

TRNP Wild Horses

I am writing you today because I feel that the wild horses in Theodore Roosevelt National Park deserve federal protection.

This herd is a symbol of our past with bloodlines back to the Crazy Horse era.

I have been planning a trip to visit TRNP and they are my main reason. I want to see what Roosevelt saw and feel what he felt.

I think these protections are necessary in keeping them safe from removal and keeping them genetically viable for all future generations to see.

Please pass SCR 4006

Thank you Suzanne..
