

The Ransom County Fair in Lisbon, North Dakota has been in existence since 1952. We recently replaced 2 very old barns on our Ransom County Fair Grounds in Lisbon, ND. We replaced them with a steel span 150 x 60 ft multi-use facility and a showring. Included are 3 horse stalls and 146 removeable steel pens for the goats, pigs, and sheep during our county fair. The 4-H clubs in our county have around 200 individuals that show at our fair in August each year. There are 2 bathrooms with showers and an office. Building is also heated. Cost was over \$900,000.00. We have received some donations; we have also applied for grants and have received some. The balance is funded by a loan for \$500,000.00. The building is currently being used for Archery for more than 80 participants.
