

I support SB2408

Good Morning,

I see that you are having a meeting where you will decide to ban all synthetic products I'm all for the banning of all synthetic dangerous products like 7-OH. The DEA is too. They just announced that **all** synthetics will be banned very soon. I wanted to ask you to make sure you keep organic natural whole leaf kratom legal for those like me that suffer daily in chronic pain. There are many who suffer in pain that need access to the natural leaf plant so they don't suffer on a daily basis. If natural whole leaf is banned people will be in agony. The last thing we need is pain patients running to the streets seeking pain relief and God forbid they overdose or pass away just looking to simply not be in pain.

So yes, I SUPPORT SB2408 to BAN all synthetic products but to keep NATURAL WHOLE LEAF KRATOM LEGAL IN NORTH DAKOTA.

Thank you for your time

Yours Truly,

Shannon Hareld
