
3. a. Except as provided in subdivision b, a majority of the qualified electors in a taxing district voting on the question at a statewide general election may approve a ballot measure to authorize the taxing district to impose a property tax levy exceeding the limitation under subsection 1 for four taxable years at a time, beginning with the taxable year after the general election during which the ballot measure was approved. The ballot measure must state the proposed percentage increase and the proposed dollar amount increase exceeding the limitation under subsection 1. The procedure under this subsection applies only to authorization of a property tax levy exceeding the limitation under subsection 1.
- b. A majority of the qualified electors in a township voting on the question at an annual township meeting may approve a property tax levy exceeding the limitation under subsection 1 for four taxable years at a time, beginning with the taxable year during which the annual township meeting vote under this subdivision is held. The notice and voting procedures applicable to the approval of a township tax levy under section 57-15-19 and approval of increased township general fund levy authority under section 57-15-20 apply to the vote under this subsection. The electors of the township voting on the question must be notified of the proposed percentage increase and the proposed dollar amount increase exceeding the limitation under subsection 1 before the vote.
4. For taxable year 2025, a city may levy an amount equal to the amount levied in dollars in the preceding taxable year under sections 40-05-19 and 57-15-42 as part of the levy under section 57-15-08 without including the dollars levied for this purpose as part of the limitation under subsection 1.
5. A city or county may not supersede or modify the application of this section under home rule authority.
6. For purposes of this section:
 - a. "Adjusted year levy" means amount of property tax levied in dollars by the taxing district in the preceding taxable year adjusted as follows:
 - (1) When property and improvements to property which were not taxable in the preceding taxable year are taxable in the current year, the amount levied in dollars in the preceding taxable year by the taxing district must be increased to reflect the taxes that would have been imposed against the additional taxable valuation attributable to that property at the mill rate applied to all property in the preceding taxable year, excluding the mill rate associated with:
 - (a) Any irrevocable tax levied to pay bonded indebtedness levied under section 16 of article X of the Constitution of North Dakota.

- (a) Any irrepealable tax levied to pay bonded indebtedness levied under section 16 of article X of the Constitution of North Dakota.
- (b) A tax levied for the one-mill levy for the state medical center authorized by section 10 of article X of the Constitution of North Dakota.

- (4) When a temporary mill levy increase, excluding an increase under this section, authorized by the electors of the taxing district or mill levy imposition authority under state law existed in the preceding taxable year but is no longer applicable or has been reduced, the amount levied in dollars in the preceding taxable year by the taxing district must be adjusted to reflect the expired temporary mill levy increase and the eliminated or reduced mill levy under state law before the percentage increase allowable under this subsection is applied.
- b. "Allowable percentage limit" means three percent.
- c. "Base year levy" means the highest amount of property tax levied in dollars by a taxing district in the three taxable years immediately preceding the current taxable year.
- d. "Excess percentage increase" means the difference, rounded to the nearest hundredth of a percent, between:

SENATE BILL NO. 2397

(Senators Enget, Sorvaag, Sickler)
(Representative Kempenich)

AN ACT to create and enact a new subsection to section 57-51.1-03 of the North Dakota Century Code, relating to a limited exemption for development incentive wells; to amend and reenact sections 57-51-02.6, 57-51-05, and 57-51.1-01 of the North Dakota Century Code, relating to the temporary exemption for oil and gas wells employing a system to avoid flaring, an exemption from gross production tax for gas produced from certain enhanced oil recovery projects, and the definition of development incentive well; to provide an effective date; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-51-02.6 of the North Dakota Century Code is amended and reenacted as follows:

57-51-02.6. Temporary exemption for oil and gas wells employing a system to avoid flaring.

Gas is exempt from the tax under section 57-51-02.2 for a period of two years and thirty days from the time of first production if the gas is:

1. Collected and used at the well site to power an electrical generator that consumes ~~at least seventy-five percent of the gas~~ from the well; or
2. Collected at the well site by a system that intakes at least seventy-five percent of the gas and natural gas liquids volume from the well for beneficial consumption by means of compression to liquid for use as fuel, transport to a processing facility, production of petrochemicals or fertilizer, conversion to liquid fuels, separating and collecting over fifty percent of the propane and heavier hydrocarbons, or other value-added processes as approved by the industrial commission.

SECTION 2. AMENDMENT. Section 57-51-05 of the North Dakota Century Code is amended and reenacted as follows:

57-51-05. Payment of tax on monthly basis - When tax due - When delinquent - Payment by purchaser - By producer - How casinghead gas taxed - Exemptions.

1. The gross production tax on oil or gas, ~~as herein provided,~~ must be paid on a monthly basis. The tax on oil is due and payable on the twenty-fifth day of the month succeeding the month of production. The tax on gas is due and payable on the fifteenth day of the second month succeeding the month of production. If the tax is not paid as required by this section, it becomes delinquent and must be collected as provided in this chapter. The penalty does not apply if ninety percent of the tax due has been paid with the monthly return and the taxpayer files an amended monthly return and pays the total tax

due within sixty days from the original due date. The commissioner, upon request and a proper showing of the necessity ~~therefor~~ therefor an extension, may grant an extension of time, not to exceed fifteen days, for paying the tax and when the request is granted the tax is not delinquent until the extended period has expired. Any taxpayer who requests and is granted an extension of time for filing a return shall pay, with the tax, interest at the rate of twelve percent per annum from the date the tax was due to the date the tax is paid.

2. On oil or gas produced and sold, the gross production tax ~~thereon~~ must be paid by the purchaser, and the purchaser is authorized to deduct in making settlement with the producer or royalty owner, the amount of tax paid; provided, ~~that in the event oil produced is not sold but is retained by the producer, the tax on the oil not sold must be paid by the producer, including the tax due on royalty oil not sold; provided further, that in settlement with the royalty owner the producer has the right to deduct the amount of the tax paid on royalty oil or to deduct therefrom royalty oil equivalent in value at the time the tax becomes due with the amount of the tax paid.~~
3. Gas when produced and utilized in any manner, ~~except when used for fuel or otherwise used in the operation of any lease or premises in the drilling for or production of oil or gas therefrom, or for repressuring thereon,~~ must be considered for the purpose of this chapter, as to the amount utilized, as gas actually produced and saved, except gas:
 - a. Used for fuel or otherwise used in the operation of any lease or premises in the drilling for or production of oil or gas from the lease or premises, including repressuring on the lease or premises; and
 - b. Produced from an enhanced oil recovery project utilizing the injection of gas, either alone or in combination with other fluids, for the purpose of testing the feasibility of enhanced oil recovery operations on a temporary basis for one or more spacing units or employing enhanced oil recovery operations for an extended or indefinite period of time on a fieldwide basis through unitization of the reservoir that produces oil and gas. The exemption under this subdivision applies to all enhanced oil recovery projects created and established by the industrial commission after June 30, 2025, and for any gas produced after the date of first production following initial injection of gas until all gas injected as part of the enhanced oil recovery project has been recovered from the reservoir being tested or unitized.
4. All calculations of the gross production tax on oil or gas, including production, distribution, and claims for credit or refund, are based on the month of production and must be credited to that month.

SECTION 3. AMENDMENT. Section 57-51.1-01 of the North Dakota Century Code is amended and reenacted as follows:

57-51.1-01. Definitions for oil extraction tax.

For the purposes of this chapter:

1. "Average daily production" of a well means the qualified maximum total production of oil from the well during a calendar month period divided by the number of calendar days in that period, and "qualified maximum total production" of a well means that the well must have been maintained at the

maximum efficient rate of production as defined and determined by rule adopted by the industrial commission in furtherance of its authority under chapter 38-08.

2. "Development incentive well" means, as determined and certified by the industrial commission, a well spud after June 30, 2025, which:
 - a. Utilizes a new or innovative drilling or completion technique that constitutes a technical advancement that has not been previously utilized with demonstrated success by the operator within the specific formation targeted for development by that operator;
 - b. Demonstrates the capability to develop reserves within the target formation that would otherwise remain underdeveloped or undeveloped under existing drilling or completion techniques; and
 - c. Is designed and anticipated to, more likely than not, increase the number of new wells, additional production, or the ultimate recovery of oil or gas within the target formation.
3. "Horizontal well" means a well with a horizontal displacement of the well bore drilled at an angle of at least eighty degrees within the productive formation of at least three hundred feet [91.44 meters].
- ~~3-4.~~ "Oil" means petroleum, crude oil, mineral oil, casinghead gasoline, and all liquid hydrocarbons that are recovered from gas on the lease incidental to the production of the gas.
- 4-5. "Property" means the right which arises from a lease or fee interest, as a whole or any designated portion thereof, to produce oil. A producer shall treat as a separate property each separate and distinct producing reservoir subject to the same right to produce crude oil; provided, that such reservoir is recognized by the industrial commission as a producing formation that is separate and distinct from, and not in communication with, any other producing formation.
- ~~5-6.~~ "Qualifying secondary recovery project" means a project employing water flooding. To be eligible for the tax exemption provided under section 57-51.1-03, a secondary recovery project must be certified as qualifying by the industrial commission and the project operator must have obtained incremental production as defined in subsection 3 of section 57-51.1-03.
- ~~6-7.~~ "Qualifying tertiary recovery project" means a project for enhancing recovery of oil which meets the requirements of section 4993(c), Internal Revenue Code of 1954, as amended through December 31, 1986, and includes the following methods for recovery:
 - a. Miscible fluid displacement.
 - b. Steam drive injection.
 - c. Microemulsion.
 - d. In situ combustion.

- e. Polymer augmented water flooding.
- f. Cyclic steam injection.
- g. Alkaline flooding.
- h. Carbonated water flooding.
- i. Immiscible carbon dioxide displacement.
- j. New tertiary recovery methods certified by the industrial commission.

It does not include water flooding, unless the water flooding is used as an element of one of the qualifying tertiary recovery techniques described in this subsection, or immiscible natural gas injection. To be eligible for the tax exemption provided under section 57-51.1-03, a tertiary recovery project must be certified as qualifying by the industrial commission, the project operator must continue to operate the unit as a qualifying tertiary recovery project, and the project operator must have obtained incremental production as defined in subsection 3 of section 57-51.1-03.

7-8. "Restimulation well" means a previously completed oil or gas well that, following completion and production of oil, has been treated with an application of fluid under pressure for the purpose of initiating or propagating fractures in a target geologic formation to enhance production of oil. The term does not include a well that:

- a. Has less than sixty months of production or is producing more than one hundred and twenty-five barrels of oil per day reported to the industrial commission before completion of the restimulation treatment;
- b. Is part of a qualifying secondary recovery project, qualifying tertiary recovery project, or stripper well or stripper well property as defined under this section; or
- c. Is drilled but not completed and does not have a record of oil production reported to the industrial commission.

8-9. "Royalty owner" means an owner of what is commonly known as the royalty interest and shall not include the owner of any overriding royalty or other payment carved out of the working interest.

9-10. "Stripper well" means a well drilled and completed, or re-entered and recompleted as a horizontal well, after June 30, 2013, whose average daily production of oil during any preceding consecutive twelve-month period, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] outside the Bakken and Three Forks formations, and thirty-five barrels per day for wells of a depth of more than ten thousand feet [3048 meters] in the Bakken or Three Forks formation.

