

"I strongly support SCR 4006 and urge the committee to pass this resolution to show that North Dakota stands behind the federal protection of the TRNP wild horses."

I may not live in ND but when I see wild horses, I'm in awe of their beauty and how they travel far and know the lands so well. They can roam free and be wild just how nature intended it to be. DO NOT take away their home. They are no harm to us humans, they just want to be. Stop taking away things that are not yours. Stop ruining mother nature and her beauty. Please start making changes that benefit animals, humans and mother nature, the lands. Make better changes today so we can all come together and create a better world for humanity. Wild horses are a symbol of freedom, the American West, wild spirit, resilience and spiritual significance especially in some Native American cultures. Do better.

Thank you,

Brittany Rousseau
