

Support SB 2408

Hello!

My name is Julianna Blanton, and I am a resident of Denison, Texas. Although I am not a resident of North Dakota, I want to tell you that I support SB 2408, but only for 7-OH and synthetic products.

I urge you to keep whole natural leaf kratom legal, and ban the synthetic products, including 7-OH. Natural kratom and 7-OH are NOT the same thing, and I have heard that the sponsor might flip this bill to a FULL BAN, which I do not support.

Let's keep natural kratom legal, and ban the synthetic products, including 7-OH. Kratom has improved my quality of life, and has done the same for many others, and it will affect so many people if they lose access to natural leaf kratom products.

I have been able to manage my chronic joint pain better than I have ever been able to because of natural leaf kratom. My energy levels and my mood have been highly supported because of natural leaf kratom, and natural leaf has overall completely changed my life, and improved the quality of my life for the better.

I strongly urge you to keep natural leaf kratom legal.

Thank you for your time!

Best,

Julianna Blanton from Texas