~~40-11.~~ "Stripper well property" means wells drilled and completed, or a well re-entered and recompleted as a horizontal well, before July 1, 2013, on a "property" whose average daily production of oil, excluding condensate recovered in nonassociated production, per well did not exceed ten barrels per day for wells of a depth of six thousand feet [1828.80 meters] or less, fifteen barrels per day for wells of a depth of more than six thousand feet [1828.80 meters] but not more than ten thousand feet [3048 meters], and thirty barrels per day for wells of a depth of more than ten thousand feet [3048 meters] during any preceding consecutive twelve-month period. Wells which did not actually yield or produce oil during the qualifying twelve-month period, including disposal wells, dry wells, spent wells, and shut-in wells, are not production wells for the purpose of determining whether the stripper well property exemption applies.

²⁶⁶ **SECTION 4.** A new subsection to section 57-51.1-03 of the North Dakota Century Code is created and enacted as follows:

- a. The first two hundred fifty thousand barrels of oil produced during the first thirty-six months after completion from a development incentive well drilled and completed before July 1, 2028, and certified as a qualified well by the industrial commission, are exempt from the tax under section 57-51.1-02.
- b. For purposes of the exemption under this subsection:
 - (1) An operator seeking certification of a well as a development incentive well shall meet the burden of demonstrating to the industrial commission that the well meets the criteria under subsection 2 of section 57-51.1-01.
 - (2) An operator seeking certification of a well as a development incentive well must be classified as one of the following:
 - (a) An operator with between forty and ninety-nine wells within the Bakken or Three Forks formations which have been:

 - (b) An operator with between one hundred and one hundred forty-nine wells within the Bakken or Three Forks formations which have been:
 - [1] Drilled by the operator during the period beginning July 1, 2023, and ending June 30, 2025; or
 - [2] Drilled during the period beginning July 1, 2023, and ending June 30, 2025, and acquired by the operator.
 - (c) An operator with one hundred fifty or more wells within the Bakken or Three Forks formations which have been:

²⁶⁶ Section 57-51.1-03 was also amended by section 1 of House Bill No. 1483, chapter 570.

If the amount available for a monthly allocation under this subsection is insufficient to deposit thirty percent of all revenue collected under this chapter in the legacy fund, the state treasurer shall transfer the amount of the shortfall from the state general fund share of oil extraction tax collections and deposit that amount in the legacy fund.

4. For a county that received less than five million dollars of allocations under subsection 2 in the most recently completed even-numbered fiscal year before the start of the biennium, revenues allocated to that county must be distributed by the state treasurer as follows:
 - a. Forty-five percent must be distributed to the county treasurer and credited to the county general fund.

 - d. For purposes of this subsection, "fiscal year" means the period beginning September first and ending August thirty-first of the following calendar year.

The monthly allocation to

each hub city must be proportional to each hub city's impact percentage score, including fractional percentage points rounded to the nearest tenth of a percent, relative to the combined total of all the hub cities' impact percentage scores.

- (b) The state treasurer shall calculate the impact percentage score for each hub city by summing the following:

- [1] The percentage of mining, quarrying, and oil and gas extraction employment relative to the total employment of all industries in the county in which the hub city is located, based on the most recent annual data for all ownership types compiled by job service North Dakota in the quarterly census of employment and wages, multiplied by forty-five hundredths;
- [2] The average of the percentage of mining, quarrying, and oil and gas extraction employment relative to the total employment of all industries in each county for all the counties in the human service region in which the hub city is located, based on the most recent annual data for all ownership types compiled by job service North Dakota in the quarterly census of employment and wages, multiplied by fifteen hundredths;
- [3] The percentage of establishments engaged in mining, quarrying, and oil and gas extraction relative to the total establishments of all industries in the county in which the hub city is located, based on the most recent annual data for all ownership types compiled by job service North Dakota in the quarterly census of employment and wages, multiplied by one-tenth;
- [4] The percentage of oil production in the human service region in which the hub city is located relative to the total oil production in all the human service regions with hub cities, based on the most recently available calendar year data compiled by the industrial commission in a report on the historical barrels of oil produced by county, multiplied by one-tenth;
- [5] The percentage change in population from five years prior for the hub city, based on the most recent actual or estimated census data published by the United States census bureau, multiplied by one-tenth; and
- [6] The percentage change in population from five years prior for the county in which the hub city is located, based on the most recent actual or estimated census data published by the United States census bureau, multiplied by one-tenth.

- (4) The state treasurer shall distribute, to the supplemental school district funding pool, the monthly amount needed from each county to provide for thirty percent of the total allocations under this paragraph. To each county that received more than five million dollars but less than thirty million dollars of total allocations under subsection 2 in the most recently completed even-numbered fiscal year before the start of the biennium, the state treasurer shall allocate a monthly amount from the supplemental school district funding pool which will be added to the distributions to school districts under paragraph 2 of subdivision b, as follows:

AN ACT to amend and reenact sections 57-60-02, 57-60-02.1, 57-60-02.2, 57-60-14, and 57-61-01 of the North Dakota Century Code, relating to a partial exemption from the coal conversion facilities tax and the imposition of a lignite research tax, allocation of the coal conversion facilities privilege tax and the lignite research tax, and an exemption from the coal severance tax; to repeal section 57-60-02.2 of the North Dakota Century Code, relating to the exemption from the coal conversion facilities tax and the imposition of a lignite research tax; to provide an effective date; to provide a contingent effective date; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

²⁷¹ **SECTION 1. AMENDMENT.** Section 57-60-02 of the North Dakota Century Code is amended and reenacted as follows:

57-60-02. Imposition of taxes. (Effective ~~through~~after June 30, 2026, and through June 30, 2031)

There is hereby imposed upon the operator of each coal conversion facility a tax paid monthly for the privilege of producing products of such coal conversion facility. The rate of the tax must be computed as follows:

1. For all coal conversion facilities, except as otherwise provided in this section, the tax is measured by the gross receipts derived from the facility for the preceding month and is in the amount of two percent of its gross receipts. Gross receipts derived from the sale of a capital asset are not subject to the tax imposed by this subsection.
2. For electrical generating plants, the tax is at a rate of sixty-five one-hundredths of one mill times sixty percent of the installed capacity of each unit times the number of hours in the taxable period. All electrical energy generating units that begin construction or complete repowering are exempt from eighty-five percent of the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. If a unit is incapable of generating electricity for eighteen consecutive months, the tax on that unit for taxable periods beginning after the eighteenth month must be reduced by the ratio that the cost of repair of the unit bears to the original cost of the unit. This reduced rate remains in effect until the unit is capable of generating electricity.
3. For electrical generating plants, in addition to the tax imposed by subsection 2, there is a tax at the rate of twenty-five one-hundredths of one mill on each kilowatt hour of electricity produced for the purpose of sale. For all electrical generating plants that begin construction or complete

²⁷¹ Section 57-60-02 was also amended by section 2 of House Bill No. 1279, chapter 574.

repowering, the production from the plants is exempt from the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the plant.

4. For coal gasification plants, the tax is the greater of either the amount provided in subsection 1 or thirteen and one-half cents on each one thousand cubic feet [28316.85 liters] of synthetic natural gas produced for the purpose of sale but not including any amount of synthetic natural gas in excess of one hundred ten million cubic feet per day.
5. For all coal conversion facilities, other than electrical generating plants, the production from the facilities is exempt from eighty-five percent of the tax imposed by this section for a period of five years from the date of first taxable production from the facility. The operator of each facility applying for exemption under this subsection shall certify to the tax commissioner the date of first taxable production of the facility.
6. For coal beneficiation plants, the tax is twenty cents on each ton of two thousand pounds [907.18 kilograms] of beneficiated coal produced for the purpose of sale, or one and one-quarter percent of the gross receipts derived from such facility for the preceding month, whichever amount is greater. Any amount of beneficiated coal produced in excess of eighty percent of the design capacity of the coal beneficiation plant or produced for use within a coal conversion facility is exempt from such tax.
7. With the exception of the tax imposed under subsection 3, the board of county commissioners, by resolution, may grant the operator of a plant or facility located within the county a partial or complete exemption from up to fifteen percent of the tax imposed under this section for a period not to extend past June 30, ~~2026~~**2031**. If a board of county commissioners grants a partial or complete exemption for a specific plant or facility under this subsection, subsection 2 of section 57-60-14 does not apply. Notwithstanding section 57-60-14, any tax collected from a plant or facility subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15.

Imposition of taxes. (Effective after June 30, ~~2026~~2031**)** There is hereby imposed upon the operator of each coal conversion facility a tax paid monthly for the privilege of producing products of such coal conversion facility. The rate of the tax must be computed as follows:

1. For all coal conversion facilities, except as otherwise provided in this section, the tax is measured by the gross receipts derived from the facility for the preceding month and is in the amount of two percent of its gross receipts. Gross receipts derived from the sale of a capital asset are not subject to the tax imposed by this subsection.
2. For electrical generating plants, the tax is at a rate of sixty-five one-hundredths of one mill times sixty percent of the installed capacity of each unit times the number of hours in the taxable period. All electrical energy generating units that begin construction or complete repowering are exempt from eighty-five percent of the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. The board of county commissioners may, by resolution, grant to the operator of an electrical generating plant located within the county partial or complete exemption from the remaining

fifteen percent of the tax imposed by this subsection for a period not exceeding five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. If a board of county commissioners grants a partial or complete exemption for a specific coal conversion facility under this subsection, the provisions of subsection 2 of section 57-60-14 do not apply as that subsection relates to revenue from the specific unit of the coal conversion facility for which the partial or complete exemption has been granted. Notwithstanding section 57-60-14, any tax collected from a unit subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15. If a unit is incapable of generating electricity for eighteen consecutive months, the tax on that unit for taxable periods beginning after the eighteenth month must be reduced by the ratio that the cost of repair of the unit bears to the original cost of the unit. This reduced rate remains in effect until the unit is capable of generating electricity.

3. For electrical generating plants, in addition to the tax imposed by subsection 2, there is a tax at the rate of twenty-five one-hundredths of one mill on each kilowatt hour of electricity produced for the purpose of sale. For all electrical generating plants that begin construction or complete repowering, the production from the plants is exempt from the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the plant.
4. For coal gasification plants, the tax is the greater of either the amount provided in subsection 1 or thirteen and one-half cents on each one thousand cubic feet [28316.85 liters] of synthetic natural gas produced for the purpose of sale but not including any amount of synthetic natural gas in excess of one hundred ten million cubic feet per day.
5.
 - a. For all coal conversion facilities, other than electrical generating plants, the production from the facilities is exempt from eighty-five percent of the tax imposed by this section for a period of five years from the date of first taxable production from the facility. The operator of each facility applying for exemption under this subsection shall certify to the tax commissioner the date of first taxable production of the facility.
 - b. The board of county commissioners may, by resolution, grant to the operator of a coal conversion facility, other than an electrical generating plant, located within the county a partial or complete exemption from the remaining fifteen percent of tax imposed by this section for a period not exceeding five years from the date of the first taxable production from the facility. Notwithstanding the provisions of section 57-60-14, any tax collected which is based upon the production of a facility subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15.
6. For coal beneficiation plants, the tax is twenty cents on each ton of two thousand pounds [907.18 kilograms] of beneficiated coal produced for the purpose of sale, or one and one-quarter percent of the gross receipts derived from such facility for the preceding month, whichever amount is greater. Any amount of beneficiated coal produced in excess of eighty percent of the design capacity of the coal beneficiation plant or produced for use within a coal conversion facility is exempt from such tax.

²⁷² **SECTION 2. AMENDMENT.** Section 57-60-02 of the North Dakota Century Code is amended and reenacted as follows:

~~57-60-02. Imposition of taxes. (Effective after June 30, 2026, and through June 30, 2034)~~

There is hereby imposed upon the operator of each coal conversion facility a tax paid monthly for the privilege of producing products of such coal conversion facility. The rate of the tax must be computed as follows:

- ~~1. For all coal conversion facilities, except as otherwise provided in this section, the tax is measured by the gross receipts derived from the facility for the preceding month and is in the amount of two percent of its gross receipts. Gross receipts derived from the sale of a capital asset are not subject to the tax imposed by this subsection.~~
- ~~2. For electrical generating plants, the tax is at a rate of sixty-five one hundredths of one mill times sixty percent of the installed capacity of each unit times the number of hours in the taxable period. All electrical energy generating units that begin construction or complete repowering are exempt from eighty-five percent of the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. If a unit is incapable of generating electricity for eighteen consecutive months, the tax on that unit for taxable periods beginning after the eighteenth month must be reduced by the ratio that the cost of repair of the unit bears to the original cost of the unit. This reduced rate remains in effect until the unit is capable of generating electricity.~~
- ~~3. For electrical generating plants, in addition to the tax imposed by subsection 2, there is a tax at the rate of twenty-five one hundredths of one mill on each kilowatt hour of electricity produced for the purpose of sale. For all electrical generating plants that begin construction or complete repowering, the production from the plants is exempt from the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the plant.~~
- ~~4. For coal gasification plants, the tax is the greater of either the amount provided in subsection 1 or thirteen and one-half cents on each one thousand cubic feet [28316.85 liters] of synthetic natural gas produced for the purpose of sale but not including any amount of synthetic natural gas in excess of one hundred ten million cubic feet per day.~~
- ~~5. For all coal conversion facilities, other than electrical generating plants, the production from the facilities is exempt from eighty-five percent of the tax imposed by this section for a period of five years from the date of first taxable production from the facility. The operator of each facility applying for exemption under this subsection shall certify to the tax commissioner the date of first taxable production of the facility.~~
- ~~6. For coal beneficiation plants, the tax is twenty cents on each ton of two thousand pounds [907.18 kilograms] of beneficiated coal produced for the purpose of sale, or one and one-quarter percent of the gross receipts derived from such facility for the preceding month, whichever amount is greater. Any~~

~~amount of beneficiated coal produced in excess of eighty percent of the design capacity of the coal beneficiation plant or produced for use within a coal conversion facility is exempt from such tax.~~

- ~~7. With the exception of the tax imposed under subsection 3, the board of county commissioners, by resolution, may grant the operator of a plant or facility located within the county a partial or complete exemption from up to fifteen percent of the tax imposed under this section for a period not to extend past June 30, 2031. If a board of county commissioners grants a partial or complete exemption for a specific plant or facility under this subsection, subsection 2 of section 57-60-14 does not apply. Notwithstanding section 57-60-14, any tax collected from a plant or facility subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15.~~

Imposition of taxes. (Effective after June 30, 2031) There is hereby imposed upon the operator of each coal conversion facility a tax paid monthly for the privilege of producing products of such coal conversion facility. The rate of the tax must be computed as follows:

1. For all coal conversion facilities, except as otherwise provided in this section, the tax is measured by the gross receipts derived from the facility for the preceding month and is in the amount of two percent of its gross receipts. Gross receipts derived from the sale of a capital asset are not subject to the tax imposed by this subsection.
2. For electrical generating plants, the tax is at a rate of sixty-five one-hundredths of one mill times sixty percent of the installed capacity of each unit times the number of hours in the taxable period. All electrical energy generating units that begin construction or complete repowering are exempt from eighty-five percent of the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. The board of county commissioners may, by resolution, grant to the operator of an electrical generating plant located within the county partial or complete exemption from the remaining fifteen percent of the tax imposed by this subsection for a period not exceeding five years from the date of the first taxable production or from the date of the first taxable production after repowering from the unit. If a board of county commissioners grants a partial or complete exemption for a specific coal conversion facility under this subsection, the provisions of subsection 2 of section 57-60-14 do not apply as that subsection relates to revenue from the specific unit of the coal conversion facility for which the partial or complete exemption has been granted. Notwithstanding section 57-60-14, any tax collected from a unit subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15. If a unit is incapable of generating electricity for eighteen consecutive months, the tax on that unit for taxable periods beginning after the eighteenth month must be reduced by the ratio that the cost of repair of the unit bears to the original cost of the unit. This reduced rate remains in effect until the unit is capable of generating electricity.
3. For electrical generating plants, in addition to the tax imposed by subsection 2, there is a tax at the rate of twenty-five one-hundredths of one mill on each kilowatt hour of electricity produced for the purpose of sale. For all electrical generating plants that begin construction or complete

repowering, the production from the plants is exempt from the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the plant.

4. For coal gasification plants, the tax is the greater of either the amount provided in subsection 1 or thirteen and one-half cents on each one thousand cubic feet [28316.85 liters] of synthetic natural gas produced for the purpose of sale but not including any amount of synthetic natural gas in excess of one hundred ten million cubic feet per day.
5.
 - a. For all coal conversion facilities, other than electrical generating plants, the production from the facilities is exempt from eighty-five percent of the tax imposed by this section for a period of five years from the date of first taxable production from the facility. The operator of each facility applying for exemption under this subsection shall certify to the tax commissioner the date of first taxable production of the facility.
 - b. The board of county commissioners may, by resolution, grant to the operator of a coal conversion facility, other than an electrical generating plant, located within the county a partial or complete exemption from the remaining fifteen percent of tax imposed by this section for a period not exceeding five years from the date of the first taxable production from the facility. Notwithstanding the provisions of section 57-60-14, any tax collected which is based upon the production of a facility subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15.
6. For coal beneficiation plants, the tax is twenty cents on each ton of two thousand pounds [907.18 kilograms] of beneficiated coal produced for the purpose of sale, or one and one-quarter percent of the gross receipts derived from such facility for the preceding month, whichever amount is greater. Any amount of beneficiated coal produced in excess of eighty percent of the design capacity of the coal beneficiation plant or produced for use within a coal conversion facility is exempt from such tax.

(Senator Luick)

AN ACT to amend and reenact sections 61-16.1-11, 61-16.1-15.1, and 61-16.1-59 of the North Dakota Century Code, relating to the joint exercise of powers of joint water resource boards, mandating the formation of joint water resource boards for projects affecting two or more counties, and proceedings to confirm special actions.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 61-16.1-11 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-11. Joint exercise of powers. (Retroactive application - See note)

1. Two or more districts may, by agreement, jointly or cooperatively exercise any power which is authorized a board by this title. The agreement shall state its purpose and the powers to be exercised, and shall provide for the method by which the power or powers shall be exercised. When the agreement provides for the use of a joint water resource board, the joint board shall be representative of the boards which are parties to the agreement. Notwithstanding other provisions of law, the agreement may specify the number, composition, terms, or qualifications of the members of the joint board. However, the joint board must consist of an equal number of members from each district comprising the joint board. A joint board created under this section is a political subdivision of the state.
2. The districts which are parties to such an agreement may provide for disbursements from their individual budgets to carry out the purpose of the agreement. In addition, a joint board established pursuant to this section may adopt, by resolution, on or before July first of each year, a budget showing estimated expenses for the ensuing fiscal year and the proposed contributions of each member district as determined by the agreement. The boards of the member districts then shall levy by resolution a tax not to exceed two mills upon the taxable valuation of the real property within each district within the river basin or region subject to the joint agreement. The levy may be in excess of any other levy authorized for a district.
3. The proceeds of one-half of this levy shall be credited to the joint board's administrative fund and shall be used for regulatory activities and for the construction and maintenance of projects of common benefit to the member districts. The remainder shall be credited to the construction funds of the joint board and shall be used for the construction and maintenance of projects of common benefit to more than one district.
4. Funds may be paid to and disbursed by the joint board as agreed upon, but the method of disbursement shall agree as far as practicable with the method provided by law for the disbursement of funds by individual districts. Contracts let and purchases made under the agreements shall conform to the

requirements applicable to contracts and purchases by individual districts. The joint board shall be accountable for all funds and reports of all receipts and disbursements to the state water commission in a manner prescribed by the commission.

5. The agreement may be continued for a definite term or until rescinded or terminated in accordance with its terms. The agreement shall provide for the disposition of any property required as the result of a joint or cooperative exercise of powers, and the return of any surplus moneys in proportion to contributions of the several contracting districts after the purpose of the agreement has been completed.
6. Residence requirements for holding office in a district shall not apply to any officer appointed to carry out any agreement.
7. This section does not dispense with procedural requirements of any other statute providing for the joint or cooperative exercise of any governmental power.
8. ~~All districts within the Red River, James River, Mouse River, Missouri River, and Devils Lake drainage basins shall, by agreement, form and remain a member of a joint water resource board relative to the district's respective drainage basin. All agreements and subsequent amendments must be filed with the department of water resources. Notwithstanding other provisions of law, the board of county commissioners of the member districts in the Red River, James River, Mouse River, Missouri River, and Devils Lake drainage basins may approve a levy of tax not to exceed two mills upon the taxable valuation of the real property within each joint board's respective drainage basin.~~

SECTION 2. AMENDMENT. Section 61-16.1-15.1 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-15.1. Projects or benefits in more than one county.

1. ~~The~~Before constructing a project and before assessing the lands or premises for a project located in or benefiting more than one county, the districts from two or more counties ~~may agree to jointly construct or assign benefits and assessments for a project. Two or more districts shall create a joint board under section 61-16.1-11 before constructing a project and before assessing the lands or premises for a project that benefits or is located in more than one county. If the districts do not agree to undertake a joint project, a district may undertake the project by providing notice to the joint board where the project is located, in either the Red River, James River, Mouse River, Missouri River, or Devils Lake drainage basin, together with the engineer's report required under section 61-16.1-17.~~
2. If the joint board or district finds the project is necessary, and the benefits of the project will exceed the costs, the joint board or district shall proceed with the procedures in sections 61-16.1-15 through 61-16.1-36 regarding:
 - a. The creation, construction, alteration, repair, operation, and maintenance of a project and an assessment district;
 - b. The determination and levy of assessments against property benefited by the project; and

- c. The special warrants issued pursuant to this chapter.
3. If the assessment vote is successful, the joint board or district shall construct, own, operate, and maintain the project. The joint board or district shall administer the corresponding assessment district for the project in accordance with this chapter and shall direct the county auditor of each county within the assessment district to levy assessments. Each county auditor shall levy assessments as determined by the joint board.
 4. If a district conducts a reassessment of benefits under this chapter for an existing project and concludes property in another county benefits from the project, the district shall notify the other district of the requirement to form a joint board. If the district refuses to form a joint board, the district shall proceed with the reassessment and include the property in the project assessment district. Affected landowners subject to assessments may appeal the reassessment determination in accordance with this chapter. After the expiration of applicable appeal periods under this chapter, the district shall direct the county auditor of each county within the assessment district to levy assessments. Each county auditor shall levy assessments as determined by the joint board.
 5. If a county auditor refuses to levy assessments as directed by a joint board or a district, the joint board or district may seek a writ of mandamus under chapter 32-34 from the district court of the county in which the benefited property is located. If the joint board or district prevails, the district court shall award costs and reasonable attorneys' fees to the joint board or district seeking the writ of mandamus.
 6. If the members of the joint board cannot agree about the necessity of a project, the process to undertake an approved project, or the procedure to assess benefits, the joint board shall request assistance from the North Dakota mediation service to resolve grievances arising from the conflict. After receiving the request, the North Dakota mediation service shall assist the members of the joint board to mediate the conflict. The North Dakota mediation service shall issue a proposed mediation agreement within thirty days of completing the mediation. Each member of the joint board shall participate in good faith in the mediation.
 7. If the proposed mediation agreement is not agreed to by a majority of the members of a joint board, a member of the joint board may file an appeal with the department of water resources to issue a determination to resolve the conflict. The appealing party must file the appeal within thirty days of the issuance of the proposed mediation agreement under subsection 6. Within sixty days of receipt of the appeal, the department of water resources shall review and investigate the complaint and issue its determination. A hearing held by the department of water resources under this section is a prerequisite to issuing a determination under this subsection.
 8. If the determination issued by the department of water resources is not agreed to by a majority of the members of a joint board, a member of the joint board may appeal the decision of the department of water resources to the appropriate district court under chapter 28-32. A hearing held by the department of water resources under this section is a prerequisite to filing an appeal with the district court.

SECTION 3. AMENDMENT. Section 61-16.1-59 of the North Dakota Century Code is amended and reenacted as follows:

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 61-16.1-45 of the North Dakota Century Code is amended and reenacted as follows:

61-16.1-45. Maintenance of drainage projects.

1. If it is desired to provide for maintenance of an assessment drain in whole or in part by means of special assessments, the levy in any year for the maintenance may not exceed four dollars per acre [.40 hectare] on any agricultural lands benefited by the drain. The district, at its own discretion, may utilize either of the following methods for levying special assessments for the maintenance:
 - a. Agricultural lands that carried the highest assessment when the drain was originally established, or received the most benefits under a reassessment of benefits, may be assessed the maximum amount of four dollars per acre [.40 hectare]. The assessment of other agricultural lands in the district must be based upon the proportion that the assessment of benefits at the time of construction or at the time of any reassessment of benefits bears to the assessment of the benefits of the agricultural land assessed the full four dollars per acre [.40 hectare]. Nonagricultural property must be assessed the sum in any one year as the ratio of the benefits under the original assessments or any reassessment bears to the assessment of agricultural lands bearing the highest assessment.
 - b. Agricultural lands must be assessed uniformly throughout the entire assessed area. Nonagricultural property must be assessed an amount not to exceed two dollars for each five hundred dollars of taxable valuation of the nonagricultural property.
2. In case the maximum levy or assessment on agricultural and nonagricultural property for any year will not produce an amount sufficient to cover the cost of cleaning out and repairing the drain, a water resource board may accumulate a fund in an amount not exceeding the sum produced by the maximum permissible levy for six years.
3. If the cost of, or obligation for, the cleaning and repairing of any drain exceeds the total amount that may be levied by the board in any six-year period, the board shall obtain the approval of the majority of the landowners as determined by chapter 61-16.1 before obligating the district for the costs.

4. If a board holds an election to approve a project under subsection 3, an affected landowner receiving a benefit from a project may not vote on the question of obligating the district for the costs if the landowner has failed to pay the required assessment.

SENATE BILL NO. 2261

(Senators Klein, Barta, Kessel)
(Representatives Nelson, Schauer)

AN ACT to create and enact a new section to chapter 57-38 and a new subdivision to subsection 7 of section 57-38-30.3 of the North Dakota Century Code, relating to a prison industries workforce development income tax credit; to provide for a legislative management study; and to provide an effective date.

VETO

March 21, 2025

The Honorable Michelle Strinden
President of the Senate
North Dakota Senate Chambers
State Capitol
Bismarck, ND

Re: Senate Bill 2261

Dear President Strinden:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2261 and return it to the Senate.

Section 1 of Senate Bill 2261 establishes a new prison industries workforce development tax credit. Under the section, primary sector businesses are allowed a non-refundable tax credit equal to 10% of the cost of purchased components of final manufactured products or labor from prison industries. Rough Rider Industries is a self-sustaining state agency which would qualify as a prison industry providing final manufactured products.

Establishing a tax credit for the purchase of components made at Rough Rider Industries would discourage purchases from out-of-state manufacturers in a discriminatory manner. This potentially violates the Dormant Commerce Clause of the U.S. Constitution, which prohibits states from enacting laws that discriminate against or unduly burden interstate commerce.

This bill creates an uneven playing field by giving Rough Rider Industries an unfair competitive advantage over out-of-state manufacturers. By carving out a special market incentive in the form of a tax credit, the state is disrupting the longstanding principle of fair and equal market access for all participants.

The efforts of the prime sponsor to promote and advance the important work of Rough Rider Industries are laudable and deserve recognition. Rough Rider Industries provides necessary job skills training and opportunity for incarcerated individuals to assist in their successful reentry. However, the tax credit in Senate Bill 2261 will not help Rough Rider Industries in that mission in any meaningful way. In fact, it will only benefit businesses already doing business with Rough Rider Industries.

Tax credits, when given to micro-segments of the economy, decrease state revenue and further saddle those still paying taxes with a higher percentage of the tax burden. While this bill does not involve a lot of money in our state budget, any tax policy that creates this type of carve-out must be tied to a significant outcome that benefits the state's economic interests. This bill does not do that. Combined with the aforementioned legal concerns, the juice in this case is quite simply not worth the squeeze.

For the reasons stated above, Senate Bill 2261 is vetoed.

Sincerely,

Kelly Armstrong
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 57-38 of the North Dakota Century Code is created and enacted as follows:

Prison industries workforce development credit.

1. A taxpayer that is a primary sector business, as defined in section 1-01-49, is allowed a nonrefundable credit against the tax imposed under section 57-38-30 or 57-38-30.3 for the cost of purchased components of final manufactured products or labor from prison industries. The amount of the credit under this section is ten percent of the cost of components and labor from prison industries purchased by the taxpayer in the calendar year. The credit must be claimed for the taxable year in which the components or labor are purchased.
2. The credit under this section may not exceed the taxpayer's liability as determined under this chapter for any taxable year. If the amount of the credit determined under this section exceeds the liability for tax under this chapter, the excess may be carried forward to each of the next five succeeding taxable years.
3. The aggregate amount of credits allowed each calendar year under this section may not exceed forty-five thousand dollars. If the aggregate amount of credits claimed under this section:

- a. Is less than the limit under this subsection, any remaining unclaimed credits may be carried forward and made available in the succeeding calendar year.
 - b. Exceeds the limit under this subsection, the tax commissioner shall prorate the credits among the claimants.
4. The Honorable Michelle Strinden
President of the Senate
North Dakota Senate Chambers
State Capitol
Bismarck, ND

Re: Senate Bill 2307

Dear President Strinden:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2307 and return it to the Senate.

Senate Bill 2307 aims to regulate access to materials deemed "explicit sexual material" in public and school libraries. While I recognize the concerns that led to its introduction, Senate Bill 2307 represents a misguided attempt to legislate morality through overreach and censorship. The bill imposes vague and punitive burdens on professionals and opens the door to a host of unintended and damaging consequences for our communities.

In 2023, the Legislative Assembly passed House Bill 1205, which already imposed restrictions on certain materials in public libraries. Whether or not one agreed with House Bill 1205, the bill at least operated within a specific, defined scope. Now, less than two years later, Senate Bill 2307 attempts to expand that reach further - into local government decisions and the prosecutorial discretion of state's attorneys. It is redundant, overly burdensome, and places local librarians, school districts, and state's attorneys in an untenable situation.

Any individual can complain about any book. Under Senate Bill 2307, if that individual is not satisfied with the response, they can force the library to activate "a diverse decision-making committee" to reconsider the location of the book in question. If the individual is still unsatisfied, they may request the state's attorney to issue an opinion of the alleged violation. The state's attorney is required to issue that opinion within 60 days. If the state's attorney finds a violation, they now enter a hybrid civil and criminal action where they engage one of two state agencies (the North Dakota Department of Public Instruction or the State Treasurer's Office) to withhold funding and may prosecute the offending librarian criminally. This is more process power given to an aggrieved individual than anywhere else in Century Code - more than a criminal victim, a civil plaintiff or defendant, or a fired state employee.

Any individual can force these steps to occur with a complaint about **any** book. And nothing in the law requires that individual to be a North Dakota citizen. Do we want to give non-North Dakotans that much influence over which books North Dakotans can read? Process matters. This process is completely unworkable.

But the biggest problem is that many librarians and decision-makers will be resigned to simply accommodate the individual complaint. If something is even potentially controversial to some person, eliminating it will be easier than standing up a committee or getting the state's attorney involved.

And it won't just be the books cited as examples by the supporters of this bill that will be affected. In the last 10 years *The Diary of a Young Girl* by Anne Frank, *Of Mice and Men*, *Slaughterhouse-Five*, *The Kite Runner*, *1984*, and *To Kill a Mockingbird* have all been targeted by obscenity laws. I don't pretend to know what the next literary masterpiece is going to be. But I know that I want it available in a library. And if a parent doesn't think it is age appropriate for their child, then that is a parenting decision. It does not require a whole of government approach and \$1.1 million of taxpayer money.

In today's world of social media, streaming services, websites, cable TV and movies where profanity, drug use, violence and nudity are harder to avoid than to find, the amount of time, money and taxpayer resources spent on where a book is placed in a library would be better used elsewhere.

For the reasons stated above, Senate Bill 2307 is vetoed.

Sincerely,

Kelly Armstrong
Governor

CHAPTER 600

HOUSE BILL NO. 1540

(Representatives Koppelman, Hauck, J. Johnson, Marschall, Morton, Rohr, Steiner)
(Senators Clemens, Cory, Gerhardt, Wobbema, Boehm)

AN ACT to create and enact a new chapter to title 15.1 of the North Dakota Century Code, relating to an education savings account program for students who are not enrolled in public school or a homeschool program; to provide an appropriation; and to provide an effective date.

VETO

April 23, 2025

The Honorable Robin Weisz
Speaker of the House
North Dakota House of Representatives
State Capitol
Bismarck, ND

Re: House Bill 1540

Dear Speaker Weisz:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed House Bill 1540 and return it to the House.

House Bill 1540 appropriates \$21.7 million from the general fund for a voucher program to defray tuition and other eligible costs for students attending nonpublic K-12 schools.

Our administration strongly supports expanding school choice to better meet students' individual education needs and foster competition within the K-12 system to drive innovation and improve student outcomes. House Bill 1540 falls far short of truly expanding choice as it only impacts one sector of our student population. Voucher debate aside, this legislation still needs work to address implementation issues. We get one chance to craft policy to benefit the most students and ensure implementation of the program is achievable and realistic.

During the 2023-25 interim, a group of legislators and education stakeholders engaged in a study regarding school choice. The bill drafted from that work proposed state funding for the families of all students - public, nonpublic and homeschool - to cover eligible expenses for their children's education.

Those families all pay taxes, regardless of whether their child attends a public or nonpublic school or is homeschooled, or whether the family lives in a rural or urban

school district. It is essential that an Education Savings Account (ESA) program using state tax dollars be made available to all families to enhance their child's education.

In its final form, House Bill 1540 fails to deliver the school choice North Dakota needs, especially in rural areas where nonpublic school options are few and far between. Of North Dakota's 168 school districts, only 19 have nonpublic schools, with the vast majority of those schools located in the larger communities. A meaningful and effective school choice policy should empower all North Dakota families. Senate Bill 2400 is still an available vehicle to combine the best parts of both bills. We encourage thoughtful collaboration and an all-in approach to ensure all students are being supported in an ESA program.

Passing a voucher bill that caters to only a small segment of North Dakota's student population all but guarantees a voter referendum and threatens to derail the prospect of good school choice policy for years to come. We only get one bite at this apple, and House Bill 1540 bites off more than North Dakota citizens can stomach.

For the reasons stated above, House Bill 1540 is vetoed.

Sincerely,

Kelly Armstrong
Governor

Re: Senate Bill 2160

Dear President Strinden:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2160 and return it to the Senate.

Senate Bill 2160 permanently closes the door on a grandfathered health insurance plan for state employees. If we repeal our current health plan, an Affordable Care Act compliant, nongrandfathered plan must take its place. This new plan contained in Senate Bill 2160 includes mandatory added benefits that will result in increased costs passed on to our public employees as an out-of-pocket expense. Public employees did not ask for this. In fact, surveys conducted by OMB's Human Resource Management Services (HRMS) in 2022 and 2024 showed the current state health plan is the most valued benefit by our state employees, and one of the state's strongest and most useful recruitment and retention tools. Senate Bill 2160 disposes of that tool and replaces it with a more expensive alternative.

Senate Bill 2160's effective date of January 1, 2027, also underscores the cost of the new plan. By having a January 1, 2027, effective date, the \$6.5 million fiscal note for the 2025-2027 biennium is only for the last six months of the biennium. The cost for the full 2027-2029 biennium and subsequent biennia is an estimated \$25.8 million or more every two years. This higher price tag would either be passed on to the state or its employees.

PERS solicits bids for the new health insurance contract every six years. The next bid process will begin in the summer of 2026 for use in the 2027-2029 biennium. The bid process includes estimates for continuation of the current grandfathered plan, as well as non-grandfathered plans. The better route would be to compare the 2026 estimates for continuation of the current plan versus a non-grandfathered plan, so the 70th Legislative Assembly may make a better-informed decision for the future of North Dakota's public employees.

The current health plan is better for state employees and employees of political subdivisions. Currently, they pool together in the same grandfathered plan. If Senate Bill 2160 passes as enrolled, state employees and employees of political subdivisions will be in separate pools, resulting in higher costs for both. This is unacceptable.

For the reasons said above, Senate Bill 2160 is vetoed.

Sincerely,

Kelly Armstrong
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

If the political subdivision withdraws from participation in the uniform group insurance program, before completing sixty months of participation, unless federal or state laws or rules are modified or interpreted in a way that makes participation by the political subdivision in the uniform group insurance program no longer allowable or appropriate, the political subdivision shall make payment to the board in an amount equal to any expenses incurred in the uniform group insurance program that exceed income received on behalf of the political subdivision's employees as determined under rules adopted by the board.
 - b. The Garrison Diversion Conservancy District, and district health units required to participate in the public employees retirement system under section 54-52-02, shall participate in the uniform group insurance program under the same ~~terms and conditions~~ premium structures as state agencies.

SECTION 5. LEGISLATIVE INTENT. It is the intent of the sixty-ninth legislative assembly that the public employees retirement system use an estimated amount of \$3,294,500, or so much of the sum as may be necessary, from the health insurance reserve fund established in section 54-52.1-06 for a portion of the state employer share of any increase in premiums for health benefits resulting from the provisions of this Act for the period beginning with the effective date of this Act and ending June 30, 2027.

Re: Section 12 of House Bill 1003

Dear Speaker Weisz:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed House Bill 1003 and filed it with the Secretary of State. I also have vetoed Section 12 of HB 1003.

The North Dakota Constitution authorizes the governor to veto items in an appropriation bill. House Bill 1003 is an appropriation bill for the expenses of the attorney general, and Section 12, relating to 24/7 sobriety program fees, is an item in the appropriation bill. Section 12 was not in HB 1003 when the bill was introduced. Section 12 was a standalone measure introduced as Senate Bill 2365, which went through the legislative process and ultimately failed in the House. It has been resurrected as Section 12 in House Bill 1003, but the failings of this policy remain: It invites a constitutional challenge and will only increase costs and jail overcrowding for counties.

Currently, a district court judge has the flexibility to waive the costs for an individual participating in the 24/7 sobriety program. Section 12 prohibits a judge from waiving these fees, even in cases of hardship or indigency. One reason for allowing a judge to waive the fees is to protect the program from constitutional challenge. If the fee is not waivable, the individual is found not guilty, and the fee is not refunded, the fee becomes a pretrial punishment. This gives an individual grounds for challenging the program because the Constitution protects individuals from being punished for a crime prior to conviction.

Today, the 24/7 program fees are only waivable if a judge issues a finding of hardship. This is a similar process used when a judge finds an individual indigent, which is not an arbitrary decision. By removing the flexibility to waive the 24/7 fees, an indigent individual will be held in pre-trial custody for the inability to pay, likely with an added unaffordable bond. This would require the indigent individual to be placed in custody until the resolution of their case. This will have an adverse effect on counties, becoming far more expensive than the 24/7 program itself and contributing to the overcrowding of county jails.

Section 12 is a previously rejected policy item logrolled into an appropriation bill. This legislative maneuver does not restrict the executive's line-item veto authority. To do so would force the executive to choose between accepting a standalone policy item or risking the entire appropriation for a state agency. Allowing the Assembly to shoehorn general substantive policy provisions into an appropriation bill, while not simultaneously allowing the executive to veto those provisions, would undermine our system of checks and balances, and violate the longstanding principle of separation of powers.

For the reasons said above, Section 12 of House Bill 1003 is vetoed.

Sincerely,

Kelly Armstrong

Re: Section 8 of House Bill 1019

Dear Speaker Weisz:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed House Bill 1019 and filed it with the Secretary of State. I also have vetoed Section 8 of House Bill 1019.

The North Dakota Constitution provides the governor may veto items in an appropriation bill. Section 8 of House Bill 1019 is an item in an appropriation bill, specifically a policy item aimed at curtailing the Parks and Recreation Department's authority to create and rename state parks. Section 8 requires Legislative Assembly approval for the creation or renaming of state parks. This policy not only encroaches on the executive branch's function to faithfully execute laws passed by the Assembly but also leads to absurd results. For instance, if federal dollars were contingent on the renaming of a state park, or if the Director of Parks and Recreation exercised his statutory duty to acquire land for a new state park, a special session would be required. The entire Legislative Assembly must then convene, agree on a new name, have the new name pass through both chambers, and be signed into law.

The christening and renaming of state parks is not a decision made lightly by the Parks and Recreation Department or this office. It requires input from multiple stakeholders, including historians and local members of the community. Asking permission from the Legislative Assembly to perform a statutory duty squarely within the executive branch's purview by inserting legislative directives into operational decisions that are already subject to appropriate checks and balances disregards the notion of three coequal branches. Good governance demands clarity, efficiency, and respect for the separation of powers, and this provision undermines all three.

Even though Section 8 itself does not contain an appropriation, not allowing the line-item veto power would force the executive branch to either accept a policy amendment or risk the overall appropriation for an executive branch agency. This would encourage the practice of logrolling, thereby disrupting an essential check and balance and violating the principle of separation of powers.

For the reasons said above, Section 8 of House Bill 1019 is vetoed.

Kelly Armstrong

Re: Senate Bill 2001

Dear President Striden:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed Senate Bill 2001 and filed it with the Secretary of State. I also have vetoed Section 6 of Senate Bill 2001.

Section 6 of Senate Bill 2001 reserves the 15th floor of the Capitol building "for the exclusive use of the legislative council." Legislative Council consists of attorneys, accountants, researchers, and auxiliary personnel who serve the members of the Legislative Assembly. The Legislative Council currently occupies the entire second floor of the Capitol building except for one legislative committee room.

The 15th floor currently is occupied by the Department of Career and Technical Education (CTE), which recently remodeled the space. The acquisition of the newly remodeled space in Section 6 of Senate Bill 2001 was proposed without input or consultation with our administration, CTE, or anyone else from the executive branch and without public discussion during the 2023-2025 interim session. Legislative council testified that additional space is needed to accommodate the increase of its staff from 45 full-time equivalent (FTE) positions to 70 FTEs as approved by the Legislative Assembly in Senate Bill 2001.

For government to work, it must work cohesively. It is crucial to foster open communication, align goals and objectives, and encourage collaboration across

departments and levels. My administration is more than willing to help Legislative Council accommodate its growing staff by identifying available space in the Capitol building, including space on the 15th floor. However, requiring the acquisition of a specific floor of the Capitol building via state law is superfluous and undermines our ongoing efforts to find ways to better utilize the Capitol building's square footage to reduce costs and save taxpayers money.

The fact Section 6 of Senate Bill 2001 is a policy item logrolled into an appropriation bill does not restrict the executive's line-item veto authority. Doing so would force the executive to choose between accepting a standalone policy item or risking the entire appropriation for a state agency. Allowing the Legislative Assembly to shoehorn general substantive policy provisions into an appropriation bill, while not simultaneously allowing the executive to veto those provisions, would undermine our system of checks and balances, and violate the longstanding principle of separation of powers.

Re: Senate Bill 2004

Dear President Strinden:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed Senate Bill 2004 and filed it with the Secretary of State. I also have vetoed Section 5 of Senate Bill 2004.

Section 5 of Senate Bill 2004 establishes a new statutory immunity provision for members of the Legislative Assembly. While transparency and ethical conduct are essential in a representative democracy, this provision elevates internal legislative procedure above state law, effectively shielding lawmakers from accountability under our criminal code.

The state already has opaque campaign finance laws. Public confidence in government is built on the belief that no one, especially elected officials, is above the law. Codifying legislative immunity in this context undermines that principle. Moreover, this immunity provision sends the wrong message to North Dakotans: that legislative disclosure, however minimal or selective, is enough to avoid the legal consequences that any private citizen would face under similar circumstances.

Section 4 of Senate Bill 2004 is acceptable and reasonable because it appropriately clarifies that legislators must have the freedom to perform their official duties without fear of prosecution. However, Section 5 of the bill is flawed, as it attempts to grant blanket immunity from prosecution to legislators simply by virtue of their office. Disclosure is not absolution.

The fact Section 5 of Senate Bill 2004 is a policy item logrolled into an appropriation bill does not restrict the executive's line-item veto authority. Doing so would force the executive to choose between accepting a standalone policy item or risking the entire appropriation for a state agency. Allowing the Legislative Assembly to shoehorn general substantive policy provisions into an appropriation bill, while not simultaneously allowing the executive to veto those provisions, would undermine our system of checks and balances, and violate the longstanding principle of separation of powers.

I urge the Legislative Assembly to reconsider granting categorical immunity to its members and return next legislative session with mechanisms for enforcing accountability and earning back public trust.

For the reasons said above, Section 5 of Senate Bill 2004 is vetoed.

Re: Senate Bill 2014

Dear President Strinden:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed Senate Bill 2014 and filed it with the Secretary of State. I also have vetoed items in Section 7 and Section 31 of Senate Bill 2014.

Section 7

Section 7 of Senate Bill 2014 directs a \$150,000 passthrough grant from the Housing Incentive Fund to a Native American-focused organization for the purpose of funding a homelessness liaison position. While it is important to make culturally informed

efforts to address homelessness, especially in our Native American communities, I cannot support this provision within Section 7.

Addressing homelessness and housing insecurity requires a comprehensive, sustainable, and statewide strategy, not isolated, one-time allocations to individual entities. A piecemeal approach risks fragmentation, inefficiency, and duplication of effort. Instead, we should invest in solutions that are coordinated across agencies, regions, and communities, ensuring all vulnerable populations are reached through a unified system.

In addition, using one-time funding to establish or support a permanent position sets up both the recipient and the state for long-term uncertainty. Staffing needs, particularly for roles as critical as homelessness liaisons, should be supported through stable, recurring funding with clear performance expectations and oversight, not one-time passthroughs. Without a sustainable funding mechanism, the impact of this grant will be short-lived, and the continuity of service will be jeopardized.

Section 31

Section 31 mandates the Bank of North Dakota to allocate up to \$250,000 from its appropriation to conduct a study focused on sustaining the economies of communities in western North Dakota as oil and gas development activities decrease.

While I support proactive economic planning and diversification, Section 31 is premature, duplicative, and misaligned with our most effective and current strategies. North Dakota remains a global leader in energy production. The Bakken formation continues to be a robust and vital engine of economic activity, and current projections indicate it will remain so for the foreseeable future. Prematurely investing resources into planning for a post-oil regional economy risks sending the wrong signal about the strength and longevity of our energy industry.

Moreover, the Department of Commerce already possesses the statutory authority and expertise to conduct studies of this nature. Should a regional economic transition become necessary, Commerce is well-positioned to initiate and lead such planning efforts using existing resources, without the need to divert \$250,000 from the Bank of North Dakota's mission-focused funds.

Finally, our most effective strategy for long-term economic diversification lies in strengthening our workforce, not in isolated studies. Investments in Career and Technical Education (CTE) centers across the state are actively expanding our capacity to prepare students and workers for high-skill, high-demand jobs across industries. These CTE programs offer an immediate and scalable impact in rural and urban communities alike and represent the best path forward for building a resilient and adaptive economy.

For the reasons said above, items within Section 7 and Section 31 of Senate Bill 2014 are vetoed.

VETO

The Honorable Michelle Strinden
President of the Senate
North Dakota Senate Chambers
State Capitol
Bismarck, ND

Re: Senate Bill 2018

Dear President Strinden:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have signed Senate Bill 2018 and filed it with the Secretary of State. I also have vetoed Section 7 of Senate Bill 2018.

Section 7 of Senate Bill 2018 appropriates \$350,000 to the State Fair Association for sanitation restoration projects. While I acknowledge the importance of maintaining and improving facilities at the North Dakota State Fairgrounds, this appropriation was not included in the State Fair Association's primary budget, Senate Bill 2009, where it rightly belonged. Adding the appropriation to Senate Bill 2018, which is a bill unrelated to the State Fair Association, at the end of the legislative session is a clear example of logrolling, which undermines transparency, accountability, and the principle of deliberative budgeting.

The appropriate forum for evaluating the merits and necessity of this funding was during consideration of Senate Bill 2009. That bill was the proper vehicle for determining the State Fair's operating and capital needs in a comprehensive and transparent manner.

Furthermore, if later it is determined the State Fair Association's budget in Senate Bill 2009 is insufficient to address sanitation restoration projects, the Association has several avenues of recourse. These include applying for funding through the Emergency Commission, seeking grants, or requesting a deficiency appropriation during the 2027 legislative session. These existing mechanisms provide a more appropriate and orderly way to address emerging needs without circumventing the standard appropriations process.

For the reasons said above, Section 7 of Senate Bill 2018 is vetoed.

Sincerely,

Kelly Armstrong
Governor

CONSTITUTIONAL AMENDMENTS APPROVED

CHAPTER 609

CONGRESSIONAL AGE LIMITS

This initiated measure creates a new article in the North Dakota Constitution entitled "Congressional Age Limits." Under this Article, no person may be elected or appointed to serve a term or a portion of a term representing North Dakota in the U.S. Senate or the U.S. House of Representatives if that person could be 81 years old by December 31 of the year immediately preceding the end of the term, and any such person is prohibited from appearing on the ballot. If a superior law requires age-limited candidates to appear on the ballot in a primary or general election, the candidates' age on December 31 of the year immediately preceding the end of the term they are seeking must be printed next to the names of all candidates for all federal legislative offices in future elections. This Article gives standing to enforce the article to any elector; permits an eligible person to file to appear on the primary election ballot or use an alternate statutory nomination method for a federal legislative office for the 2026 election immediately after this law takes effect; and provides immediate standing in the courts of this state to challenge the limited question of whether a denial violates article 1 of the U.S. Constitution. The Article also requires the Attorney General to zealously defend Section 4 of the Article and permits any elector residing within the district of an applicable office to timely join in the defense of Section 4 as a real party in interest. The Article's provisions are severable, and, if any provision is held to be invalid, the remaining provisions and their application must not be affected. If this Article conflicts with any other provision of the North Dakota Constitution, the provisions of this Article must control. The Article will take effect immediately upon passage at the 2024 primary election or 2024 general election.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. A new Article entitled "CONGRESSIONAL AGE LIMITS" is added to the Constitution of the State of North Dakota:

WHEREAS, the Vietnam Veterans Memorial Fund relies on the department of defense to compile the list of names and criteria for inclusion on the Vietnam Veterans Memorial Wall; and

WHEREAS, under Title 38, United States Code, Section 101, veterans who died as a direct or indirect result of military operations in Southeast Asia are eligible for inclusion on the memorial; and

WHEREAS, the evidence submitted regarding the accident that destroyed the U.S.S. Frank E. Evans, killing 74 of her sailors, shows the Evans had been operating in combat support missions and would have returned to combat support upon completing Operation Sea Spirit;

(Representatives J. Olson, Dockter, Heinert, Novak, M. Ruby)
(Senators Gerhardt, Kessel, Patten)

A concurrent resolution urging the federal government to take actions to enact trade policy that supports business and workers of the United States while penalizing global polluters.

WHEREAS, Chinese government-owned industry is an arm of the Communist Party and strives to increase its influence over the global economy by pursuing predatory, unfair trade practices designed to steal intellectual property and destroy competition from the United States; and

WHEREAS, China is the greatest immediate obstacle to reducing global pollution and accounts for one-third of global emissions, more than the rest of the developed world combined, while it subsidizes its exports by not imposing or enforcing environmental and labor standards comparable to those in other developed nations; and

WHEREAS, private sector innovation and American resources have led the United States to eliminate more emissions than any other country in the last fifteen years; and

WHEREAS, the United States' economy is 44 percent more carbon efficient than the world average; and

WHEREAS, goods produced in China and Russia generate 300 and 400 percent on average, respectively, more in carbon emissions compared to equivalent goods produced in the United States; and

WHEREAS, 75 percent of the goods the United States imports are from higher-polluting countries, and yet the United States is forced to compete with subsidized imports from China and elsewhere that face few limits on how much they pollute; and

WHEREAS, regulatory policies have blocked resource development on public lands in North Dakota, resulting in the United States importing over 80 percent of its critical minerals from foreign sources, with China controlling 85 percent of global processing capacity, thus enriching China and undermining domestic mineral production capabilities; and

WHEREAS, these federal environmental policies have harmed all North Dakotans by reducing revenue by an estimated \$1.2 billion to the state and royalties to mineral owners; and

WHEREAS, holding foreign polluters to the same standards as domestic producers would provide a plethora of benefits to the state of North Dakota, including diversifying supply chains by reducing the United States' dependence on imports from high-emitting producers like Russia and China, decreasing global pollution by holding the biggest polluters accountable to western environmental standards, and bolstering domestic manufacturing and generating well-paying jobs in rural areas;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-ninth Legislative Assembly urges the federal government to support trade policies that hold high-polluting countries like China and Russia accountable for pollution and bolster domestic extraction and production; and

BE IT FURTHER RESOLVED, that the Secretary of State forward a copy of this resolution to the President of the United States, the Speaker of the United States House of Representatives, the President Pro Tempore of the United States Senate, and each member of the North Dakota Congressional Delegation.

WHEREAS, the Centers for Disease Control and Prevention estimates between 1.6 million to 3.8 million concussions occur each year; and

WHEREAS, efforts must be made to reduce the risk and health care costs for the country,

veterans, and others with brain injuries; and

WHEREAS, veterans injured in the line of duty deserve the best treatment our nation can offer; and

WHEREAS, veterans suffering with traumatic brain injuries or posttraumatic stress disorder are prescribed symptom-reducing drugs; and

WHEREAS, in essence, veterans are warehoused and discharged, dependent on costly antidepressants and other antipsychotic medicines that promote dangerous dependencies and may result in lethal interactions; and

WHEREAS, traumatic brain injury is one of the leading causes of morbidity and mortality in the United States, accounting for approximately 2 million emergency room visits, between 230,000 and 500,000 hospital admissions, and 52,000 deaths annually in the United States; and

WHEREAS, hyperbaric oxygen therapy is a medical treatment that enhances the body's natural healing process by inhalation of one hundred percent oxygen in a total body chamber, where atmospheric pressure is increased and controlled, and which is used for a wide variety of treatments as a part of an overall medical care plan; and

WHEREAS, hyperbaric oxygen therapy and improving diagnostics have emerged as a promising and effective treatment in healing injured brains and subsequently reducing, and in some cases completely alleviating, the symptoms associated with the traumatic brain injury;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

HOUSE CONCURRENT RESOLUTION NO. 3014

(Representatives Rohr, K. Anderson, Dobervich, Frelich, McLeod, Meier, M. Ruby)
(Senators Dwyer, Hogue, Myrdal)

A concurrent resolution urging public health, health care systems, and health care providers to prioritize primary prevention in addressing vitamin D deficiency through multifaceted precision public health and medicine approaches.

WHEREAS, vitamin D is generated primarily from the sun and research demonstrates the need for regional sun exposure and vitamin D recommendations to offset individual and population health risk factors for disease; and

WHEREAS, North Dakota is located at a latitude of 48 degrees and has an ultraviolet index of less than three for up to 6 months of the year due to the solar zenith, from October to April, which limits the vitamin D generating potential from sun exposure; and

WHEREAS, this environmental determinant of health puts all residents of the state at risk for vitamin D deficiency and insufficiency compared to citizens of the United States in southern latitudes, potentially leading to suboptimal health outcomes and increased health care costs for residents; and

WHEREAS, research indicates it is difficult to achieve the daily recommended intake of vitamin D from foods alone and there is a causal relationship between vitamin D deficiency and all cause mortality, cardiovascular disease, dementia, multiple sclerosis, diabetes, and many types of cancer, including breast, pancreatic, and colorectal cancers; and

WHEREAS, research indicates an association between vitamin D deficiency and emotional regulation, mental health conditions including Alzheimer's disease and other types of dementia, suicide and suicidal ideation, depression, and opioid addiction; and

WHEREAS, research indicates an association between vitamin D deficiency and autoimmune disease, myocardial infarction, and stroke;

WHEREAS, research indicates adequate vitamin D intake results in improved prenatal and neonatal outcomes, including reducing the risk for pre-eclampsia, gestational diabetes, and preterm birth; and

WHEREAS, research indicates women with 25(OH)D serum concentrations equal to or greater than 60 nanograms per milliliter had an 80 percent lower risk of breast cancer than women with concentrations of less than 20 nanograms per milliliter; and

WHEREAS, research indicates vitamin D supplementation and sensible sun exposure safely and effectively increase vitamin D serum concentrations; and

WHEREAS, the Legislative Assembly advocates for statewide educational campaigns aimed at increasing awareness of vitamin D deficiency; its risks; the importance of adequate vitamin D levels, particularly for pregnant individuals, children, and those with mental health concerns; and other heightened risk factors for the public and health care professionals;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-ninth Legislative Assembly urges North Dakota public health, health care systems, and health care providers to prioritize primary prevention in addressing vitamin D deficiency through multifaceted precision public health and medicine approaches that recognize both regional and individual determinants of health in diverse populations across the lifespan to improve patient outcomes, population health, and decrease overall health care costs; and

BE IT FURTHER RESOLVED, that the Sixty-ninth Legislative Assembly urges the State Health Officer to publish this resolution on the official website of the department of health and human services; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the State Health Officer, North Dakota public health units, American Hospital Association, North Dakota Long Term Care Association, North Dakota Medical Association, North Dakota Nurses Association, North Dakota Nurse Practitioner Association, North Dakota University System institutions of higher education, North Dakota private universities, and the North Dakota Department of Public Instruction.

HOUSE CONCURRENT RESOLUTION NO. 3015

(Representatives Novak, D. Anderson, Dockter, Hagert, Heinert, J. Olson, Porter,
Tveit)
(Senators Boehm, Patten)

A concurrent resolution urging the Southwest Power Pool and Midcontinent Independent System Operator to promptly and decisively act to maintain the reliability of the bulk power system by addressing market failures that have allowed capacity retirements to outpace replacement.

WHEREAS, the welfare of North Dakota's citizens and its economic security depend on a reliable, affordable, and resilient electric power supply; and

WHEREAS, the Federal Energy Regulatory Commission has expressed concerns about the reliability and stability of the regional and national electricity grid due to the rapid retirement of dispatchable generation resources, delays in the development of replacement capacity, and the increasing reliance on intermittent energy sources, which collectively pose risks to the ability of regional transmission organizations like Southwest Power Pool and Midcontinent Independent System Operator to ensure consistent and reliable power delivery; and

WHEREAS, the North American Electric Reliability Corporation's 2024 Long-Term Reliability Assessment warns that over half of North America faces elevated risks of energy shortages due to increasing demand, rapid generator retirements, and delays in resource development; and

WHEREAS, the Midcontinent Independent System Operator has been identified as a high-risk region, with resource adequacy targets potentially falling short within the next 5 years, while the Southwest Power Pool is also categorized as an elevated-risk region; and

WHEREAS, Midcontinent Independent System Operator and Southwest Power Pool, which serve North Dakota, have experienced repeated maximum generation alerts and load-shedding events in recent years, highlighting the critical need to address resource adequacy and reliability issues; and

WHEREAS, the accelerated retirement of dispatchable base-load generation resources, combined with insufficient replacement capacity, creates a widening reliability gap as weather-dependent resources saturate the grid; and

WHEREAS, announced dispatchable generation retirements in the 15-state Midcontinent Independent System Operator region are projected to exceed 30 gigawatts by 2030, further exacerbating resource adequacy challenges; and

WHEREAS, direct and indirect subsidies for specific energy resources distort market economics, making it difficult for dispatchable base-load generation resources to remain economically viable and accelerating early retirement; and

WHEREAS, Midcontinent Independent System Operator has identified six critical reliability attributes, including availability, energy assurance, fuel assurance, rapid start-up capability, ramp-up capability, and voltage stability, which are essential for maintaining grid reliability; and

WHEREAS, reforming market pricing mechanisms are urgently needed to ensure these critical attributes are appropriately valued, supporting the continued operation of resources necessary for grid reliability and resilience; and

WHEREAS, state and federal renewable energy mandates, while promoting the development of weather-dependent generation, do not fully account for impacts on grid reliability, market distortions, and the availability of dispatchable generation during periods of peak demand and extreme weather; and

WHEREAS, under the leadership of President Donald Trump, executive actions, including the "unleashing American energy" executive order, emphasized the importance of maintaining domestic energy reliability, reducing regulatory barriers, and promoting fair competition for all energy resources on a level playing field; and

WHEREAS, North Dakota supports a diversified energy strategy that includes thermal, renewable, and emerging technologies, such as hydrogen and carbon capture, utilization, and storage, to ensure the state and the nation have access to an affordable, reliable, and resilient energy grid;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-ninth Legislative Assembly urges Southwest Power Pool and Midcontinent Independent System Operator to take immediate and decisive actions to maintain the reliability of the bulk power system by addressing market failures that have allowed capacity retirements to outpace replacement; and

BE IT FURTHER RESOLVED, that the Sixty-ninth Legislative Assembly urges the Public Service Commission and North Dakota Transmission Authority to advocate for policies at Midcontinent Independent System Operator and Southwest Power Pool that fairly compensate dispatchable base-load energy resources, accurately value all generation resources based on contributions to grid reliability, and ensure the availability of generation at all hours to meet demand; and

BE IT FURTHER RESOLVED, that market structures must reflect and promote a balanced energy mix by valuing thermal, renewable, and emerging resources based on the utility's ability to maintain grid reliability, affordability, and resilience; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Federal Energy Regulatory Commission, Public Service Commission, North Dakota Transmission Authority, each member of the North Dakota Congressional Delegation, Midcontinent Independent System Operator, and Southwest Power Pool.

WHEREAS, North Dakota's oil industry contributes approximately \$8 million per day in extraction and production tax revenues, \$26 billion since 2008, and over half of total state tax revenues annually; and

WHEREAS, oil and gas tax revenues contribute to the well-being of the state, providing a stable tax base, prospering economy, well-paying jobs, and energy security; and

WHEREAS, current recovery methods produce only a small portion of the Bakken Formation's estimated oil in place; and

WHEREAS, it is estimated that utilization of enhanced oil recovery methods could unlock several billion barrels more of incremental oil production, and extend Bakken Formation production by several decades; and

WHEREAS, North Dakota's coal industry supports nearly 12,000 jobs in the state, contributes \$2 billion in gross domestic product, and \$100 million in state and local tax revenues; and

WHEREAS, the coal industry has been a leader in pursuing technologies to capture carbon dioxide from its coal-fired power and gasification facilities; and

WHEREAS, carbon dioxide captured from North Dakota's energy and agriculture facilities is a valuable commodity that will be necessary to achieve full deployment of enhanced oil recovery in North Dakota's oil shale formations and conventional reservoirs; and

WHEREAS, the state has been a leader in investing in research and development to unleash the full potential of all its energy resources, and in creating a regulatory environment that fosters the development of carbon capture, utilization, and storage technologies; and

WHEREAS, successful deployment of enhanced oil recovery will unlock the full potential of the Bakken Formation, enhance North Dakota's coal industry, and support the continued growth of North Dakota's energy industries, supporting the Trump Administration's goals of achieving energy dominance and energy security;

HOUSE CONCURRENT RESOLUTION NO. 3017

(Representatives Novak, D. Anderson, Dockter, J. Olson, S. Olson, Porter, Tveit)
(Senators Kessel, Patten, Boehm)

A concurrent resolution recognizing December 6th as annual "Miner's Day" to honor the hard work and dedication of coal miners, whose critical efforts provide reliable and affordable energy to millions of people, fuel economic growth, and support the energy security of North Dakota and the region.

WHEREAS, North Dakota's lignite coal industry is a cornerstone of the state's economy, contributing over \$5.5 billion in total business activity, employing 12,000 individuals with some of the highest wages in the state, and generating \$100 million in tax revenue to support schools, infrastructure, and public services; and

WHEREAS, lignite coal generates 55 percent of North Dakota's electricity, providing affordable and reliable power to more than 2 million families and businesses throughout the upper Midwest while supporting regional energy security; and

WHEREAS, North Dakota consistently ranks among the states with the lowest residential electricity rates in the nation, with an average rate of 11.44 cents per kilowatt-hour as of 2025, ranking second-lowest in the United States, largely due to coal serving as the dominant source of electricity generation in the state, which ensures reliability and affordability for residents; and

WHEREAS, North Dakota has an estimated 800-year supply of economically recoverable lignite coal reserves, ensuring long-term energy independence and resource stability for the state and the nation; and

WHEREAS, recent studies by the North Dakota Geological Survey have confirmed the presence of significant concentrations of rare earth elements in the state's lignite coal deposits, including samples that surpass the United States Department of Energy's economic extraction threshold of 300 parts per million; and

WHEREAS, the extraction of critical minerals and rare earth elements from this state's lignite coal seams and associated deposits offers the state an opportunity to diversify its economy, create high-value careers, and establish itself as a leader in this emerging sector; and

WHEREAS, value-added uses of lignite coal, such as activated carbon, synthetic graphite, critical mineral and rare earth element extraction, and advanced materials, demonstrate the versatility and economic potential of coal as a resource that extends beyond power generation; and

WHEREAS, responsible development of these resources can be achieved by ensuring environmental stewardship, protecting freshwater supplies, and supporting land reclamation practices that align with prior land use and productivity; and

WHEREAS, advancements in carbon capture technologies have unlocked opportunities to transform carbon dioxide emissions from coal-based energy production into valuable commodities, including fertilizers, industrial chemicals, enhanced oil recovery products, and low-carbon fuels, which benefit North Dakota's agricultural and industrial sectors; and

WHEREAS, carbon dioxide is critical for plant life and global food production through photosynthesis, and North Dakota's lignite coal industry is well-positioned to support agricultural innovation by converting captured carbon into sustainable agricultural products; and

WHEREAS, the development and deployment of lignite coal technologies create economic diversification, expand market opportunities, and ensure the long-term sustainability of coal as a critical resource for North Dakota; and

WHEREAS, federal regulations have created a de facto ban on the construction of new coal-based power plants by imposing economically unfeasible requirements, jeopardizing the continued operation of existing plants and discouraging private investment; and

WHEREAS, federal policies and tax incentives have provided subsidies to renewable energy resources for over 30 years, creating market imbalances that place coal at a competitive disadvantage and hinder its ability to contribute to a balanced, reliable, and affordable energy mix; and

WHEREAS, North Dakota serves as a model for responsible resource development, consistently reclaiming mined land to a condition equal to or better than its original state and meeting all federal ambient air quality standards, one of only four states to have never violated those standards; and

WHEREAS, affordable, reliable energy is the backbone of established industries in North Dakota, Minnesota, and South Dakota such as agriculture, manufacturing, and energy production and is vital for supporting the growth of emerging technologies and innovations across the Upper Midwest; and

WHEREAS, advancements in energy technologies offer enormous potential to ensure the continued use of lignite coal while reducing emissions and contributing to environmental sustainability; and

WHEREAS, President Donald J. Trump declared a national energy emergency in January 2025, emphasizing the importance of using domestic energy resources, including lignite coal, to strengthen the reliability and affordability of energy for the United States; and

WHEREAS, the administration's "unleashing American energy" executive order calls for the expansion of energy exploration and production on federal lands and waters, reducing barriers to development and promoting the use of reliable resources such as coal; and

WHEREAS, President Donald J. Trump directed the Environmental Protection Agency to review and reconsider the 2009 Endangerment Finding, which classified greenhouse gases as harmful to public health, potentially paving the way for balanced, economically viable regulations that protect both the environment and energy production; and

WHEREAS, the repeal of the Endangerment Finding would eliminate regulatory barriers that have effectively prevented the construction of new coal-based power plants, allowing for the development of efficient, cost-effective, and environmentally responsible coal technologies;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Sixty-ninth Legislative Assembly recognizes December 6th as "Miner's Day" to honor the hard work and dedication of coal miners, whose critical efforts provide reliable and affordable energy to millions of people, fuel economic growth, and support the energy security of North Dakota and the region; and

BE IT FURTHER RESOLVED, that the federal government is urged to refrain from enacting regulations that jeopardize the reliability and affordability of electric power in North Dakota, while supporting policies that improve market conditions for base-load electricity, encourage the expansion of generation resources, and accelerate research, development, and deployment of technologies essential to the lignite plant of the future; and

BE IT FURTHER RESOLVED, that the federal government is urged to review and repeal the 2009 Endangerment Finding to enable a balanced regulatory framework that supports coal-based energy production and economic growth while addressing environmental concerns; and

BE IT FURTHER RESOLVED, that the federal government is urged to revise policies and regulations that unfairly disadvantage coal-based energy production, ensuring a level playing field that allows all energy resources, including coal, natural gas, nuclear, and renewables, to compete fairly in the electricity marketplace; and

BE IT FURTHER RESOLVED, that the federal government work collaboratively with the state of North Dakota, the North Dakota Congressional Delegation, and the lignite coal industry to develop regulatory frameworks based on sound science, the status of existing technologies, and economically feasible timelines; and

BE IT FURTHER RESOLVED, that federal agencies increase their partnership with North Dakota to accelerate technological advancements in critical and rare earth minerals, carbon capture and other innovations to ensure the continued operation of coal-based facilities while reducing emissions; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the President of the United States, the Administrator of the United States Environmental Protection Agency, the Secretary of the Department of Energy, the Secretary of the Department of the Interior, and each member of the North Dakota Congressional Delegation.

A concurrent resolution directing the Legislative Management to consider studying water and wetlands regulations and the taxation of inundated lands in the state.

WHEREAS, the management of water and wetlands resources is a complex issue with significant implications for public health, economic development, and agriculture; and

WHEREAS, determining the boundaries of specific wetlands is imperative to protect both public and private property losses; and

WHEREAS, the jurisdiction over water and wetlands often is unclear and involves multiple levels of government, including federal, state, and local agencies; and

WHEREAS, overlapping jurisdictions can create confusion, delays, and inconsistencies in the regulation and management of water and wetlands; and

WHEREAS, boards of county commissioners are authorized to remove from the tax rolls all inundated lands, often resulting in inconsistent application; and

WHEREAS, seasonal wet areas and meltwater concentrations are considered jurisdictional wetlands by some authorities; and

WHEREAS, despite being a jurisdictional wetland, these areas are nuisance areas where crops cannot grow for most of the year, and only become productive acres after the initial spring runoff; and

WHEREAS, seasonal wet areas can create concentrations of salts and other substances that permanently impair soil and soil productivity; and

WHEREAS, seasonal wet areas become dry in the summer and serve little value as a wildlife habitat; and

WHEREAS, a comprehensive study of the jurisdictional framework is necessary to identify potential conflicts, overlaps, and gaps in authority and tax treatment; and

WHEREAS, a study will provide valuable information to the Legislative Assembly in developing effective and efficient policies for the protection and management of water and wetlands resources; and

WHEREAS, addressing confusion and property disputes caused by the declaration of navigability and property titles deriving from patents issued by the United States will provide valuable information to the Legislative Assembly concerning the determination of lawful ownership and tax treatment;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Management shall consider studying water and wetlands regulations and the taxation of inundated lands in the state; and

BE IT FURTHER RESOLVED, that the study must include a review of the different methods to assess and document boundaries for wetlands; an examination of the regulation of water, wetlands, and inundated lands laws of other states; an inventory of all federal, state, and local laws, regulations, and policies relating to the jurisdiction of water and wetlands; an analysis of the environmental protection and public health jurisdictional framework, including an identification of potential conflicts, overlaps, and gaps in authority; and recommendations for improving the clarity, consistency, and efficiency of the jurisdictional framework in water management; and

BE IT FURTHER RESOLVED, that the study also must explore viable legal options to fill and drain nuisance areas, examine the impacts of seasonal wet areas on agriculture productivity and soil health, and identify the value of these areas to resident wildlife; and

A concurrent resolution urging the United States Federal Government, Congress, and the Governor of North Dakota to end the disadvantaged business enterprise program.

WHEREAS, the President Donald J. Trump issued executive orders directing federal agencies to align with the administration's policy to terminate diversity, equity, and inclusion initiatives (DEI); and

WHEREAS, the orders directed that employment, procurement, and contracting practices of federal contractors and subcontractors may not consider race or gender and further required every federal contract or award to certify the recipient does not operate any programs promoting diversity, equity, and inclusion which violate any applicable federal anti-discrimination laws; and

WHEREAS, the Department of Government Efficiency (DOGE) has been tasked with identifying inefficiencies within the federal government; and

WHEREAS, the United States Department of Transportation and the North Dakota Department of Transportation administer the disadvantaged business enterprise program; and

WHEREAS, the disadvantaged business enterprise program (DBE) is a form of DEI; and

WHEREAS, the DBE program requirements are burdensome and often a deterrent for contractors to bid federally funded projects; the requirements increase contractors' overhead costs, reduce competitive bidding, and prevent general contractors from offering the lowest possible bid, thus wasting taxpayer funds; and

WHEREAS, the increased costs due to the DBE program are not needed, do not add value, and do not serve the taxpayer; and

WHEREAS, government construction contracts should be awarded based on the lowest responsible bid, not based on the color of someone's skin, race, sex, or any other presumption of social disadvantage; and

WHEREAS, the United States District Court for the Eastern District of Kentucky granted a limited preliminary injunction against the United States Department of Transportation in the case Mid-America Milling Co., LLC v. United States Department

of Transportation and the court found the race and gender-based rebuttable presumptions used in the DBE program violate the equal protection clause of the 14th Amendment to the United States Constitution;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Sixty-ninth Legislative Assembly supports President Trump and his administration's efforts to eliminate DEI policies from the federal government including the DBE program; and

BE IT FURTHER RESOLVED, that the Sixty-ninth Legislative Assembly encourages the DOGE to take steps to eliminate the DBE program, and all other related DEI programs; and

BE IT FURTHER RESOLVED, that the Sixty-ninth Legislative Assembly encourages the North Dakota Congressional Delegation to work to remove DEI initiatives, policies, and requirements from funding to states; and

BE IT FURTHER RESOLVED, that the Sixty-ninth Legislative Assembly supports the Governor of North Dakota ending the North Dakota Department of Transportation DBE program as soon as allowed under federal law; and

BE IT FURTHER RESOLVED, that the Sixty-ninth Legislative Assembly supports the North Dakota Attorney General taking any available legal action to assist in striking down DBE program requirements and practices in the state; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to each member of the North Dakota Congressional Delegation, the President of the United States, the Governor of North Dakota, the Attorney General of North Dakota, and the Administrator of the Department of Government Efficiency.

CHAPTER 647

SENATE CONCURRENT RESOLUTION NO. 4024

(Senators Mathern, Hogue, Bekkedahl)
(Representatives Koppelman, Lefor)

A concurrent resolution directing the Legislative Management to consider studying using dedicated funds in the Capitol building fund to build a legislative office building.

WHEREAS, the Capitol building fund was created at statehood through a grant of 50,000 acres of land to the state for the purpose of financing construction of public buildings for legislative, executive, and judicial use and, in 1957, Congress expanded the purpose of the fund to allow the fund to be used for construction, renovation, and other improvements of public buildings at the Capitol; and

WHEREAS, the 1967 Legislative Assembly considered the need to improve legislative committee rooms and provide office space for committee chairmen, legislative study lounges, and Legislative Council offices; and

WHEREAS, the 1967 Legislative Assembly adopted legislation directing the Capitol building fund be dedicated and reserved for the exclusive purpose of the construction of an addition to the legislative wing; and

WHEREAS, since 1967, money in the Capitol building fund has been used for a variety of purposes including the payment of special assessments and the construction and maintenance of the Governor's residence; and

WHEREAS, a significant portion of the land granted to the state and the assets of the fund continue to contribute to the balance of the Capitol building fund, which is in excess of \$5,000,000, despite appropriations from the fund for other purposes totaling nearly \$13,000,000 over the last 3 bienniums; and

WHEREAS, many legislative meeting rooms are too small to accommodate the public, lack secondary or emergency exits, and are not designed to function with today's technology; and

WHEREAS, the legislative parking lot frequently is in need of repair, and during legislative sessions often is covered with snow and ice causing unsafe conditions; and

WHEREAS, our Capitol is one of the few in the country in which legislators have no dedicated place to work or private space to meet with constituents; and

WHEREAS, long-term Capitol facility plans have explored the option of building a parking structure on the west side of the legislative wing rather than continuing to repair the legislative parking lot; and

WHEREAS, construction of a parking structure also would present an opportunity to include above the parking structure space for modern committee rooms, legislative offices and meeting space, and office space for legislative staff; and

WHEREAS, construction of a legislative office building would allow executive branch agencies that are leasing office space off the Capitol grounds to move into the Capitol, saving money on leased space and providing greater access to the public; and

WHEREAS, as the Capitol approaches its 100th anniversary, it is vital for the Legislative Assembly to address the future needs of the legislative branch and provide future legislators with the tools necessary to retain the Legislative Assembly's constitutional role as a coequal branch of government;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Management consider studying using dedicated funds in the Capitol building fund to build a legislative office building; and

BE IT FURTHER RESOLVED, that the Legislative Management report its finding and recommendations, together with any legislation required to implement the recommendations to the Seventieth Legislative Assembly.
